## Negro Who Fatally Cuts Another Gives The Police a Battle

J. Biggs, 2913 Lake street, a negro, lies at St. Joseph's hospital at the point of death as the result of a cutting affray at Twenty-ninth and Lake streets yesterday afternoon.

His assailant, Will Dawson, negro, was captured by Motorcycle Policeman A. C. Anderson after the latter, when the slasher had hurled a razor at the officer, emptied his revolver at him and cornered him in an alley.

The police characterized the attack upon Biggs as "extremely vicious." Bad blood had existed between the two men for some time, it is said.

The police said Biggs was not armed with a "blade."

After terribly mutilating Biggs, Dawson ran from the scene.

When Policeman Anderson finally ran down the negro the latter refused to submit to arrest and gave battle. The policeman's coat was slashed to ribbons.

Dawson was overpowered when the police brought him to bay in the alley.

## Bluffs Police Say They Got Omaha City Dad as Speeder

"Walter Jardine of Omaha" was the name entered on the Council Bluffs police records Friday evening when Captain Shaefer arrested an alleged speeder on lower Broadway and took him to the police station.

The man charged with speeding put up a \$5 cash bond, which he forfeited by failure to appear in police court in the morning. The Bluffs police said the speeder was City Commissioner Jardine of Omaha.

## Police Chief Says Autoists' Lights Must Be Just So

Police Chief Henry Dunn has issued orders to members of the motorcycle squad instructing them that the ordinance providing for a white light in front and a red light to the rear of a car must be strictly enforced. No spotlight in addition to the front lights will be tolerated, neither will a red and green light on the front of the machine be allowed.

## Trouble Brewing In Farmers' Union Over Men Fired

Trouble is brewing in the general offices of the Farmers' Educational and Co-Operative State Union of Nebraska, Eleventh and Harney streets, because of the sudden discharge of

General Manager D. R. Ellis, Assistant Manager C. R. Jones, Mrs. Anna Johnson, head of miscellaneous work, and A. J. Mills, bookkeeper.

It is asserted that these were ordered discharged through the efforts of C. H. Gustafson, president, and O. E. Wood, state organizer.

"It looks as if they are trying to make more places for members of their families," said one man. "Mr. Wood already has a son on the payroll. Mr. Wood already has a brother

who has made application for the position of assistant manager."

The discharges were ordered in July, to take effect August 31. No one appeared to take up these positions at the time named.

At a meeting of the Implement Dealers' association in Omaha early this year one speaker declared the farmers' union "has within itself its own destruction."

The union has more than 30,000 members in the state and 972 local

organizations. It did over \$1,000,000 of business last year.

## Judge Discharges Three Alleged Traffic Violators

C. A. McKerson, 2220 Chicago street, was fined \$5 and costs for violating the traffic regulations. Sam Cohen was fined \$1 and costs, while H. Richards, 1823 North Twenty-third street; T. Texon, Benson, and J. B. Newman, 5009 Capitol avenue, were discharged.

## Grain Market Rallies As Strike Talk Quiets

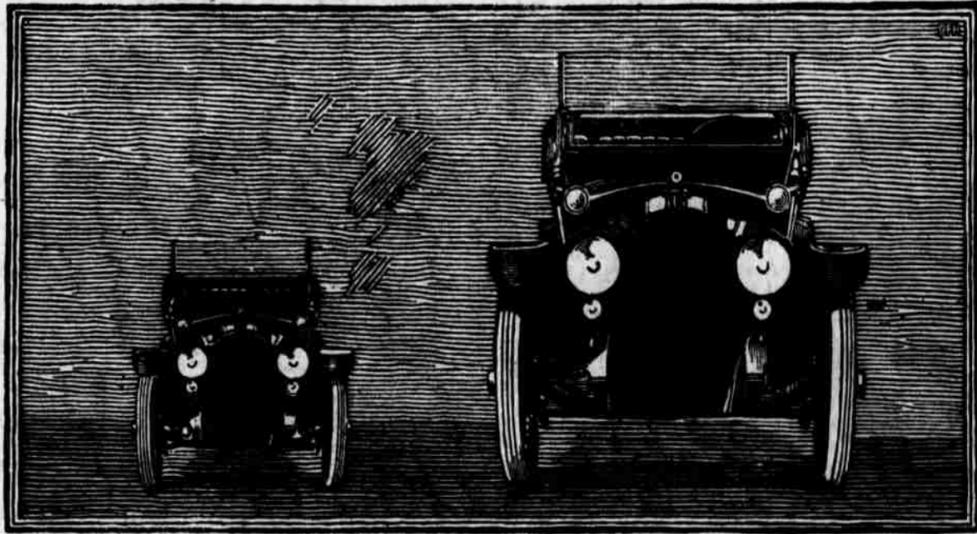

With the prospects of a railroad strike well out of the way the Omaha grain market was strong and receipts fairly heavy for a Saturday.

Wheat was up 1/2@1c, selling at \$1.40@1.45, with 126 carloads on the market. Corn sold up 1/4@3/4c and at 78@80c, the receipts being seven-

teen cars. Oats scored an advance of 1/4@1/2c, selling at 42 1/2@43 1/4c, with thirty-one carloads on sale.

## Big Decrease in Holland's Emigration Figures

(Correspondence of The Associated Press.) Amsterdam, Netherlands, Aug. 15.—According to reports of the Emigration commission, only 6,178 persons emigrated from Rotterdam to North America during the last year, as compared with 82,470 in 1913.

# Expansion! It's big production that has decreased Packard cost—and increased Packard worth

Fifty—*fifty* a day now—as against fifteen a day before the Twin-six was created—before Packard's crowning achievement in motors was launched upon an eager market.

Three-fold—and more—the increase has been—a direct gain to the man who buys a Packard.

Tripled production enables us to buy materials to greater advantage—to use more ingenious special machinery, labor-saving methods and manufacturing systems. And it enables us to charge against each car a smaller part of a relatively smaller "overhead"—for both the making and the selling.

That's why Packard quality has gone up as Packard costs have come down.

The new Model is here.

To produce this refined, "glorified," better Packard, it was necessary to enlarge our organization to include 13,000 American workers—to double our factory space and increase its efficiency—to build up an engineering staff twice as large as that of any other maker.

And that staff has further *developed* the Twin-six—has created a motor which gets utmost mileage from even low-grade gasolines.

Big—and better—production has enabled us to deliver the most efficient, the most economical, the most luxurious Packard ever built, at a price as significant in automobile history as the Twin-six motor itself—open cars—\$2,865 and \$3,265—f. o. b. Detroit.
