

YOUNG LECTURES ON CHRISTIAN SCIENCE

Talks at Noon to Business Men and Says Real Business is Honorable.

TELLS OF LAWS OF LIFE

Bicknell Young, C. S. B., member of the Christian Science Board of Lectureship, spoke at noon at the Boyd theater.

"My kind friend introducing me here has spoken of the war which seems to have involved the greater part of the civilized world. As he has so well remarked, it is clear that no such condition could come about through Christianity, but rather because of the lack of it.

"Christian Science explains itself in such a way as to make its practical value both clear and demonstrable. Just as Christianity fully understood and lived would make war impossible, so Christianity understood and lived would not only harmonize nations, but necessarily harmonize the relationship of individuals to each other, thus touching business intimately and redeeming it from much that today tends to perpetuate fear and uncertainty.

When business is bad fear makes it worse. When it is good, fear is around in the background, ready to take business by the hand and that we must prepare for bad business or no business.

Real Business Helps All. "Business blesses the one who sells and the one who buys if it be real business, for only such business has any relationship at all to Divine principle.

"Mary Baker Eddy in the year 1866 discovered Christian Science. She says that that discovery was a discovery of the laws of life. Clearly law could not be discovered in materiality, because intelligence does not reside there.

Tabloids of Politics

Little Items About the Progress of the Campaign.

A decided change has marked local betting on the political situation. Hughes is replacing Wilson as a favorite in the betting on the state as well as the national situation. A democrat placed \$1,500 on Wilson at a Fourteenth street cigar store during the last two weeks.

Ben S. Baker, Michael Clark, Frank Best, Emmet G. Solomon, Frank Dewey, Henry C. Murphy and William A. Foster were the republican nominees who addressed a large gathering in Magnolia hall, Twenty-fourth street and Ames avenue, on Tuesday evening.

W. H. Reynolds of Chadron, republican nominee for state treasurer, is here with a lot of attractive campaign cards which he is distributing. The upper half of the cards shows the Reynolds home and family at Chadron. The information on the cards states that Mr. Reynolds home-stayed in Nebraska in 1884, served two terms as treasurer of Dawes county, served three terms in the state senate and was chairman of the finance, ways and means committee of the senate in 1913.

C. L. Markham's letter in the Letter Box of The Bee yesterday was cut out and posted on the wall at republican downtown headquarters, 1607 Farnam street. One of the most significant of all the straw votes so far taken has just been reported. A poll was taken of twenty-five men gathered in one place downtown and the vote stood: Wilson, 24; Hughes, 1. This will be better appreciated when it is understood that the place was democratic headquarters, and none but democratic workers were present.

NEW RAIL TARIFFS ARE NOW IN EFFECT

Distance Rates on Freight Now Apply To and From Interior Points.

ORDER NO. 19 IS NO MORE

The "Clarke scale," applying to freight rates within the state, became effective today, the tariffs all being in the hands of the agents. This scale going into effect ends the litigation between the Nebraska Railway commission and the railroads that has been going on for two or more years.

The "Clarke scale" does away with order No. 19 of the State Railway commission and raises the freight rates from the Missouri river to eastern Nebraska points, but reduces them to points in the central and western parts of the state. It puts the rate on a mileage basis. It also puts all Missouri shipping points on a parity with Omaha, where the distance is the same.

Other Cities Protest. Order No. 19, as promulgated by the Nebraska Railway commission, sought to give Omaha an extra state rate that other Missouri river points, particularly Kansas City, St. Joseph, Council Bluffs and Sioux City, contended was discriminatory and shut them out of the state.

The jobbing centers on the east side of the Missouri river made their showing before the Interstate Commerce commission and won, the "Clarke scale" being the outcome. Under the scale, as applied to the tariffs issued, instead of freight going into zones on a certain rate, each shipment goes on the mileage basis, that is, the charge is made on so much per mile.

Weather Has Cleared All Through the State
