Holmes for Municipal Judge—Prohibition would deprive the city of Omaha of a yearly revenue of \$352,000 derived at present from liquor licenses. All of this large sum goes to the school fund. It is sufficient to build five new, modern, twelve-room school houses every year of the type of the Castellar and Vinton schools. One-Legged Doll And Baby Mother See Troubles End

Opal Odell, her one-legged doll and the spick-and-span Mary Ann with the bisque head and Navajo blanket presented to the little lady by an admiring friend in the county attorney's office, are on their way to Lincoln.

For four weeks Opal has been a ward at the Riverview home after being deserted by her mother in a Seventeenth street lodging house. When Opal's mother was finally trapped by the juvenile authorities she appeared before Judge Leslie and complained that she is unable to care for the 10-year-old girl. Judge Leslie then made Opal a ward of the state of Nebraska. Opal was taken to Lincoln by Miss Eloise Virtue, clerk of juvenile court, and will remain in the custody of state authorities until she has recovered from an infectious disease and is adopted by a family.

Probation officers have received a sheaf of letters from childless homes asking that they might be allowed to adopt Opal, since publication of the story of Opal's tribulations in The Omaha Bee. These letters have all been given consideration by Probation Officer Miller and his staff of big brothers and big sisters.

Lone Judge Holds Court on Holiday

Although the validity of any court decision handed down on Columbus day might be seriously questioned by the unsuccessful litigant, District Judge Day appeared in court bright and early Thursday to resume the taking of testimony in the case of Beselin & Son, cigar manufacturers and wholesalers, against Salesman Snow. The case has already littered the court with reams of documents and boxes of evidence.

It was by common consent of both parties that the court allowed the hearing to continue on the legal holiday. The salesman defendant claims the home office short-changed him. The Beselin people affirm that Snow forgot to remit. Sixty-seven pages of typewritten data cover the transactions.

MR. AND MRS. HUGHES TO BE HERE MONDAY

Committee Selected by Republican Committee to Arrange for the Visit.

SPEAKS AT AUDITORIUM

A committee comprising N. P. Dodge, Jr., president of the Hughes Alliance of Nebraska; G. M. Tunisian and Mrs. C. M. Wilhelm has been chosen by the republican county central committee to arrange for the visit of Charles E. Hughes and party here next Monday.

A. A. Rodway of New York, advance representative of Mr. Hughes, is in the city and has been in conference with the committee.

The Hughes special train, due to arrive at 6:15 p. m. on Monday, will be met by a large reception committee of republicans from Nebraska and western Iowa. Automobiles will convey the party to Hotel Fontenelle for a rest before the Auditorium meeting.

Invitation to Editors.

Mr. Dodge has sent republican editors of northern Nebraska special invitations to be here and serve on the reception committee, inasmuch as the Hughes itinerary in this state did not make it convenient for all of the editors to meet the train.

Mrs. C. M. Wilhelm will be assisted by a committee of women to receive Mrs. Hughes and other women of the party. Mrs. Wilhelm is head of the Women's Republican league which organization already is planning to receive and entertain the party of women speakers who will be here three hours on October 28.

National Committeeman Howell will preside at the meeting to be held in the Auditorium Monday evening. Mr. Hughes will be the only speaker. Railroad representatives have been discussing with the committee the advisability of running special trains from nearby Nebraska and Iowa towns.

Mr. Hughes and party will leave Omaha at 1 a. m. Tuesday for Mitchell, Sioux Falls, Yankton and Sioux City.

A FINE TREATMENT FOR CATARRH

EASY TO MAKE AND COSTS LITTLE

Catarrh is such an insidious disease and has become so prevalent during the past few years that its treatment should be understood by all.

Science has fully proved that Catarrh is a constitutional disease and therefore requires a constitutional treatment. Sprays, inhalers, salves and nose douches seldom if ever give lasting benefit and often drive the disease further down the air passages and into the lungs.

If you have Catarrh or Catarrhal deafness or head-noise, go to your drugist and get one ounce of **Parmit (Double Strength)**. Take this home and add to it 1/2 pint of water and 4 ounces of granulated sugar; stir until dissolved, take one tablespoonful four times a day.

This will often bring quick relief from the distressing head-noise, clogged nostrils should open, breathing become easy and mucus stop dropping into the throat.

This treatment has a slight tonic action, which makes it especially effective in cases where the blood has become thin and weak. It is easy to make, tastes pleasant and costs little. Every person who wishes to be free from this destructive disease should give this treatment a trial.—Advertisement.

T. R. Says Wilson Has Broken Down Code of International Rights

New York, Oct. 11.—(Special Telegram.)—Taking the exploits of the German submarine U-53 off the shores of America as his text Colonel Roosevelt has launched another broadside against President Wilson. Mr. Roosevelt declares that the conduct of the war has led to a "complete breakdown of the code of international rights." And this he blames on "the Pontius Pilate-like construction which President Wilson has put on neutrality." The sentence, "He kept us out of war," which is one of the chief arguments of the democratic campaign, Colonel Roosevelt describes as "the phrase of a coward" and utterly misleading.

"President Wilson declared that the war and the issues of right and wrong involved in its conduct and methods were of no concern to America, the leading neutral," says Colonel Roosevelt.

"He thereby put America in the position of refusing to do her duty to others. He inspired contempt in others. This invited aggression by others. In the face of this aggression he speedily put America in a position of refusing to do her duty by her own citizens. Step by step international law has been broken down. By the attacks of German submarines upon merchantmen the lives of hundreds of Americans were sacrificed in a course which culminated in the sinking of the Lusitania. In a similar fashion, the commercial rights of property upon the sea were invaded by England and the whole structure

of international law for the protection of commerce and private property was broken down. The invasion of the rights of men and women to their lives was far more serious than the invasion of property rights, and it was this invasion that called for the first and strongest action on our part. But if we had taken such action it would have become our duty, a duty then easily performed, to instantly and fully protect our property rights. Many men question whether it will ever again be safe for nations to be ever interdependent by allowing themselves, so far as their necessities are concerned, to depend upon foreign sources of supply.

"The theory of having each nation or group of nations build a Chinese wall around its borders is being discussed because of the complete breakdown of the code of international rights. The responsibility for this breakdown rests primarily upon the Pontius Pilate-like construction which President Wilson has put upon neutrality.

"Now that the war has been carried to our very shores, there is no American who does not realize the awful tragedy of our indifference and inaction. Nine-tenths of wisdom is being wise in time. By taking the right step at the right time, America's influence and leadership might have been made a stabilizing force. President Wilson's ignoble shirking of responsibility has been clothed in an utterly misleading phrase, the phrase of a coward, 'He kept us out of war.' In ac-

tual reality, war has been creeping nearer and nearer until it stares at us from just beyond our three-mile limit, and we face it without policy, plan, purpose or preparation. No sane man can today be so blind as to believe President Wilson's original statement that the war was no concern of ours. Every thinking man must realize the utter futility of a statesmanship without plan or policy until such facts as these now stare us in the face."

Omaha Helping to Get 20,000 Sailors

In furthering efforts of the United States government to recruit the navy to greater strength, officials in charge of the local office have established here a sub-station to co-operate with the main office in the Federal building, Fifteenth and Douglas streets. H. H. Warnock has been placed in charge.

Under an appropriation bill recently enacted by congress provision is made for an increase in the navy of about 20,000 men. Special effort will be made to obtain this number quickly.
