

IMMENSE CROWDS APPLAUD HUGHES IN NEW YORK CITY

Republican Candidate Invades Downtown Part of Metrop- olis, Making Five Ad- dresses to People.

SAME MAN AS YEARS AGO

Republican Nominee Says That Rights Cease to Be Rights if Not Enforced.

DEMO PROMISES UNKEPT

New York, Nov. 4.—Charles E. Hughes, republican candidate for the presidency, invading the downtown business section of New York during today, made five speeches, in which he attacked the Wilson administration, declared for the maintenance of American rights throughout the world and asserted he was "opposed to treating the American business man as a suspicious character."

Large crowds of business men and women on their way to and from luncheon today cheered Mr. Hughes at every stop.

Mr. Hughes declared he did not want anybody to talk to him about class antagonism in this country, "who does all in his power to stimulate class antagonism."

"We'll all prosper together," he added, "or we won't prosper at all."

Mr. Hughes expressed himself as confident of being elected and said that he did not propose to deal with the international situation in an "academic" manner.

Enemy of Privilege.

"I came into public life," declared Mr. Hughes, "as the enemy of abuses and special privileges. I am just the same man today as when I was governor of New York."

Mr. Hughes rested at his hotel this afternoon before reviewing the parade which will precede the big mass meeting tonight at Madison Square Garden, where he will make the closing speech of his campaign.

"Does any one tell us that Americans need not fear the competition which will ensue when the 'war classes' Mr. Hughes asked, 'Such suggestion must be deemed appropriate only when associated with those who are unintelligent or have failed to carefully observe the trend of affairs.'

"What are we going to do about it? What do our opponents say? Why they said, let us be efficient and alert and skillful. We must be efficient and alert and skillful; we must greatly improve in every direction, but we cannot, in many of our industries, hope to compete unless our labor is either protected or the wages of American labor are reduced.

What Confronts America.

"That is the proposition before the American working man; before the American business man; before the young man of America. It takes not only American alert, efficient and skillful, and American resourceful to develop American prosperity. It takes sound governmental policies.

"We have got to have a condition in this country where industry is not dependent upon war orders. You can see today, all through the land, the men who will be laid off from our shops and factories at the close of the war.

"I want to see wholesome conditions in our industry. In a word I want to have a basis for honest enterprise, for prosperity conserved by sound governmental policies and the American name honored throughout the world."

Greene Quits Rockefeller Foundation

New York, Nov. 4.—Jerome D. Greene has resigned as secretary of the Rockefeller Foundation, it was learned here today. He announced his purpose to withdraw, it was stated authoritatively at the last meeting of the board of trustees and his resignation is to take effect "at his own pleasure."

No authorization was available from the foundation officials as to Mr. Greene's resignation. It was said it was voluntarily and that an explanation might come from him. He is in Washington, it is understood.

It was definitely stated that Mr. Greene's withdrawal did not carry with it a retirement from other Rockefeller business and philanthropic interests.

Recite Further Horrible Deeds of Villa Crew

Carranza Soldiers Unspeakably Mutilated and Women Tortured, it Was Reported.

CHINESE AND ARABS SLAIN

Chihuahua City, Nov. 4.—(Via El Paso Junction.)—Dr. Fisher, an American physician living at Santa Rosalia, was killed by the Villa bandits under General Baudelio Uribe according to the statement of a Mexican refugee who arrived here from Santa Rosalia late today. Dr. Fisher was one of the few Americans known to have been in Santa Rosalia at the time the Villa bandits captured the town.

San Antonio, Tex., Nov. 4.—General Funston received a report from General Pershing today on the recent engagements at Santa Ana between 110 cowboys doing guard duty on the Babricora and Namiquipa ranches and a band of about fifty Villa soldiers. The report said several of the bandits were killed, in addition to those taken prisoner and turned over to the Carranza military authorities at Juarez.

Execute Chinese and Arabs.

Chihuahua City, Mexico, Nov. 4.—Villa mandates in the command of General Baudelio Uribe executed a number of Chinese and Arab residents of Santa Rosalia on October 26, refugees arriving from Santa Rosalia overland reported here. General Uribe in a speech declared after the capture of the town, accused foreigners of being enemies of Villa's cause and then ordered the summary executions of the Chinese and Arab residents, the refugees added.

It is not known whether foreigners of other nationalities were executed.

Given Choice.

After capturing the town, General Uribe gave all prisoners the choice of having their ears severed from their heads or of being executed, the refugees stated. Many of the prisoners are said to have accepted death rather than lifelong mutilation.

The town was then looted, the refugees reported, and the women camp followers of the Carranza troops there were mistreated by the bandits, according to eyewitnesses who arrived here.

They reported Uribe's command had moved south toward Jimenez and Parral.

Captured by Villa.

El Paso, Tex., Nov. 4.—Government agents here received what they claim to be reliable information today that Santa Rosalia, Parral and Jimenez have been taken by Villa bandits. It is not known whether these towns were held by the bandits after their capture. American mining men also confirmed what they claim as additional confirmation today of the report that Parral was taken on Tuesday.

The government agents claim to have reports showing that General Luis Herrera moved out of Parral before the approach of the Villa bandits and retired to San Francisco de Oro, in the mountains near Parral. It is believed by State department officials that the Americans in Parral accompanied this column.

Unspeakably Mutilated.

An employe of the Parral Mining company arrived here today by way of Torreon, Mexico, and Eagle Pass, Tex., and said Parral was in the hands of the Carranza forces when he left there on October 27. He said he had talked with Carranza soldiers at Jimenez, who had had their ears cut off by Villa bandits at Santa Rosalia. The mining man added that the Carranza soldiers reported that the bandits had unspeakably mutilated at least ten of the Carranza soldiers at Santa Rosalia.

Woman Asks Ten Thousand for Slander

Making allegations that Edward Argaman intended to injure her good name by accusing her of having given false testimony at a bankruptcy hearing in federal court, Bessie Adler, 2201 Burdette street, has filed a petition for \$10,000 damages for slander.

Miss Adler is a bookkeeper. It is stated in the petition that Argaman made the alleged slanderous remarks in the presence of her father, Jacob Adler, and several other persons on October 10.

Lack of Brainwork by Democrats is Cause of the High Price of Coal

High price of coal is the result of democratic folly and ignorance, charged Charles A. Westerfield, coal dealer, not only believes this but proves it. He says:

"We are paying \$4.50 for Illinois coal, the same brand that we bought last year for \$1.75. And the mines in Illinois are only working one day a week. Why is this condition? Because of the shortage of cars. And why is there a shortage of cars? Because the fool policy of the Democrats allow them to be used for storage."

Back in the east, there are thousands of cars laden with grain for export. The railroads have charged no demurrage rates on stuff awaiting export. But some of those cars have been standing there for nine months, helping to paralyze shipping facilities in the west and other parts of the

Twenty-Seven Men Entombed in Mine

Birmingham, Ala., Nov. 4.—Eighteen negroes and nine white men entombed in the Bessie mines of the Sloss-Sheffield Steel and Iron company, twenty miles west of here, are believed to have lost their lives early today by an explosion, said to have been caused by gas. Rescue crews from state mine bureaus are at work trying to reach the men. Two white men and three negroes escaped injury by working their way through the debris which the blast caused in the opening.

Antelope County Starts Plan to Give Early Election Returns

J. T. Fletcher, chairman of the republican committee, and Arthur T. Galloway, chairman of the democratic committee of Antelope county, have united in an effort to get early returns from the election of Tuesday. Their plan is a simple one and can well be copied by every county in the state, to the end that the result in Nebraska will be known earlier than ever before.

Messrs. Fletcher and Galloway have united in a circular note to election boards and precinct committees suggesting that the votes be counted in a specified order, and that as soon as the count is completed on any group the result be telephoned at once to headquarters at Neligh. By following this plan the Antelope county boosters hope to have their figures in ahead of any other county in the state.

The order selected for counting is:

Another Week Another Thousand

Week after week The Bee continues to set the pace in the number of Paid Want Ads gained as compared to 1915.

Last Week, 1,047.

**Total Since
January 1, 47,940.**

An average gain of more than 1,100 each week.

**The Reason:
Better Results
Better Rates.**

Nebraska's Self-Interest.

Do not overlook the fact that Nebraska needs Hughes more than Hughes needs Nebraska.

Nebraska's eight electoral votes are of small significance compared with the electoral votes of the big states, but the reputation of Nebraska as a state in line with the forward-looking sections of the country means a great deal more to us than appears on the surface.

The republican party is the party of energy, enterprise and progress, built on the keystone arch of New England, New York, Pennsylvania and the states carved out of the old Northwest Territory and the Louisiana Purchase north of the Mason and Dixon line, while the democratic part is controlled by the bourgeoisie of the solid south and made up of the most backward, the most illiterate, the most reactionary, the least democratic elements of our population.

The republican states are the states that do the vast bulk of the country's business, the states that are accumulating the big end of the nation's industrial capital, the states that are developing and utilizing their natural resources, the states that are leading in social justice reforms and in legislation and public activities for uplifting the mass of people, while the southern states are lagging, if not actually pulling back, in all these vital things.

In giving its electoral vote to the democratic candidate for president the last two times Nebraska has failed to appreciate the value of being ranked as a republican state or the detriment it suffers by being placed in the nondescript class along with states like Mississippi, Arkansas and the Carolinas.

Nebraska can and should redeem itself and strengthen its position at home and abroad by wheeling back this year into the republican column where it rightfully belongs.

KAISER ANNOUNCES NEW SEA POLICY

Neutral Cargoes that Might Be Taken Into Kirkwall Will Be Destroyed.

TO DEMAND GUARANTEES

London, Nov. 4.—A special dispatch from Amsterdam features a statement of the Berlin Kreuz Zeitung to the effect that Germany has decided to make the safety of neutral ships carrying neutral cargoes dependent upon guarantees that no part of such cargoes shall be landed, whether through British compulsion or not at any British port.

Such guarantees, according to the Kreuz Zeitung, can consist only in formal undertakings by Great Britain, and such an undertaking will be recognized the involability of neutral ships.

This is taken to mean that in event of any neutral cargo or part thereof being landed in England the German government immediately will cease to recognize the inviolability of neutral.

The Berlin paper implies that the case of the Dutch freighter Bloomsdrif, which was sunk by a German submarine off Nantucket on October 8, will be argued along these lines, and it will be contended since the immediate destination of the vessel was Kirkwall, there was no guarantee that the whole cargo would reach Holland.

The British press also infers from the Berlin dispatch, summarized in the Keolnische Zeitung, that Germany proposes to sink all neutral ships, whether bearing neutral cargoes or otherwise, unless Great Britain consents to abandon their right to compel discharge at Kirkwall of any part of a neutral cargo suspected of having an enemy destination.

Rumor of Attempt to Assassinate Hughes; Roman Candle Blows

New York, Nov. 4.—A report that an attempt had been made to assassinate Charles E. Hughes with a bomb as he was leading a republican parade here early tonight caused much excitement until it was learned that the explosion which had been heard resulted from the premature discharge of a roman candle. The man who held the candle was slightly burned, but no one else was hurt.

HEAVY FIGHTING ON EAST FRONTIER

London, Nov. 4.—Heavy fighting continues on the battlefields of Galicia and along the Roumanian frontier without pronounced gains for either side. In northern France the night was quiet along the French front.

Berlin announces French and British attacks in the Guedecourt Les Boeufes and Courcellette sectors north of the Somme which were repulsed.

The Austro-German forces have made little additional progress in their campaign against Roumania. Berlin announces the capture of a position southwest of Predal which the Roumanians had taken November 2, but concedes the occupation by Roumanian troops of Rosca height, southeast of Altschanz. Petrograd reports the advance of the Roumanians in the Jui valley.

On the Russian front the Teutonic armies under Prince Leopold of Bavaria have taken some little additional ground from the Russians on the Narayvka southeast of Lemberg in Galicia, Berlin announces.

Bryan Raps Senator And Praises Wilson

In a thinly veiled reference to Senator Hitchcock in the South Side last night, William Jennings Bryan said that all honest democrats would resent the attempt to foist the liquor issue upon the party program in this state.

"Of nineteen prohibition states, the democrats have been the power behind the anti-liquor drive in ten. It is wrong to try to associate the 'wet' issue with the idealistic or even practical program of the democratic party."

Colonel Bryan headed for the reelection of President Wilson and cited the progressive legislation which had been achieved under his direction.

"Wilson was right in his refusal to recognize Huerta," said the speaker. "It would be a gross betrayal of the fundamental principles of our government to recognize in any country the theory of government by assassination."

Mr. Bryan recommended the reelection of Congressman Lobeck. His entire speech consumed but twenty minutes. A large crowd greeted him.

KAISER ANNOUNCES NEW SEA POLICY

Neutral Cargoes that Might Be Taken Into Kirkwall Will Be Destroyed.

TO DEMAND GUARANTEES

London, Nov. 4.—A special dispatch from Amsterdam features a statement of the Berlin Kreuz Zeitung to the effect that Germany has decided to make the safety of neutral ships carrying neutral cargoes dependent upon guarantees that no part of such cargoes shall be landed, whether through British compulsion or not at any British port.

Such guarantees, according to the Kreuz Zeitung, can consist only in formal undertakings by Great Britain, and such an undertaking will be recognized the involability of neutral ships.

This is taken to mean that in event of any neutral cargo or part thereof being landed in England the German government immediately will cease to recognize the inviolability of neutral.

The Berlin paper implies that the case of the Dutch freighter Bloomsdrif, which was sunk by a German submarine off Nantucket on October 8, will be argued along these lines, and it will be contended since the immediate destination of the vessel was Kirkwall, there was no guarantee that the whole cargo would reach Holland.

The British press also infers from the Berlin dispatch, summarized in the Keolnische Zeitung, that Germany proposes to sink all neutral ships, whether bearing neutral cargoes or otherwise, unless Great Britain consents to abandon their right to compel discharge at Kirkwall of any part of a neutral cargo suspected of having an enemy destination.

Rumor of Attempt to Assassinate Hughes; Roman Candle Blows

New York, Nov. 4.—A report that an attempt had been made to assassinate Charles E. Hughes with a bomb as he was leading a republican parade here early tonight caused much excitement until it was learned that the explosion which had been heard resulted from the premature discharge of a roman candle. The man who held the candle
