

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.—Advertisement.

FIRST LADY VISITS OMAHA FIVE TIMES

That is, Thursday Will be the Fifth Time Wife of a President Visits Omaha.

SIX HAVE WEDDED WIDOWS

By A. R. GROH. Mrs. Woodrow Wilson will be the fifth "first lady of the land" to visit Omaha when she comes here with the president Thursday.

The first was Mrs. U. S. Grant, who came with her husband to Omaha November 1, 1875. They had been man and wife for thirty years at that time, having been married in 1848, when he was 26 and she 22 years old. Her maiden name was Julia Dent.

General and Mrs. Grant visited here again in 1879, returning from their trip around the world, but that was after the expiration of his second term as president. Grant died in 1885 and his wife in 1902.

Mrs. Rutherford B. Hayes was the second wife of a president to visit Omaha. She came here with the president and their two sons, September 3, 1880. Her maiden name was Lucy Ware Webb, and they were married in 1852 when he was 30 and she 21. So they had been wedded twenty-eight years when Omaha saw them. Mrs. Hayes died in 1889 and her husband in 1893.

Mrs. Cleveland Comes. Mrs. Grover Cleveland visited Omaha with the president, October 12, 1887, the year after they were married in the White House. At the time of their marriage Cleveland was a bachelor 50 years old and she was 22. She was the daughter of his former law partner and legend has it that he had originally aspired to marry her mother. Cleveland died in 1908 and his widow remarried about three years ago.

Mrs. Cleveland owned considerable property in Omaha, including part of the land on which the post office now stands and also the ground now occupied by the Saunders-Kennedy building at the southeast corner of Eighteenth and Douglas streets.

Mrs. Benjamin Harrison was here with President Harrison, May 13, 1891. Her maiden name was Caroline Lavinia Scott and they were married in 1853 when he was 20 and she 21 years old. So they had been wedded thirty-eight years at the time they were here.

She died in 1892. In 1896 Mr. Harrison married Mary Scott (Lord) Dimmick, a widow of 38 years. Harrison was 63. He died in 1901. His widow is still living.

Six Married Widows. President Wilson married his first wife, Ellen Louise Axson in 1885, when he was 29 and she was 25 years old. She died in 1914. December 18, 1915, President Wilson married Edith Bolling Galt, a widow, 42 years old. The president was 59.

It is interesting to note in this connection, that six of the presidents of the United States married widows. George Washington married Martha (Dandridge) Custis; Thomas Jefferson married Martha (Wayles) Skelton; James Madison married Dolley (Payne) Todd; Millard Fillmore married Caroline (Carmichael) McIntosh; Harrison and Wilson were the other two.

Woman's Brains Beat Oil Barons'

Oil barons who have a craving for 10 instead of 6 per cent will have to admit defeat at the hands of Mrs. Sophus Noble, wife of the publisher of the Danish Pioneer of Omaha. Last year gasoline sold at ten cents a gallon. The oil companies sold coupon books, a gallon of gas a coupon. Mrs. Noble's feminine intuition told her that gasoline was scheduled to hit the high spots, so she began to make a collection of coupon books. She bought her first gallon of twenty-cent gasoline just the other day. And the Neble automobile ran on ten-cent gasoline all winter and summer.

EAT LESS MEAT AND TAKE SALTS IF KIDNEYS HURT

Says a tablespoonful of Salts flushes Kidneys, stopping Backache.

Meat forms Uric Acid, which excites Kidneys and Weakens Bladder.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good "pharmacy"; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Advertisement.

STARVING SYRIANS EAT HUMAN FLESH

People of War Area Reduced to Locusts, Dead Men and Animals for Food.

WOMEN VICTIMS OF TURKS

Washington, Oct. 4.—The greatest American relief campaign to be undertaken since the organization of the Belgian relief commission was launched today by the American commission for Armenian and Syrian relief. An exhaustive summary of the whole Armenian and Syrian situation was made public and will be sent to ministers of 12,000 churches.

A fund of \$5,000,000 is called for to relieve 1,800,000 destitute, exiled and starving Armenians and Syrians scattered broadcast over Turkey, Persia, Syria and Palestine. The appeal declares that of nearly 2,000,000 Armenians originally in their native country, three-quarters of a million have been massacred or have died of wounds, diseases or expulsion since the war began.

"People were eating grass, herbs and locusts," says the committee in describing its investigation of conditions there, "and in desperate cases dead animals and human bodies are reported to have been eaten."
