Wheat Jumps From Nine to Eleven Cents a Bushel on Heavy Sales for Export.

YELLOW CORN SELLS AT 97c

Omaha, October 25, 1916.

The result of the heavy export sales of wheat from this country was seen in the local market today when the price of wheat rose from 9c to 11c per bushel.

All previous records for high prices on wheat were shattered and the poorest car of wheat sold brought $1.25. The top price of yesterday's market on No. 2 hard wheat was $1.71, and today the same quality of wheat sold around $1.80 and $1.81, while the general run of No. 2 hard sold at $1.78 and $1.79, practically a 10c gain over the average price paid yesterday.

The market for durum wheat was not as active as was the hard winter market, but No. 2 durum sold at $1.76, or about 2c higher than it did yesterday.

The car shortage has caused a decrease in the local receipts and the sellers today had no difficulty in disposing of their samples at record prices long before the close of the cash trading.

The corn market was rather quiet on account of light receipts, but the demand, nevertheless, was good, and yellow corn sold at 97c, a new high mark.

A car of No. 3 yellow corn brought 95c, and the bulk of the samples, which graded No. 3 mixed, sold around 95@96¼c.

The corn market generally was quoted 1¼c to 2¼c higher, while oats ruled from 1¼c to 1⅝c up.

The demand for oats was not very active and several samples of this cereal were held over. The bulk of the samples sold at 51c; the top price for the day was 51¼c, while the poorest grades brought from 50¼c to 50⅝c.

The demand for cash rye was excellent and the market was 5c to 6c higher. While barley, with light sales, sold from 6c to 10c above yesterday's market.

Liverpool close: Wheat, 1@2d higher; corn, steady to ½d higher.

Primary wheat receipts were 1,769,000 bushels and shipments 2,746,000 bushels, against receipts of 1,267,000 bushels and shipments of 1,621,000 bushles last year.

Primary corn receipts were 379,000 bushels and shipments 613,000 bushels, against receipts of 334,000 bushels and shipments of 547,000 bushels last year.

Primary oats receipts were 1,434,000 bushels and shipments 1,415,000 bushels, against receipts of 1,284,000 bushels and shipments of 1,583,000 bushels last year.

Omaha Futures.

A heavy export demand forced another sharp rise in the prices of wheat. The reports of the seaboard show that 2,750,000 bushels were sold for export and more than half of this amount was American wheat, 400,000 bushels being sold out of the local market. The Argentina situation shows no improvement and with the wheat in the northern districts a total loss and the general outlook very unfavorable, it is difficult to say where the rise in wheat will end. The opening prices on wheat were strong and the advance continued steadily until December wheat reached $1.80 and May $1.81, almost a 6-cent gain over the closing prices of yesterday.

The trade cannot hope for a heavy run of corn while the car shortage continues and the general opinion is that corn will be led by the action of the wheat market. May corn opened steady and December a trifle lower, but the loss in the December article was soon regained, and both of these options made good advances.

The oats market was also very strong and advanced steadily from the opening quotations, December reaching a high mark of 53c and May 55¾c.

CHICAGO GRAIN AND PROVISIONS.

Alarming Reports from Argentina Cause Sharp Rise in Wheat.

Chicago, Oct. 25.—Wheat rose excitedly today, seven cents a bushel, but the greater part of the advance failed to hold. World shortage of supplies had been rendered more acute by increasing crop damage in Argentina. Europeans however, aggressively fought the bulls after the market had surpassed 185, the high price record of the Joseph Leiter "corner" in 1898. The close was weak at 180 to 180⅝, December, and 180¾ to 180½, May, with the market as a whole ⅛ to 2 cents above yesterday's finish.

Rapidly bolging prices and waves of buying formed the rule inthe wheat pit during the first half of the day. Alarming reports were current that the Argentine damage from drought had assumed disastrous proportions. Yesterday's heavy export sales gave a further impetus to speculative buying, which proceeded unchecked until the advance amounted to almost 12 cents as compared with the lowest figures of yesterday's session. Then prices began to break.

Widening out of selling which accompanied the late setback in wheat, was based to a considerable extent on opinions that the advance of late had been too rapid. In this connection it was said the British government purchasers had withdrawn from the market and that foreigners were reselling contracts both for immediate and future delivery. An additional bearish element at this juncture was a sudden downturn in prices at Buenos Ayres.

Larger country offerings of corn made that cereal weak at the start and much more so at the finish. The close was at a decline of ⅝ to 2¼c net.

Oats were relatively stronger than corn, finishing at only a net loss of ¼ cents.

Realizing sales pulled down provisions sharply after an early advance. Holders seemed in a hurry to unload when cereals began to react in good earnest. The outcome ranged from 2¢ decline to seven cents advance as compared with twenty-four hours before.

NEW YORK STOCKS

Leading Shares Again React Moderately After Showing Irregular Strength.

HIGH RECORDS FOR SUGAR

New York, Oct. 25.—Technical conditions, represented by the extended bull account, outweighed more favorable general developments in today's market, leading stocks again reacting moderately after an early period of irregular strength.

The highly professional character of the trading was evidenced by the extraordinary activity of issues having only potential of future value, especially Chicago, Rock Island & Pacific, which outranked all other stocks on its extreme rise of 7⅛ points to 34⅛, with an overturn of 225,000 shares.

Other strong and active stocks included Denver & Rio Grande common and preferred at gains of 4¾ and 5⅛ points respectively with 1 to 3 points for Missouri Pacific, Missouri, Kansas & Texas, Texas & Pacific and St. Louis & San Francisco. These, with Rock Island, made up 40 per cent of the total aggregate of 1,240,000 shares.

Investment Rails were irregular to heavy throughout, pressure being most marked in Reading and other coalers, as well as Union Pacific and some of the granger and main trunk lines. United States Steel also denoted bearish activity, closing at 117⅝, its low quotation of the session, and a net loss of 1⅛.

High records, made during the forenoon by the sugars were wholly or partially surrendered later, General Motors also receded from its new maximum of 813, with other specialties, such as Bethlehem Steel, which rose 9 points and fell 10. Industrial Alcohol retained greater part of its 9½ points gain. Other munitions equipments and motors yielded 1 to 3 points from top levels. Foreign and international issues again were contributed to the irregularity of the bond division with pronounced strength in the convertible or speculative issues of minor railways. Total sales, par value, $6,150,000. United States bonds were unchanged on call.

Cattle—Receipts were fair for a Wednesday although smaller than Monday and Tuesday. Total for the three days amounts to 37,644 head, a falling off of over 9,000 head as compared with last week, but a gain of 3,000 head as compared with a year ago.

Early advices from other selling points were not especially favorable and as local trains were late in arriving buyers were inclined to await developments before filling their orders. The result was a slow market with the feeling weak. Some choice cornfed yearlings sold up to $11.05, the highest price ever paid on this market.

Quotations on cattle: Good to choice beeves, $9.75@10.50; fair to good beeves, $8.50@9.75; common to fair beeves, $6.75@8.50; fancy grassers, $8.25@9.75; good to choice grass beeves, $7.75@8.25; fair to choice grass beeves, $6.85@7.75; common to fair grass beeves, $6.00@6.85; good to choice heifers, $6.75@7.25; good to choice cows, $6.50@7.00; fair to good cows, $5.85@6.50; common to fair cows, $4.25@5.85; good to choice feeders, $7.50@8.15; fair to good feeders, $6.75@7.50; common to fair feeders, $6.00@6.75; good to choice stockers, $7.50@8.00; stock heifers, $6.25@7.25; stock cows, $5.25@6.50; stock calves, $7.00@8.50; veal calves, $8.00@10.50; beef bulls, stags, etc., $5.25@6.50.

Hogs—Chicago had a big run, and with early prospects indicating that prices would show no advance there, shippers were able to fill their orders at prices that were in most cases unchanged though they called someof their hogs 5c higher. The top was the same as it has been all week, $10.15.

First packer bids were if anything easier than yesterday's average, but later reports from the Windy City were more encouraging and when movement started it was at figures that were steady to mostly 5c higher than yesterday's average, or about the same prices as were in force at the good time yesterday.

Some trains were late, but as a general thing, belated arrivals sold just as high as any time. After the early hogs were cleaned up packers talked easier prices, but receipts fell short of expectations and while the later trade was not overly active it was firm at morning prices.

The general market was largely 5c higher, some hogs being called only steady. Bulk of the sales was made at $9.80@9.95, with the top as noted at $10.15. While the top is higher than at the close of last week and for that matter the highest on record for the tenth month of the year bulk of the hogs is not selling quite as high as it was last Saturday. Monday's dime drop not having been entirely made up in the small advances of the last two days.

Sheep—The supply of killing lambs continued to run well under the needs of packers, and prices again showed a higher tendency, the market being called 10@15c higher than yesterday, or a quarter higher than Monday. A couple of bunches of desirable lambs reached $10.40, the highest price paid so far this month, while an ordinary kind landed around $10.15, and the tops of a string of feeders were taken by a killer at $10.00. Fat ewes, which have shown little strength for some time, shared the lamb upturn, old sheep being called 10@15c higher. A couple of cars of handy weight ewes of good quality that reached $7.00 were of a more desirable class than anything that has been here recently. Some yearling wethers reached $8.00, which is higher than anything has been selling, and as high as has been paid this month.

The feeder trade continued to be something of a drag, though forenoon feeder lamb sales were quoted steady.

Quotations on sheep and lambs: Lambs, good to choice, $10.25@10.40; fair to good, $10.00@10.25; lambs, feeders, $9.00@9.90; yearlings, good to choice, $7.50@8.00; yearlings, fair to good, $7.00@7.50; yearlings, feeders, $7.00@8.00; wethers, fair to choice, $6.50@7.50; ewes, good to choice, $6.50@7.00; ewes, fair to good, $5.75@6.50; ewes, plain to culls, $4.00@5.50; ewes, feeding, $4.50@5.90; ewes, breeders, all ages, $6.00@8.50.

Corset Discrimination

means simply the ability to choose a corset that will emphasize the good points of your figure and conceal its defects. You can fashion your figure into lovely lines of grace by wearing the right corset—and you can just as easily destroy its naturally beautiful contour by the wrong corset.

Miss Austin, Expert Corsetierre, will give individual fittings all this week.

Binner Corset

Special Display of these Corsets in our new Corset Dept., 2d Fl. All Week.

are designed by corset experts to play up every graceful, sweeping line that is in your figure.

It will give us much pleasure to show you the latest Binner models designed on new lines with higher bust—smaller waist—rounded hips and shorter skirt. The silk brocaded models will especially interest you.
