CHICAGO UNI IS HOPEFUL

Chicago, Sept. 17 .-- Formal opening of fall foot ball practice among the Big Nine Conference teams takes place next Wednesday, September 20. but already preliminary work has been begun throughout this section of the country wherever coaches have been able to get enough men togeth er. Rudimentary drill is on the program for the first week at most insti tutions in the central states, and a few of the more prominent elevens will have early opening games Among contests scheduled for September 30 are:

The season in the central states will The season in the central states will be remarkable for the tendency of the leading elevens to break away for games against teams outside of their usual list of rivals. Advance notices on conference foot ball squads indicate a tendency to bear stories from Wisconsin and Illinois, with a strong undertone of hopefulness at the University of Chicago. Loss of half a dozen stars is a light with Ma. cago. Loss of half a dozen stars is a severe one to the Illini, and with Masevere one to the litin, and with sta-comber practically the only one left Coach Zuppke apparently will have a hard job to build up a team like those to which Urbana rooters have been accustomed in the last few years.

A set of fleet backs, most of them with at least a year's experience, and a line heavier than last season's are compensations to Coach Stagg for the loss by graduation of Russell and Flood. At Madison, with a rather raw team the rooters are none too san guine for a good showing this year, though hopeful of good results from the Harvard style of coaching, to be drilled into the Badgers by Paul

Withington.
Pre-season information from Minnesota say prospects for a first-class team are better than they have been for years. Basing their arguments on the fact that the Gophers tied the Illinois for leading honors in the Big Nine last year fans in the north believe their favorites are due to clear a title to the championship this fall.
There is a chance that Ohio State with a squad of veterans will prove a dark horse, especially when one recalls the surprise the Buckeyes sprang on Illinois last year. Indiana also is expected to have a better team than usually represents the Bloomington is school, and reports from Purdue and Northwestern are more optimistic than usual. Iowa's chances are considered only fair.

Michigan a Puzzle.
