The little girl was playing in the middle of the street, when the horse, driven at a rapid rate, came around the corner. The youth rushed into the street and grasping the girl, tore her from in front of the horse, with not an inch to spare. The father of the girl offered to reward him, but the boy said he hadn't the time to wait for a reward, as he had to get to the ball park. The lad is well known in Omaha.

# A. W. Fowler of Fremont Goes to New York to Learn of Banking

Alfred W. Fowler, son of W. H. Fowler of Fremont, is now working in the National City Bank of New York, the most powerful banking organization in the United States, as a preparation for the school course which the institution conducts to prepare young men to go out into foreign countries and extend the work of the bank in the foreign field.

ALFRED W. FOWLER

Mr. Fowler, after being graduated from the Fremont High school, went to the University of Chicago, for one year and then entered a four-year course at Yale, specializing in modern languages and receiving the degree of B. A., with election to the honor fraternity of Phi Beta Kappa, one of the highest honors awarded by American universities.

He was chosen from his class as a fit candidate for the collegiate banking class of the National City Bank, and when he has finished a year of work in the different departments of the bank, to familiarize himself with banking practice, together with a rigid course of instruction, he will be sent to some foreign city where the National City bank has established a branch. An appointment of this sort is generally a fortune in itself, and if a man's record bears out the indications which led to his appointment, he is almost assured of rapid and profitable advancement.

# DEMS PULLING IN THE POSTMASTERS

Chairman Langhorst Calls Them for Conference in South Nebraska.

## LACK OF CASH IS NOTED

(From a Staff Correspondent.)  
Lincoln, Sept. 2.—(Special.)—The democratic campaign in Nebraska is getting in such a hopeless mess that it has been necessary to call the federal brigade and democratic postmasters to the rescue.

The situation has become so muddled, that Chairman Langhorst has been compelled to leave his post of duty at headquarters and hike out into the state in an effort to stem the inevitable defeat which some them already admit is ahead of some of their candidates.

While the chairman has been rushing around out in the state conferring with the postmasters a personal representative of Senator Hitchcock, who has been putting in time out in the state in a hopeless effort to stem the tide of votes which are going to John L. Kennedy, has brought in reports gloomy.

Chairman Langhorst of the democratic state committee last Wednesday held a secret session with postmasters from Nemaha, Pawnee, Richardson and Johnson counties in an office in the court house at Falls City, in which the situation was put up to them squarely and they were asked to come to the help of the committee.

What help they will give in the face of an order that postmasters stay out of politics is not known, but the fact that the committee is up against it so hard that it is willing to fracture the nonpartisan regulation indicates the critical situation they are in.

Polling of trains does not appear to be so popular an amusement as it was when the campaign first started, when on two trains polled Wilson had a few more votes than Hughes. Since that time no democrat has aspired to tell a like story. On a train coming into Lincoln from the northwestern part of the state every coach but one showed from seven to fifteen more votes for Hughes.

The democratic committee is much worried because mighty few responses are coming in, where calls have been made for the faithful to come across with the coin. One man prominent in the campaign and who has been putting in much time over the state said today that the lack of "oil" to lubricate the democratic machine was a serious one. This probably explains why the postmasters are being conferred with.

## Wuxtry! Judge Day Turns Down Chance To Be Millionaire

District Judge George A. Day is not a speculator. He admits, however, that during his vacation he revived his abilities as a champion milker, his tired wrists and fingers bearing witness. The judge returned to the bench Friday after spending several weeks in the hills near Juanita, Colo. He tells this story of his refusal to make a million:

"While tramping about the hills I met a grizzled prospector whose stories of better days were enchanting. 'Even now,' he informed me, 'I have a claim where the end of the tunnel is just sixteen feet from \$1,000,000. I haven't the money to continue further development work and in order to insure same one a fortune I will just sell you a half interest in that million for \$5,000.'

"The offer was tempting, but I informed the old miner that I was just sixteen feet from the necessary \$5,000 and would have to spurn his kind advance. He is but one of hundreds of old timers in that vicinity just managing to exist. In former years they made and lost fortunes.

"My days on the farm were the days of real sport. After several unsuccessful tussles with the bossies I became the champion milker of the farm. It's surprising how soon one's forgotten talents can be revived through a little practice."
