

### ENTENTE DRAWS NOTE TO SWEDEN

Friction Over Blockade Policy of Great Britain Apparently Nearing Acute Stage.

#### SWEDEN SEIZES COFFEE

Paris, Sept. 15.—The French government has instructed the minister at Stockholm to join with the other entente ministers in presenting a friendly but firm note to Sweden in regard to its policy of neutrality. The note takes issue with the position of Sweden in distinguishing between submarines for war and those for commerce, which the French government affirms has "an effect contrary to neutrality," since the Swedish naval forces would hesitate to attack a German submarine in Swedish waters under the pretext that it might be a commercial submarine, whereas there would be no similar hesitation in dealing with a submarine of the allies because they have no commercial submarines.

#### Sweden Seizes Coffee.

Berlin, Sept. 15.—(By Wireless to Sayville.)—A Stockholm dispatch to the Overseas News agency says that Sweden has held up 10,000 tons of coffee destined for Finland, presumably on account of the fact that Great Britain has detained shipments of coffee for Sweden. As a result there is a great scarcity of coffee in Finland.

Great Britain and Sweden have been at odds since the early period of the war, and Sweden's unyielding attitude evidently has resulted in a decision to exert the combined pressure of all the entente allies on it. Difficulties arose from the allied blockade of Germany, resulting in the hold up of goods en route to Sweden, which were suspected to be destined for Germany. Sweden retaliated by holding up large quantities of parcel post matter in transit between England and Russia.

This led to an exchange of notes, which accomplished nothing, and early this month a deadlock was reached. Great Britain insisted as a condition to submitting the dispute to arbitration that Sweden must promise not to interfere again with English mail matter. Sweden declined and the Swedish minister at London went to the continent, to be gone for several weeks. Negotiations were transferred to Stockholm, but the latest advice from London was that no solution of the problem was in sight.

### Corn Crop is Not Damaged by the Frost Thursday

The first frost of the season visited Nebraska last night and generally it was a killing one. However, with the exception of tomatoes, vines, some late vegetables, little damage will result.

Gardeners on the market this morning assert that up and down the river from Omaha the frost was a freeze, ice forming on still water. This was true all through the market garden section in and around Council Bluffs.

The railroads report frost over practically every section of Nebraska, the coldest weather being at Belmont, on the Burlington, well up toward the northwestern part of the state, where the temperature dropped to 24 degrees above zero.

Reports sent in to the railroads during the morning all indicated that the frost and freeze had not damaged any large proportion of the corn. Except in a few instances corn was out of the way of frost several days ago.

**Frost Will Benefit Corn.**  
Sioux City, Ia., Sept. 15.—Sioux City and its trade territory last night was visited by a heavy frost, which was of the killing variety over practically all South Dakota.

The corn was not damaged, according to reports received at the government weather station. In fact, the frost will benefit the corn. G. W. McDowell, the forecaster, stated.

### Rumor Guardsmen Are to Be Sent Home

El Paso, Tex., Sept. 15.—Organization commanders of the National guard troops on station here received telegrams today from the Department of War asking the number of cars necessary to move their contingents.

While military men here assumed that this indicated an early withdrawal of the militia from the border it was pointed out that maneuvers have been planned for practically all of the state troops in this district early in October.

Persistence is the Cardinal Virtue in Advertising.

#### Tabloids of Politics

Little Items About the Progress of the Campaign.

"Have you heard from Maine?" is the question appearing in big letters on a campaign card being circulated by the republican state committee.

Chairman Beach of the republican state committee has been in every city, town, village and hamlet in this state during his business career as an insurance man. It is said "Ed" knows the state from Alpha to Omega.

The Douglas County Republican league at its meeting Thursday unqualifiedly endorsed Charles Evans Hughes for president and John L. Kennedy for senator. This is an association of north side colored voters.

"Notwithstanding the embargo which the war has levied, there have been more importations of certain goods into this country, in competition with our farmers, than there have been in a similar period during any republican administration," stated County Chairman Howell, speaking for the county central committee.

When Charles E. Hughes became a member of the supreme court of the United States the Legislative Labor News of New York printed the following: "Now that Governor Hughes has retired from politics and ascended to a place on the highest judicial tribunal in the world, the fact can be acknowledged without hurting anybody's political corns, that he was the greatest friend of labor laws that ever occupied the governor's chair at Albany." During his two terms he has signed fifty-six labor laws, including among them the best labor laws ever enacted in this or any other state. He also urged the enactment of labor laws in his messages to the legislature, even going so far as to place the demand for a labor law in one of his messages to an extra session of the legislature.

### Stole Clothing for Ten Years from Store to Bet

New York, Sept. 15.—Charged with having stolen in ten years clothing valued at between \$50,000 and \$75,000 from a firm that employed him, George W. Simm, a salesman, according to Assistant District Attorney Bohan, confessed today that he had sold the clothing at half the price and lost most of the money in Wall street speculations. Mr. Bohan said Simm told him that clothing had been removed from the store in suit cases before other employes came to work in the morning.

### HAUL INDUSTRIAL WORKERS TO JAIL

Sheriff and Troopers at Scranton Run in Squads of Alleged Rioters.

#### MARCH IN TWO DIVISIONS

Scranton, Pa., Sept. 15.—A meeting of the Industrial Workers of the World in Old Forge noon today was raided by Sheriff Ben S. Phillips with the aid of a dozen of his deputies and twenty state troopers, headed by Lieutenant Price, and every man in the hall, 318 in all, were arrested, loaded into vehicles of various kinds and taken to the Lackawanna county jail, charged with riot. The authorities had issued orders that the meeting was not to be held. There were attempts to escape, but no serious violence on the part of the prisoners.

For two weeks the I. W. W. men have been trying to tie up the Jermyn company collieries. The employees are about evenly divided between the I. W. W. and the United Mine Workers. The latter would not join in the strike and the I. W. W. pickets by assaults and various forms of intimidation, it is alleged, have sought to keep them away from the mines.

#### Sheriff is Summoned.

There have been daily disturbances, and finally the burgess, unable to cope with the situation, summoned the sheriff. The latter called in the state troopers. The saloons were ordered closed, meetings of the I. W. W. forbidden and various other measures taken to prevent trouble. Sheriff Phillips got word yesterday that the I. W. W. men planned a big secret meeting in Swartz hall at noon today, and elaborate plans were made to prevent it. The prisoners were escorted in squads from the hall and loaded into automobiles, ice wagons, coal wagon motor trucks, drays and various other vehicles commandeered by the sheriff's men as fast as they were in sight. Then the march to the county jail in this city was taken up in two divisions, the galloping troopers guarding the faster moving motor division and the deputies walking alongside guarding the horse-drawn vehicles. Joe Nozzi and other alleged leaders of the I. W. W. were among those arrested.

#### Placed Five in Cell.

The prisoners were placed five in a cell. Not a weapon was found on any of them. Sheriff Phillips will decide tomorrow what to do with them. Nearly all of the prisoners are of foreign birth. The Italian consul, Fortunato Tiscar, applied to the court for a habeas corpus for their release and the court decided to conduct a hearing on the motion next Saturday. Jermyn & Co., stated that none of the men arrested will ever be employed again at their mines.

A paper setting forth that the Industrial Workers demand increased wages for all classes of workers in the mines, a full day when the collier closes down because of accident and the release of all industrial workers, prisoners in Minnesota jails, was found on one of the prisoners.

### Allies Veto Greek Premiership Plan

Athens, Sept. 14 (Via London, Sept. 15).—The entente powers are not satisfied with the program outlined by M. Dimitracopoulos, whose acceptance of the premiership was based on full power to control the national policy. M. Dimitracopoulos has therefore abandoned his effort to form a cabinet.

### Lorimer Will Stay In Political Game

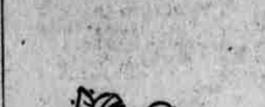

Chicago, Sept. 15.—William Lorimer was beaten by his own hand. In the same manner William Lorimer will win—he it tomorrow, four or a score of more years hence.

In these words former Senator Lorimer, defeated in Wednesday's primaries for the Sixth Illinois district republican nomination for congress, announced his intention today to "stick to politics."

"The Lord willing, I am going to live at least thirty years more," he said, "and I'm going to be alive and kicking politically every one of them."

### PLAN PRESIDENT'S PART IN CAMPAIGN

Wilson Confers With McAdoo, Burleson and Tumulty as to Own Activities.

#### TO TAKE DARE OF HUGHES

Long Branch, N. J., Sept. 15.—The president Wilson is to take in the campaign for his re-election was discussed here today by the president, Secretary of the Treasury McAdoo, Postmaster General Burleson and Secretary Tumulty.

The plans will be put into final shape at a meeting here Monday between President Wilson, Vance McCormick, chairman of the democratic national committee and Homer S. Cummings, head of the speakers' bureau of the national committee.

#### To Get Views Before Nation.

The president will begin his "porch campaign" at Shadow Lawn next week. Although he has decided to make no speeches away from here, except before nonpartisan organizations, his political advisers said today the president expected to be able to get his views before the country effectively.

The campaign for the re-election of the president will follow the lines of his speech of acceptance. Through speeches to delegations here, and through letters, he will amplify points made in that address and will accept the challenge of Charles E. Hughes, the republican nominee, on the issue created by the settlement of the recently threatened railroad strike.

Mr. Wilson also has decided to devote himself strictly to telling of the achievement of his administration and to attacks on the republican party.

#### Off for St. Louis Monday.

The president will dwell particularly on the prosperity of the country and his plans for the "industrial preparedness." In this connection it became known today that as soon as congress convenes in December, he will make further efforts to have passed a bill allowing American exporters to utilize common selling agencies abroad. The president plans tonight for leaving here next Monday night for St. Louis, to address an association of underwriters. It is possible however, that the trip may be cancelled if there should be a sudden turn for the worse in the condition of Mrs. Annie E. Howe, his sister, who is critically ill at New London, Conn.

### Wilson Will Reply To Hughes' Criticism Of Adamson Law

Long Branch, N. J., Sept. 15.—President Wilson decided today to take advantage of the earliest possible opportunity to challenge the statement made by Charles E. Hughes in recent speeches that the basis on which the recently threatened railroad strike was averted was merely an increase of wages for the employees.

The president, his political advisers said today, considers the principle of the eight-hour day vitally affected by the strike settlement and will seek to show that while the railroad legislation passed by congress to meet the situation will give the employees at least a temporary increase in pay, the more important point is that it established the eight-

hour day as the basis of work for railroad workmen.

Mr. Wilson expects to make clear that he will not be satisfied until congress enacts into the law the rest of the railroad legislation he recommended when the strike was threatened, including an increase in the Interstate Commerce commission and a measure for investigation of controversies between railroads and their employes before strikes or lockouts are called.

#### Elephant Which Killed Its Trainer Hanged With Chain

Erwin, Tenn., Sept. 15.—"Mary," the big circus elephant, which killed her trainer at Kingsport, Tenn., Tuesday, was hanged here today. A railroad derrick car was used in the execution. The animal was forced to the tracks by other elephants, heavy chains were tied around her neck and she was hoisted in the air. She was valued at \$20,000 by her owners.

### Refuse to Comment On Statement of Captain Poucher

San Antonio, Tex., Sept. 15.—Army officers today said they had no comment to make on the statement of Rev. John F. Poucher of Omaha that he was convinced the Mexican trouble originated on this side of the border.

It was indicated that possibly Rev. Mr. Poucher may be questioned regarding his statement if he returns to his duties on the border as captain and adjutant of the Fourth Nebraska infantry.
