

### BISHOP ADVISES CHURCH PASTORS

Methodist Ministers at Hastings Are Told to Poize Own Interests.

### ARMY MEN ARRIVE ON SCENE

Hastings, Neb., Sept. 15.—(Special Telegram.) Bishop Stuntz opened a Methodist conference today, calling again on the first chapter of Ephesians. He told the preachers of the successful man is the one who forgets self in his desire to serve Christ, a fact that can be only by enlightenment.

The following ministerial class was convened on trial: J. O. Cressap, Lloyd B. Harmon, E. C. Staley, R. Barr, C. O. Troy, L. O. Hosford, S. Hildebrand, A. G. Swanson.

The following were advanced in their studies: G. A. Randall, R. Richmond, F. Sedy, R. Trowbridge, B. R. Muscott, W. S. Morris, Arthur Schiner, at his own request, was discontinued.

The following were received into connection: R. A. Frogue, G. A. J. P. Stöber, J. E. Jones, E. G. Daniel, F. A. Carmony, Claude Lake, L. W. Gramley, R. Miller, C. Scofield, G. R. Pease, B. A. Besse, K. O. Pearson.

Last night was missionary night, the anniversary of the Woman's Foreign Missionary society and the ward of Foreign Missions, the Rev. Mr. Lowe presided. Short addresses were made by Mrs. George Stiles of University Place and Miss Ina Watson of Lincoln.

Laymen from various churches over the state are beginning to arrive in the city, some to visit the conference, some to look after the interests of their churches. More will arrive during the week-end in Hastings.

### Near Neighbors

Avon. Mrs. M. G. Keedy was an Omaha visitor Sunday.

St. Paul. Mrs. Pearl Sharp of Chicago is visiting her relatives.

Mrs. Adolph Otto entertained the T. N. club Wednesday.

Mrs. George Highy visited her mother, Mrs. Calvert, Wednesday.

Mrs. Amy Calvert went to Clearwater Thursday to visit her son, James, and family.

There was no steam on, for the reason that the state officers having in charge the heating of the building were away, as heretofore mentioned, and the head janitor, knowing that the watchword of the democratic administration was economy at any price, was loath to have a fire in the furnace started without orders from his superior officers.

The pitiable sight of fine looking girls suffering from the frigid breezes which came through the cracks of the old edifice, was too much for him and he finally ordered the fires started and at noon the radiators were sizzling with steam and danger from pneumonia had passed; but, horror of horrors, \$4.27 worth of perfectly good coal had been consumed to the detriment of the economy plans of the state officials interested in being re-elected.

### County Seeks Home for Little Girl Who is Deserted by Her Mother

Foodless and shoeless for a week, she holds closely to her doll with one leg.

Scantly clad, shoeless and without means with which to purchase her daily bread, little 9-year-old Opal Odell, a shivering but bright lass of unusual perception, deserted in a rooming house by her mother and left to win her way alone, has found friends in juvenile authorities after going foodless and motherless for almost a week. Through all her tribulations she has clung to her one-legged bisque doll, wrapped in a towel, under her arm.

When Miss Alice C. Dellone, deputy probation officer, went to the rooming house at 118 South Nineteenth street to investigate reports of the lodging house keepers that the girl had been deserted by her mother, she found the little tot without shoes, hungry and begging for motherly affection.

Riverview Detention home awaiting action by the authorities.

"Mister, won't you please fix my dolly?" was the pitiful plea made to County Commissioner Best when the tot lifted up her towel-clad dolly to his gaze. Not only did Commissioner Best arrange to have Mary Ann's leg repaired, but after conference with juvenile authorities trundled the little girl into his automobile and gave her the thrill of her first ride in a real automobile.

"Gee, but that was fun," exclaimed Opal when she alighted from the machine at the Riverview home and was placed in the care of county authorities.

Miss Dellone, who takes an official interest in the welfare of the youngsters placed in her charge, is seeking a desirable home for Opal. Authorities at the county hospital have refused to accept her as a patient. She has also been refused admittance to other hospitals appealed to by juvenile authorities. Her mother, Jessie Odell, was a silver washer at the Fontenelle hotel before deserting the girl in the rooming house.

According to the girl's story she has been unable to attend school because she has had no shoes. When Miss Dellone appealed to the county charities she was given funds to purchase a bright pair of patent leather boots for Opal. She is now at the Riverview Detention home awaiting action by the authorities.

Blast Kills One, Injures Eight. Pompton Lakes, N. J., Sept. 15.—A truck was killed and eight others caused explosion in the fertilizer building at the DuPont De Nemours Powder company's plant. The explosion started a fire.

### Remains of Aeroplane Brought From Kansas

(From a Staff Correspondent.) Lincoln, Sept. 15.—(Special.)—Remains of the National Guard aeroplane, used by Captain Ralph McMullen when he fell to his death in Kansas a couple of weeks ago, have been received by guard headquarters, and now is stored at the arsenal.

There is very little left which could be utilized again in the making of a new plane. When new the machine cost Captain McMullen \$5,000, and at that time was considered to be the best made. Major Haysel has the propeller, which was about the largest piece of the plane left intact.

### Feeling Blue? Take a LAX-OLA

and feel in the pink of condition! Ask your Druggist

**Beach Pleas**  
**With the Outlook**  
**In City of Omaha**

(From a Staff Correspondent.) Lincoln, Neb., Sept. 15.—(Special.)—Chairman Ed Beach returned today from Omaha, where he held a meeting with the county committee of Douglas county and other leading republicans of that county. Mr. Beach looks for big things from the big town.

W. A. Vasey of Beatrice, secretary of the republican committee of Gage county, called at headquarters today. Mr. Vasey reports conditions decidedly favorable for a republican victory in Gage. Gage is a republican county anyway, but it is going to increase its usual majority very much this year. Hughes, Kennedy and Sutton are especially strong there, and the other candidates are going to pull along well up with the leaders.

The information that ex-President Taft would speak in Omaha on the eleventh of next month is exceedingly pleasing to republicans in this vicinity, and it is probable that a good crowd will go up to hear Mr. Taft, if the speech is in the evening.

**Old State House**  
**Pretty Cold Place**  
**These Frigid Days**

(From a Staff Correspondent.) Lincoln, Neb., Sept. 15.—(Special.)—The state house was as cold as a barn this morning and the women in most of the offices were shivering with their coats on, while trying to perform the duties which the heads of the several departments had imposed upon them while they were out in the state chasing votes.

In one office two young women, whose faces yesterday were beautiful to look upon, were today blue and twisted with the cold, while the thermometer hovered around 55.

**Hot Water the Best Liver and Bowel Medicine**

Says glass of hot water before breakfast washes poisons from system.

Physicians from the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the tea yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshens the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, a low complexion, acid stomach; or who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.—Adv.
