GRAIN AND PRODUCE

Market Goes Up a Bit Following Good Receipts and Excellent Cash Demand.

CORN PREMIUM NARROWS

The cash wheat situation was firm, and with good receipts and an excellent cash demand the market moved from steady to higher.

The trade in cash wheat was very active, and interest in this market was helped considerably by the increased export demand.

The bulk of the No. 2 wheat brought \$1.19 and \$1.20, while the bulk yesterday went at \$1.18.

No. 3 hard wheat also sold on a much better basis, buyers paying around \$1.17 and \$1.18 for the same grade of wheat sold yesterday at \$1.15 and \$1.17.

The market for No. 4 hard wheat was also very active, and this grade brought from \$1.17 to \$1.18, while the sample grade, which was not much in demand, sold at \$1.17.

There were only a few samples of durum wheat on the tables and millers paid about \$1.15 for the real light lambs, provided they have the quality, and while nothing has been selling above \$1.15, buyers would have been willing to pay \$1.16 for something that just suited them.

Quotations on sheep and lambs: Lambs, good to choice, \$1.05@1.10; lambs, fair to good, \$1.00@1.05; lambs, feeders, \$0.95@1.00.

Yearlings, good to choice, \$1.00@1.05; yearlings, fair to good, \$0.95@1.00; yearlings, feeders, \$0.90@0.95.

Hogs—Receipts, \$1.20@1.25; market, steady. Feeder hogs, \$1.15@1.20; market, steady.

OMAHA SCHOOL BOARD

Two years ago, when the CITIZENS' TICKET was before the voters, and who were elected, the World-Herald said editorially October 15th:

The school board ticket presented with the indorsement of the citizens' committee is one of exceptional merit. It cannot fail to appeal forcefully for the support of every voter, man or woman, whose sole concern in the school board election is the welfare of the Omaha public schools.

On the citizens' ticket is represented the very best business and professional ability to be found in Omaha.

The citizens' committee says truly: "These candidates are well known, of exceptional character and demonstrated capacity, and will have the confidence of all the people of Omaha who desire the best service in public office. These men yielded to the call of duty at considerable sacrifice to their personal affairs, and the people of the city will do well to take advantage of this opportunity."

Especially valuable is this advice of the committee to the voters: "It is not sufficient to elect one or two good men. To be sure of your board you must CONCENTRATE YOUR VOTE—VOTE FOR EIGHT."

Seldom if ever before have the people of Omaha had the opportunity to call to their service men of such notable ability and standing. The position is purely one of service. It carries no salary. It confers no high honor. It entails much hard work and calls for the fullest measure of unselfish devotion.

The candidates on the citizens' ticket are not self-seekers. They are not eager to use the school board for their private benefit or for the benefit of their friends, or to make of it a stepping stone to higher office or a tool of politics. Their one motive is to give their ability and energy to bringing about a betterment in the conduct of school affairs.

The situation is squarely up to Omaha voters. They have the chance to put their public schools in the hands of men whose service \$100,000 a year could not hire, but who are ready to give their services for nothing. They have the chance, by doing so, to take our school control out of ward politics and gang politics and to lift it above the plane of petty personalities and spites and grudges and favoritism.

What do you think of it, Mr. and Mrs. Voter? Do you want your schools managed by the biggest and ablest men in Omaha?

These statements are equally applicable and true today, when eight men are to be elected. The slogan is

SELF-SEEKERS TO THE REAR

The following successful men are not seeking the position, but they have been conscripted, and will, if elected, give the voters of Omaha efficient service:

Prohibition vs. High License

W. J. Connell, who came to Omaha with the birth of Nebraska as a state and has witnessed the growth and development of Omaha from a town of less than 15,000 people to a magnificent city of over 160,000 inhabitants, upon being interviewed as to his views of prohibition, responded that he had come to feel a good deal like the old Quaker who said to his better half, "Wife, I do believe everybody has gone crazy except me and thee! and at times I have my doubts if we are not a little bit off in the upper story." Notwithstanding these doubts, Mr. Connell's views are as follows:

- "I favor the present high license system over proposed absolute prohibition for the following reasons: "First—Our present high license law is in effect a local option law. "Second—Under the present high license system, where public sentiment will sustain prohibition, you can have prohibition. This is true of every county in Nebraska, under existing law. Where the sentiment of the people in any city or county does not sustain prohibition, this attempt to enforce it will be a dismal failure. "Third—It is better to have regulation of the liquor traffic than bootlegging, which is certain to follow attempted prohibition. "Fourth—Certain evils have existed from time immemorial, and will continue to exist in some form for all time to come. They can be regulated, but not wiped out by law or constitutional amendments. "Fifth—There is less danger from an open fire that can be seen and kept within proper control than from a concealed or smothered fire. "Sixth—What a person wants, they will have. "Seventh—To be denied anything only creates the desire and increases the determination to have it anyhow. "Eighth—You can't legislate goodness into anybody. "Ninth—It is education, not legislation, that makes people better. The teaching of the ill-effects of alcohol on the human system, as now taught in our public schools, is doing more for the cause of temperance than all the prohibition agitators in America. "Tenth—It is excess in the use of anything, not the thing itself, that causes injury. "Eleventh—More people are injured and greater harm is done the human race by over-eating than by over-drinking. Is the next move to be a regulation of our diet by law? Where are the personal rights of the individual to commence and where will the fanatical movements now under way and in prospect end? "Twelfth—Revenue from the authorized regulation of the liquor traffic is far better than the burden of taxation under a non-enforceable prohibitory amendment. "Thirteenth—We should first get out from under the harrow of existing debt and taxation before making this jump to prohibition. "Fourteenth—We should not vote unnecessary and crushing burdens on ourselves, where no compensating benefits will result. "Fifteenth—Omaha has prospered under the present high-license system, and Nebraska under existing conditions has grown to a magnificent State. Why sand-bag both City and State?"
