Well Beyond Familiar Million-Share Mark.

New York, Oct. I.—Today's market operations sgain attained a total well beyond the million share mark. The course of prices was attended by irregularity, indicating the rather two-sided character of the trading. Much of the market's stability was derived from the increased demand for rails. Publication of additional statements of earnings by the railway companies was of material assistance in that quarter. The Canadian group, Grangers, Cotton tarriers, and castern lines were I to almost 5 points higher at their best, cpaiers losing some of the prominence, although Norfolk & Western made a new record on its further advance to 1469.

Munitions and equipments were again argely represented to Constitutions.

ous, with gains of 2 to 4 points in International Raper, common and preferred, and American Writing Paper preferred.

Copiers and Mexicans were among the most variable issues of the foreneon, but hardened in the final dealings, with United States State, that shock recovering from 116% to J18%, but closed at 117%, a slight net loss.

Central Motors furnished another maximum on its 3 points advance to 723, with gains of 5 and 9 points, respectively, for South Ports Rice sugar and general chemical. Extreme gains in the more active stocks were shaded 1 to 2 points at the end. Total
