Omaha People are Entitled to the Best Cream

A few days ago a gentleman returning from his vacation came in stating: "Lordy! You ought to have seen the cream I had on the farm."

The reply we gave him was, "We have as good cream as any farmer could have on his farm." He tried the cream we gave him and the next day reported that it was everything that one could desire in cream, and immediately gave us his standing order.

A half-pint of good cream cannot be sold at the price of good milk because it takes almost a quart and a half of milk to make a half-pint of cream. Therefore we recommend our "Special Jersey Brand Cream" at 10 cents a half pint, or our "XX Exceptional Cream" at 15 cents per half pint. Either brand will whip.

The body of the cream will not always be a true test of its quality. Try it in your coffee when you are making comparisons and note the color and flavor.
