\$26,581,399.14, while the clearings for the corresponding week a year ago were \$20,174,704.89.

Schools Will Honor the Hoosier Poet Next Week
October 6 will be observed in the schools as Riley day, in honor of the late Hoosier poet.

A GROUP OF THE WAR RIORIS OF TARTARRAX.

Class Officers Are Elected at Bellevue College

Student activities at Bellevue college are reaching a decidedly lively tempo, and the unfortunate lad or maiden wishing to mope in corner or brood on the pangs of homesickness must do some tall hustling, for picnics, stag parties, elections, class meetings and similar "doins" allow no time for such luxuries.

Wednesday noon the college orchestra, under the directions of Will Hetherington of the Cox School of Orchestral Instruments, met for its first rehearsal. About twenty players were present. After a short period they were dismissed to meet again Friday noon.

The Glee club, under Miss Ruth Ganson, met Thursday noon for its second rehearsal. Some new work was studied and further plans made for the year's work. The Glee club is proving to be one of the most popular organizations on the hill.

Thursday evening the Young Men's Christian association gave its annual stag "doins" to the men of Hamilton hall. After an interesting program of informal talks and music

the "stags" fell on the eats and "browsed" to their hearts' content. Saturday evening a picnic was given to the young people who board on the hill.

The freshmen and sophomore classes met to perfect their organizations and elect their officers. The sophomores elected Garwood Richardson president, Melissa Davidson vice president, Katherine Ohman secretary-treasurer and Stephen Cummings sergeant-at-arms. The freshmen class officers are James Daugherty, president; Vivien Foley, vice president; Katherine McCrann, secretary; Harold Dunlap, treasurer, and Waldemar Gustafson, sergeant-at-arms.

The Purple and Gold, the school paper, election took place on Wednesday. Ralph Martain was the undisputed candidate for editor. Martain was the assistant editor last year.

James Allen, a junior, won out of a heavy field of candidates for manager.

Bank Clearings Gain Million a Day in September

Omaha bank clearings continued to make their usual big gains over a year ago during September. The gain this time for the month was \$29,000,000, an average of something over \$1,000,000 a day.

The total clearings for September this year were \$113,995,009.29. The total clearings for September of 1915 were \$84,391,011.70.

The clearings for the week showed a gain of over \$6,000,000, the clearings for the week this year being

257 This-Year Cars

Combined in the New Mitchell Luxury Bodies

This tells John W. Bate's idea of efficiency, applied to fine body building. See if it meets your approval. Then come see the result. In the Mitchell enclosed cars you will find a score of attractions which no other one car offers.

John W. Bate, the great efficiency expert, has just completed for Mitchells seven extra-fine bodies.

Before they were designed, he had his experts and artists examine 257 new models, European and American. So no luxury or comfort—no artistic touch—has been omitted from these models. The result is enclosed cars, and all-season models, combining the ideas of all the masters of this craft.

Two For All Weathers

The cars for all weathers are popular now. And they are bound to be ten times so.

One is the Springfield Type Touring Sedan, daintily upholstered and trimmed. An exquisite closed car when the windows are up. A 7-passenger Touring Car with the windows down. A perfect car for any weather, or for any time of year.

Another is the Cabriolet—a Coupe whose windows drop. And,

with the top down, it becomes an open Roadster.

Two Winter Cars

All the luxuries known in winter cars are combined in the Mitchell Limousine. Every fine Limousine offers many attractions. Come and see the one model which combines all these attractions. And a score which you don't see elsewhere.

The Mitchell Coupe—with seats for four—is a smaller edition of this Limousine. In both these models all the plate glass windows drop.

Every Part Bate-Built

In the latest Mitchell nearly

\$1325 F. o. b. Racine

For 5-Passenger Touring Car or 3-Passenger Roadster

7-Passenger Touring Car \$35 Extra

Equipped with Drop-downable Top Only, \$500 Extra

Limousine, \$2650 Touring Sedan, \$1985

Coupe, \$1850 Cabriolet, \$1775

High-speed, economical Six-48 horsepower, 12-inch wheelbase. Equipment includes 26 extra features—one a power tire pump.

every part is a John W. Bate production. He has made in this car over 700 improvements.

Every part is given at least 50 per cent over-strength. There are 440 parts which are either drop-forged or steel-stamped.

All the major strains are met with Chrome-Vanadium steel, costing up to 15 cents per pound. And the parts are oversize.

The result is a lifetime car. Seven of these cars have averaged 176,000 miles apiece—over 30 years of ordinary service.

And the Mitchell is built in the Mitchell plant, where efficiency is made a fine art. Here Mr. Bate has cut factory costs in two. As a result, you get in the Mitchell at least 20 per cent extra value. And you get 26 costly features which other cars omit.

Come and see these cars with the new-style bodies—open, closed and convertible. It is the finest car exhibit in town.
