The Wife's Share

By DOROTHY DIX.

Hope and courage are the foundation stones on which success rests.

There are a few bromidic facts that I wish to call to the attention of those wives who complain of their lack of luxury because their husbands are poor and they suppose they must get up; to being shabby, since John isn't one of the kind who just compel success.

Most women whose husbands cannot provide them with limousines lift up their voices in this wail of woe.

It is cruel, because no other criticism cuts to the quick of a man's soul like his wife's.

No man is ever down and out so long as he can come home at night to a brave and smiling face, to a woman who inspires him with her own optimism.

The man whose wife never comes back in the man whose wife complains because he isn't a Rockefeller or a Morgan add the last straw under which his courage breaks.

It is a pity women do not realize how hungry their husbands are for a little praise and encouragement.

Mothers look at the star and see there the face of a child long dead.

A man looks up at the stars and sees "My Star" the ace that helps him to lift his feet lighter on rocky ground.

The lover on the busy trail, through brambles and over terrifying trouble-spots, tips up a chin once in a while to find his Lodestar, and steps out with a singing heart on the right trail—tramp-tramp!

And tramping—he sings him a song, "My star is a high star, shining down on me. Its silver ray comes all the way and touches my heart. I am not afraid."

A man cannot tell another man that he thinks he is wonderful, that his work is a marvel, and that he believes he is going to do stupendous things.

Only a woman can say that to a man. That is why every man must have some woman about him.

Between the woman who, when her husband lags along the road, says to him, "I know you have it in you to succeed."

Between the woman who, when her husband meets with misfortune in business, says to him, "You've made one success. You can make another. This is just a setback. We'll start all over again, and do better than we did before."

It pays to believe in your husband, ladies. Think it over.

Women's Activities

Women are now employed for the first time as factory inspectors in Prussia.

Miss Ruth Corker, a 15-year-old girl of Atlanta, is an expert veterinary surgeon.

The fashion in women's dress in Japan has not changed materially in 2,500 years.

A Pasadena woman and her 17-year-old son are classmates at the University of California.

For the first time in the history of Berlin a woman has recently been appointed principal of a public high school.

One of the interesting possibilities of the coming general election is that three women may take seats as members of the sixty-first congress.

Mme. Juliette Adam, founder of the Nouvelle Revue and Europe's most famous woman journalist, will celebrate her eightieth birthday anniversary next month.

Miss Belle Kinney, the sculptor, has completed an imposing monument to southern women for erection on the grounds of the Tennessee state capitol at Nashville.

Viscountess Wolsley, the daughter of the famous field marshal, who inherited her father's title, has for several years conducted a school for gardening upon her estate at Glynde.

Among the first students enrolled in the new College of business administration of Boston university is Miss Mabel Chen Fong.

of Frederick, Md., who was an intimate friend of Barbara Frietchie.

Mrs. Lovejoy will receive a pension of \$20 a month in recognition of her husband's services as a private in the Fifth Ohio infantry.

The states in which women may vote for president November 7 are Illinois, Kansas, Wyoming, Colorado, Montana, Utah, Arizona, Idaho, Oregon, Washington, California and Nevada.

These states have a total of ninety-one votes in the electoral college. It is easily conceivable that if cast as a unit they might decide the election, as there are more than 4,000,000 women to vote.
