Omaha Futures Market. The local futures market continued bull-ah today and opening prices were steady. Reports that Germany is negotiating for peace were emphasically denied at Washing-ton, and with heavy exports sales and a decidedly bullish Argentine situation many of the local traders look for continued high prices. The bulk of the local trade, which was quite active, was largely in De-cember and May wheat, and these options advanced steadly December reaching a high market allows fulls, and the corn and eats markets were rather just and these markets advanced more in sympathy with wheat than from any independent cause. New York, Oct. 7 .- Today's stock market experienced another slight chill in the first of the two-hour session, but more than re-covered, closing with a strong undertone and numerous net advances. Much of the heavy trading of the first hour was attributed to an easy short in-terest and liquidation from interior points. It was regarded as significant that rallies and actual gains were effected on very moderate dealings as compared with the heavy firstnardings that accompanied the decline. Other features of the day included the discharge of the Morcantile Marine resulter-hilly, restorting the property to the share-holders, and additional railway statements, notably the August report of the Scharge, of the August report of the Scharge, Reck Jaland & Pacific, dissioning an in-rease of not operating revenue of more than \$1,000.000, reducing an in-rease of not particle Reserves desceased by notably the state regular on comparatively light dealings.
