

SEIZE DUTCH VESSELS

One Hundred Ships from Fishing Fleet Before British Prize Court.

HOLLAND IS DISPLEASED

(Correspondence of The Associated Press.)
The Hague, Netherlands, Aug. 28.—Great Britain, which has been regarding with growing displeasure the provisioning of Germany with fish from Holland has now brought the matter to a head by seizure of some 100 vessels of the Dutch fishing fleet, and they are now lying under arrest in the Scotch ports of Peterhead, Aberdeen, Lerwick and Kirkwall. Unless an arrangement is reached, they are apparently to be taken before the British prize court on the ground that their catches are contraband, because the final destination thereof is Germany.

Even before the war, Germany was the best customer of the Dutch fishermen, but the effect of the maritime blockade of the allies has been to so greatly increase that country's purchases on the fish market here as to give it a practical monopoly of Holland's exports. The net export of various sorts of sea-fish in recent years has amounted to about 110,000 tons a year, representing a value of between \$8,000,000 and \$12,000,000. Partly as a result of less competition on the fishing grounds of the North Sea and consequent bigger catches, and doubtless, partly owing to the highly remunerative prices obtainable, there was an enormous increase in the exports last year, 1,650,000 tons of fresh sea-fish and salted and smoked herring alone being sent out of the country. Germany's share of the exports of fresh sea-fish and salted herring was no less than 144,900 tons, as against only 83,700 in 1914 and 86,300 in 1913. Sales to other countries fell off proportionately. America, for instance, at ordinary times draws a certain amount of herring from Holland, but the total of 14,247 tons dispatched thither in 1915 fell to 1,953 tons last year, and now the herring export to the United States seems to have entirely stopped, the total for the first six months of the current year being only eight tons.

Hindrance to Industry.

Such figures make clear what a hindrance the Dutch fishing industry has constituted to the allies' blockade of the central powers, and sufficiently explain their anxiety to bring about a change in this state of affairs, particularly if it is remembered that while British fishing trawlers are being sent to the bottom of the sea by German submarines, these Dutch craft are hauling in their loaded nets for the German markets right under the noses of the British naval guns.

Railroads Drop Rate Case Appeal To Supreme Court

(From a Staff Correspondent.)
Lincoln, Neb., Oct. 7.—(Special Telegram.)—The seven railroads interested in the appeals to the supreme court from the order of the State Railway commission covering freight rates, as set forth in "Order No. 19," this morning dismissed the appeals. The court a few days ago refused to dismiss the appeals on an application of Attorney General Reed. This is virtually a recognition of the authority of the commission to enforce its order, but the railroads may have something to say later in the matter.

Omaha Ready for Grand Opera Now; Auditorium Good Place to Hear Music

Associated Retailers' Course Offers Unusual Opportunity in Presenting Greatest of Living Artists.

GERALDINE FARRAR, Prima Donna Soprano.

Omaha is putting in a tolerably busy fall entertaining distinguished guests, but the bulk of the citizens of the Nebraska metropolis have not lost sight of the fact that within the next few months they are to be regaled by the "world's most famous" in music.

In the approaching Associated Retailers' course Omahans will have the opportunity to hear stars who have thrilled the diamond horseshoe crowd in the metropolitan, and will do the same here—but local music lovers will not be compelled to pay what the easterners do for the privilege.

Omaha is fortunate in having an Auditorium where no particular section is much better than the others for hearing. The acoustics of the huge municipal building are such that one seat is practically as good as another, so far as hearing is concerned. This was demonstrated again Thursday evening when President Wilson spoke to a crowd of several thousand persons. Those in the rear and side seats and in the balcony averred afterward that they could hear the president distinctly, even from the extreme corners of the big auditorium.

Many subscribe to the grand opera and concert course have expressed themselves as desiring seats on the sides and in the rear part of the main floor, and in the balcony. The fact, too, that they are less expensive does not make them to some less preferable. Any number of the moderate priced seats from where the grand opera and concert stars may be heard to the very best advantage, are still available.

The Associated Retailers' course is to open October 23 and 24, with performances by the Ellis Opera company, an organization that has on its roster such celebrities as Geraldine Farrar, Louise Homer, Lucien Muratore, Emmy Destinn, Helen Tanley, Rita Fornia, Clarence Whitehill, Leon Rother, Alma Peterson, Morgan

other purchaser who cared to buy. At the same time, the German government would in its turn have to bind itself not to interfere with Dutch fishing craft on their way to British ports.

Omaha Ministers Meet at Arlington

Arlington, Neb., Oct. 7.—(Special.)—The ministers of the Omaha district of the Methodist church will hold their annual district conference here October 17 and 18. Brown, superintendent of the Omaha district, will be the speakers. Bishop Stuntz will address the conference on the afternoon and evening of the 18th.

Aitken, Riding Goodyear Cords, Shatters World's Record!

Captures Astor Trophy in Sheepshead Bay Speedway 250-Mile Classic

Rickenbacher Also on Goodyear Cords a Close Second

Catapulting along the edge-to-edge board course at Sheepshead Bay Saturday at the rate of 104.66 miles an hour, a world's record for the distance, Johnny Aitken drove his Peugeot to victory in the Astor Cup Race over a field of 31 starters.

He rode on Goodyear Cords!
And he won on Goodyear Cords!

Desperate competitors thundered at his hubs every mile of the way—a treacherous tire might have meant defeat—but he won—his Goodyears did their splendid part.

They stood the burning, tearing, grinding, rending punishment of 250 miles over edge-to-edge boards at a 104.66-mile pace—and victoriously!

Aitken's victory is not an isolated instance of the unflinching stamina of Goodyear Cords. The racing records of the past three months are formidable with additional proof.

Proof, not alone of stamina—though this is paramount—but of speed, spring, and exultant vitality.

Proof of the very qualities that led to the adoption of Goodyear Cord tires as standard equipment on the Franklin, the Packard Twin-Six, the Locomobile, the Peerless, the White, the Haynes Twelve, the Stutz and the McFarlan.

Proof of the qualities that make these tires better.
