Wheat Weakened on Report of Heavy Pur chases in Australia.

Chicago, Oct. 11.—Whost values weak-ened largely on account of reports that heavy purchasing in Australia by the Pritish government would divert ships way from the United States. The market closed unsettled, ic to I iso not lower, with December at \$1.6% and May \$1.57%. Corn lost \$4.6% and oats is to \$4.0%. The outcome for provisions was unchanged to \$1% higher.

lost to the content of the content of the content of provisions was unchanged to right higher. Depression in wheat began as soon as the market opened. Word was at hand that the first development under the new plan of complete government control of wheat imports for the United Kingdom was the buying of an immense stock in Australia, 18,100,000 bushels. So far as could be learned no purchases at all were made in the United States and instead of an expected quick increase from this country current advices told only of arrangements for minarged leadings in Australia. The buils also were handicapped by continued rumors that the stocks of wheat in Canadian terminal elevators would be commardered, and by a renewal of peace goests.

mardeered, and by a manufacture greety. Belling on the declines in the wheat market appeared to be overdone, as a railying tendency was displayed at times during the last half of the season. One reason seemed to be that the peace taid did not appear to have any subnatutal fresh basis, but rested on recent statements from banking sources that Germany was about to make overtures for a cessation of hostilities.

character.

Peace talk was regarded as bullish by the provision trade. Higherp rices on hogs tended further to lift the market.

Hogs—The market opened fully a dime
higher and improved as it went along, sales
at the less time, which was towards the
close, being as much as 30c higher, and
in individual cases being quoted even more
than that. What hogs shippers bought
were around a dime higher, as were the
first packer sales, but the big end of the
offerings sold 15c higher and quite a good
many sales looked all of 20c up, the general market being a good 15c higher than
yesterday.

The average cost furnished a poor criterion of the market loday. Yesterday
good hogs were comparatively plentiful
while this morning there was not a choice
load on offer and shippers had a hard time
finding enough stuff to fill their orders. The
best hogs here sold at \$3.56, which was
yesterday's top, but it was certain that
anything as good as yesterday's \$3.50 load
would have brought \$3.50 and possibly a
little more than that, as shippers had the
orders, but could not fill them.

Bulk of the sales was made at \$3.26g

Sheep—The supply of sheep and lambs was the smallest received here on a Wednesday since the middle of August. Only fifty-nine cars, or 15,00 head were estimated, which put the total for the first half of the weeks at something like \$7,534 head. This is \$,000 smalker than hast week, 40,000 short of two weeks ago and 28,000 lighter lighter than a year ago.

Things were up in the air on early rounds this morning, and movement was a little slow in starting. In the first place Chicago prices went to the had on yesterday's close-while here the trade remained the same throughout, putting local values out of line. The Windy City also reported another healthy supply today, with prospects for fresh alump, and on the strength of this packers were bearish on early rounds. Total offerings were very moderate though, and as only a small share of the supply was fat lambs, sellers insisted that local conditions warranted no reduction, and saked attack to, in some cases, higher prices. They eventually carried their point, too, for packers wanted the lambs, and prices were fully steady to, if saything, stronger. A couple of bands brought \$10.20, and others landed as high as \$10.10.

Quality of the feeders, which made up a good share of the supply, was generally only fair, and much plain stuff was here, while real good feeding lambs were scarce. After getting off to a alightly slow start, the market became fairly active at fully steady prices. A few real good lambs reached \$5.26010.00 until prices were well sustained. The few good fat ewen that were here soid around \$7, while a five-our reached \$5.26010.00 until prices were well sustained. The few good fat ewen that were here soid around \$7, while a five-our reached \$5.26010.00 until lambs, feeders, \$5.250 until prices, \$6.250, \$7.00 until lambs, feeders, \$5.250 until
