Devoe, Shumway And Reynolds to Speak at Aurora

Aurora, Neb., Sept. 21.—(Special.)—With a big republican meeting scheduled for Aurora Thursday evening and another in Monroe Center school house for Friday night, the people of Hamilton county begin to realize that there is a political campaign in progress. R. W. Devoe, candidate for attorney general; H. P. Shumway, candidate for lieutenant governor, and W. H. At the Monroe Center meeting Senator C. E. Sandall of York will be the principal speaker, but all of the county candidates will be present and address the crowd briefly. The men's chorus of Aurora will sing at the Monroe Center meeting.

The republican county candidates have already made a circuit of the county and met with much republican enthusiasm. They declare that the people of this county are turning from the national democratic ticket in large numbers since the passage of the law increasing the wages of trainmen. The farmers of the county are fearful of an increase in rates as the necessary consequence of the law which President Wilson forced congress to adopt.

Hamilton county has been one of the premier progressive counties of the state and the progressives to a man have aligned themselves with the republican party and are enthusiastic Hughes men.

It is being freely predicted that the dry amendment will carry in this county by a majority from 500 to 1,000. Bryan democrats are openly declaring that they will vote for Kennedy and Sutton.

RAILROADS FIGHT NEW FREIGHT RATES

Deny Authority of State Railway Commission and Demand Other Tribunal.

RESURRECTS OLD HISTORY

The controversy at Lincoln over Nebraska freight rates before the Nebraska state railway commission, in which the representatives of the railroads threaten to go before the federal court and ask a restraining order to prevent the commission from interfering with the present rates, again brings to the front the order No. 19.

Order No. 19 was promulgated by the Nebraska state railway commission September 6, 1914. The Nebraska railroads fought its enforcement before the commission, and losing on that contention, appealed to the interstate commerce commission and on that tribunal's decision, won before some thirty days ago. Now the railroads ask that rates existing prior to the issuance of No. 19 be promulgated by the state railway commission and left standing without interference. The commission protests against this move.

It is on this protest and to prevent further interference with the rates that the railroads seek a temporary restraining order until the case can be heard on its merits before another tribunal and not before the state railway commission, which the railroads allege is without jurisdiction in the matter.

River Break Rates.

For years prior to the promulgation of order No. 19 by the Nebraska state railway commission the railroads had in effect freight rates that broke on the Missouri river. Shipments going beyond and into Nebraska took the local rate from the river. The through rate to the Mississippi river, another freight rate breaking point, was a certain proportion of the through rates from point of origin, while the rate from the Mississippi to the Missouri was another proportion of this through rate. From the Missouri river out into the state the local rate ruled.

The Nebraska state commission came along with order No. 19, and while it could not interfere with the rate from the east to the Missouri river, it destroyed the combination rate out into the state. As an illustration, the rate into Grand Island is taken and the charges on fourth and fifth class freight given, as these are the classifications under which most of the merchandise is billed.

How Rate Worked.

Under the old methods that had been effective for years, with the Missouri river as the rate-breaking line, fourth class freight from the Missouri river sent to Grand Island carried a charge of 57 cents per 100 pounds, and fifth class, 48 cents. This included the through charge and the local from the river to destination.

Fourth class freight from the Mississippi river to the Missouri took a rate of 27 cents, and fifth class, 22 cents. But order No. 19 broke up

the combination on the through rate to Grand Island and fixed the Nebraska rate at 25-10 and 18-9-0 cents respectively, or a total rate of 52-15 cents and 49-9-0 cents, respectively, on the classification as against 57 and 48 cents per 100 pounds, under the old method of charging.

Order Hurt Omaha.

The operation of order No. 19 was fought from its inception by both the jobbers on the west side of the Missouri river and by the railroads having terminals and operating onto the west side of the stream. Their contention was that it discriminated against jobbing centers on the east bank of the river and did not permit such points as Sioux City, Council Bluffs and other places similarly located to compete for the Nebraska trade.

Omaha jobbers fought the order, contending that it destroyed the business they had taken years to build up and enabled the building up of small distributing houses at every junction town in the state. As one jobber put it:

It turns the jobbing trade into a mail order business. If the order stood it would force us to put in branches at a dozen points in the state. At each of these we would have to have a man who would take orders for goods and then send these orders to the nearest warehouse and from there have them sent to their destination, instead of concentrating our business at one point and from there sending our shipments to the hundreds of cities and towns in the state.

Unjust Discrimination.

It is contended that the enforcement of order No. 19 would destroy Omaha as a jobbing center, as well as a financial center, and in a few years leave the state without a metropolitan city within its limits.

The greatest objection to order No. 19 and one upon which the interstate commerce commission based its finding was that in its promulgation

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

Bryan is Stumping Wyoming for Wilson

Rock Springs, Wyo., Sept. 21.—William J. Bryan, former secretary of state, started today on his second day's tour of Wyoming in support of President Wilson and the democratic ticket, with the program calling for a number of speeches. Mr. Bryan, speaking here last night, appealed for the re-election of President Wilson on the ground that Wilson had kept the United States out of war with Europe and Mexico.

The speaker charged the republican party was unable to cope with the problems that will face the United States at the close of the European war.

Mr. Bryan declared the republican party had been "unscrupulous" in its methods concerning votes for women in suffrage states. He warned the democratic women to beware of "republican trickery."

Prominent Duluth Business Man Dies Suddenly

"Goodnight Corns! We Use 'Gets-It'"

3 Drops in 2 Seconds. That's All. "GETS-IT" Does the Rest. Never Fails.

"Really, I never could see how some few people use the most difficult and painful way they can find to get rid of corns. They'll wrap their toes up with bandages into a package that fills 'em up with pain, fuss or trouble. The corn, callus or wart loosens and comes off. Millions use nothing else."

Or they use salves that eat right into the toe and make it raw and sore, or they'll use plasters that make the corns bulge, or pick and gouge at their corns and make the toes bleed. Funny, isn't it? "GETS-IT" is the simple, modern wonder for corns. Just put 3 drops on. It dries instantly. No pain, fuss or trouble. The corn, callus or wart loosens and comes off. Millions use nothing else.

"GETS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Omaha and recommended as the world's best corn remedy by Sherman & McConnell Drug Co.

The Nebraska state railway commission discriminated against every city and town outside the state, and by fixing the maximum rate to be charged on merchandise within the state, barred outside competition. In doing this the interstate commerce commission found that a jobber in some outside city would be forced to pay the local rate into Nebraska before he could reach a point where the state rate would apply, as the rates under the order did away with all combinations of through rates.

Outstrip Sheriff's Posses.

Miami, Fla., Sept. 21.—After outstripping a sheriff's posse in a motorboat race out of Rock Harbor yesterday, the four bank robbers who got \$5,000 in a daylight hold-up of the State Bank of Homestead, abandoned their boat today in the vicinity of Tawantier creek and apparently have struck into the Everglades again without leaving a trail.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat.

It is easy to make, tastes pleasant and costs little. Every one who has catarrh should give this treatment a trial. You will probably find it is just what you need.
