BELLEVUE TO MEET SPEEDY PERUVIANS

Indian Coach Finds Large Hospital List for Friday Game.

ALUMNI TO ATTEND GAME

The chances of the Bellevue coaches sending any kind of representative lineup against Peru this afternoon are slim. Half the members of the squad are suffering from injuries. Johns, who was being saved for this game, is in poor shape and will probably not start, nor will Williams, who was injured in the game with Midland last week.

Coach Benjamin has been putting the squad through some stiff signal drill this week, and has been giving out a new line of plays to use against Peru. The squad has been shifted around to make p laces for the men laid up. Johns was used for a short time yesterday evening at Daugherty's tackle, the latter going to Williams' end.

A large number of Peru alumni is expected to attend the game this afternoon.

Herrmann Replies To Fultz Request

Cincinnati, O., Nov. 9.—August Herrmann, chairman of the National Base Ball commission, today issued a statement replying to a request by David Fultz, president of the Base Ball Players' Fraternity, that some players contracts be changed to prevent players injured in the service of a club, being suspended uncompensated during their illness. Mr. Herrmann's statement say in part: "This request on the part of Mr. Fultz in my judgment is wholly unwarranted and uncalled for and creates a false impression in the minds of the base ball public to-wit: That they may be given to understand that the practice now is that players injured in the service of a club, after a certain period, may be suspended without compensation. This is not a fact and the commission has at all times ruled that a player must be compensated when injured in the service of a club, regardless of the length of the period of his injury, or else be given his release after a certain period."

Danny Maher, Famous American Jockey, Dies

London, Nov. 9.—Danny Maher, the American jockey, died at a nursing home in London early today after a lingering illness, which caused his retirement from the turf three years ago. Danny Maher had the greatest record of any jockey on the English or American turfs in recent years. He was a star performer on English race courses for nine years prior to his retirement. In this time he rode to victory in three derbies, his mounts being Rock Sand, Cicero and Sparmit. He also captured the Oaks in 1916 with Keystone II; the Doncaster St. Leger in 1903 with Rock Sand and the same classic race in 1909 with Bagardo. He was reputed to be worth a large fortune as the result of his turf victories.

When You Have a Cold

It is when you have a cold that you appreciate the good qualities of Chamberlain's Cough Remedy. Mrs. Frank Crocker, Pana, Ill., writes: "Our five-year-old son Paul caught a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."

Japs Building Two New Boats to Ply to 'Frisco

Tokio, Sept. 30.—The Toyo Kisen Kaisha is building two large passenger steamships, each of about 17,000 tons gross register, which will be used in service to San Francisco. One will be called the San Francisco Maru, but the name of the second has not yet been selected. The liners will have a length of about 636 feet, or about thirty-six feet longer than the Empress of Russia or the Empress of Asia, the two big sister liners of the Andian Pacific Steamship company. They will have quadruple expansion engines and each will afford accommodations for about 300 salon passengers, with 100 second class and 800 third class. The speed is estimated at twenty-three knots, making them the fastest on the Pacific.

The company will also build as soon as possible eleven freight steamers, five of which will be utilized in the New York service by way of the Panama canal. It is also learned here that Great Britain has requested Japan to build 100 steamers in an effort to make up for the depletion caused by the raids of enemy submarines. It will be impossible for Japan to turn out such a large number of ships, but the Japanese shipyards are exerting every effort to increase their capacity of construction. Steamships are especially needed in the carrying trade to South American ports.

President of Panama Now Gets Loyal Support

Panama, Oct. 13.—Following the inauguration of President Valdes on October 1 the contest over his election, in which the opposition endeavored to the last to prevent his acceptance by the United States government appears finally to have melted away. There is, indeed, a general feeling of relief that it is all over and there is a very general tendency to give the new president loyal support.

President Valdes has informed the American minister that he intends to push the investigation of the treasury and customs scandals to a finish. He appears also to be in sympathy with the minister's suggestions that it is important to have a better system of accounting throughout the government, but he has not expressed any willingness to have an outsider appointed to take charge of this work and to act as either fiscal adviser or auditor with plenipotentiary powers, as urged by the State department.

THEY ARE PAID TO BE GOOD

Cattle King's Grandsons Get \$7,000,000 Bequest With a Friendly String To It.

Henry Miller's grandchildren must remain "sober and industrious" if they expect to enjoy the estate left by the California cattle king. In his will Miller specified in detail what the conduct of his two grandsons shall be. They are to engage in "useful and honorable business" or lose their thirds of his fortune of \$20,000,000. He goes to the detail of prohibiting them from hypochondriacal their expectancy during the lifetime of their parents. Mr. and Mrs. J. Leroy Nickel, and also declares their estate forfeited if they ever get inside a bankruptcy court. The sum of \$900,000 is eventually to go to charities, but the bulk of this is not to be distributed until the death of Henry Miller's three grandchildren. A fund of \$15,000 is created, the proceeds of which are to be distributed to Christmas to the poor in Gilroy, Cal., and a similar fund of \$25,000 for the poor of Brockenheim, Germany, on condition that the graves of his parents receive perpetual care.—San Francisco Chronicle.

CITY CONFERS OVER THE NEW VIADUCTS

Agreement Practically Reached as to How They Will Be Built.

RAILROAD TO LIGHT THEM

J. A. C. Kennedy, attorney for the Missouri Pacific, and John A. Rine, attorney for the city of Omaha, had a conference with City Engineer Bruce and B. Kevnild, secretary of the city planning commission, to bring out just what the difference is between what the city wants in regard to the abolishing of the grade crossings at Dodge, Douglas and Farnam streets, and what the railroad company is willing to concede. This conference was the result of the city council ordering Mr. Rine to go to St. Louis and place before the receiver of the railroad the city's side, in order to get a speedy decision of the Belt Line situation.

The railroad company has agreed upon the following requirements insisted upon by the city planning commission: The bridges across Dodge, Douglas and Farnam streets, east and west of the center line of the railroad right-of-way, to have a clearance of fourteen feet under the center line of the railroad right-of-way. The outer face of the outside structural steel girders for all three bridges to be masked with concrete to level of bottom flange and over top flange. Surface of all exposed concrete to be finished and rubbed. Grade of streets to be as shown on Plan No. 1. The railroad company to repair Dodge, Douglas and Farnam streets, east and west of the center line of the railroad right-of-way, to secure established grade. The railroad company to trim and seed or sod the embankment. The railroad company to keep the subways lighted.

In the conference between Mr. Hadley, Mr. Bruce and the city planning commission, Mr. Hadley said he would recommend to the receiver of the railway that the bridges across Dodge and Farnam streets shall span the streets in their full width from property line to property line, the bridge across Douglas street to have steel columns enclosed in concrete at curb lines.

Dead Naval Officer Native of Kansas City

Kansas City, Mo., Nov. 9.—Naval Lieutenant Luther Welsh, who with Lieutenant C. K. Bronson was killed yesterday at Indian Head, Md., when an aerial bomb shattered the aeroplane in which they were making a test of the explosive, received his appointment from Kansas City in 1906. His fight for the appointment attracted notice at the time, as he found himself two inches under height in his physical examination after passing a brilliant scholastic test. Young Welsh placed himself under a physical instructor and by exercises and weights increased his height to the minimum requirement in the allotted time.

Lieutenant Walsh was to have been married November 23 to a young woman living in Boston, relatives here declared. His mother was in Indian Head at the time of the accident.

Gamblers Infest Panama Cities Despite Raids

Panama, Oct. 11.—Raids on gambling places which have been conducted in Colon are being conducted by Governor Ruben Arcia, who is the governor of the province and has powers superior to the alcalde of the city. Two places have been raided, and their property confiscated. Similar raids were made in Panama Arcia about a month ago. Governor Arcia has declared that he will not stop till gambling has been driven from the city. Arcia is one of the characters of the isthmus. A comparatively young man, he has made a fair fortune out of cattle and lands, and his wealth has placed him beyond the reach of ordinary corruption. He is a little father to the peons all over the province, and has an extraordinary reputation for honesty. He is on very good terms with most of the prominent Americans. The Americans have told him that he has ideals like an American or European statesman, and he seems to work hard to live up to the ideal.

DO YOU REMEMBER CAMPAIGNS OF OLD?

Preacher Spouts Religion Into Politics and Cleveland Then Gets New York.

GRANT SWAMPS HIS RIVAL

Six precincts out of sixteen in Bazzoo, Ariz., give Hughes 641; Wilson, 432—Eli Guggins, who visited the San Francisco exposition last year, says he believes California will go for Wilson—Chairman Wilcox claims election of Hughes—Eighty-five precincts in Douglas county give—No, no, no, I don't want to say that, but I just can't get those dawgoned election figures out of my head. What I wanted to say is that there have been some mighty close presidential elections in this grand republic of ours, and then again some not so close.

A man, who is older than I, recalls the election of 1884, when James G. Blaine, the "plumed knight," was running against Grover Cleveland. Some numbskull of a preacher tried to inject the religious element into politics with the result that the candidate whom he favored lost by just 114 popular votes. New York was the pivotal state and it was ten days before the count was completed there and the state's electoral vote given to Cleveland, electing him.

A "Tie" Vote.

In the early days of the republic no man was nominated for vice president. The man receiving the second largest vote for president was chosen vice president. In 1804 Thomas Jefferson and Aaron Burr each received 73 electoral votes. The house of representatives had to make the choice between the two men and elected Jefferson president and Burr vice president.

Thomas Jefferson, republican, "snowed under" Charles C. Pinckney, federalist, in 1804 with a vote of 162 to 14. James Monroe did more than that to J. Q. Adams in 1820, the electoral vote standing: Monroe, 232; Adams, 1.

Coming down to more modern times, we find the most signal victory was that of Abraham Lincoln in 1864, when he ran against George B. McClellan and secured 212 electoral votes to McClellan's 21. The "solid south" wasn't voting that year, for the very good reason that it was at war with the rest of the country.

What Grant Did.

When General U. S. Grant ran for re-election in 1872 he got an electoral vote of 286 against his opponent's 63. The election of 1876 almost precipitated a war. There was a dispute over the votes of Florida, South Carolina, Oregon and Louisiana. This was referred to an electoral commission composed of eight republicans and seven democrats, which decided it so that Hayes secured 185 and Tilden 184 electoral votes. Roosevelt had a popular vote of 7,623,486 to Parker's 5,007,911 in 1904 and Taft had 7,678,908 to Bryan's 6,409,104 in 1908. In 1912 Wilson received 6,293,019 and Taft and Roosevelt vote was 7,604,463.

ASKS ADAMSON LAW ENJOINED

Sana Fe Petitions Court at Kansas City for Restraining Order.

SAYS ACT IS UNWORKABLE

Kansas City, Mo., Nov. 9.—A petition enjoining the federal district attorney and "labor leaders," from putting the Adamson eight-hour bill into effect was filed in the federal district court at Kansas City, Kan., late today in the name of the Atchison, Topeka & Santa Fe railway. The bill calls attention to agreements with train employees, none of which, it says, contemplate that the employe shall work a fixed number of hours, but that owing to the nature of train service the trip, in terms of hours or mileage, as preferred by the men, is the basis of compensation. The bill recites the circumstances surrounding the passage of the Adamson law and claims that it is a mere arbitrary increase in wages. The law says the bill is unconstitutional and void, because it is not a regulation of interstate commerce, that it is a mere experiment intended as a basis for further legislation, that it deprives the company of its liberty of contract and right of property without due process of law, and that it is unworkable and uncertain. The bill devotes considerable space to explaining why the company considers the law unworkable. It concludes with a statement that the railroad is willing to guarantee employes against loss pending final decision as to the legality of the law. The court is asked to indicate what steps it shall take "by way of compelling special acts, giving bonds or otherwise for the purpose of assuring complete protection to all its employes. On the other hand, complainant says if preliminary and final injunction be denied and this complainant be compelled, under fear of penalties of the said act, to adopt at its own peril some construction of the act involving payment of increased wages to considerable numbers of its employes and if the act shall substantially be declared invalid, the loss thereby sustained by this complainant can never be repaid in any way.

Madden to Take the South Side Bench

Mayor Dahman and the city commissioners informally agreed to assign J. M. Fitzgerald to central police court and R. J. Madden to the South Side police court, these being the police magistrates-elect, according to unofficial reports. Although Mr. Madden received the higher vote, it was believed that Mr. Fitzgerald's experience as deputy county attorney, fitted him for the larger duties of the central police court. The Greater Omaha merger law provides for two police judges and empowers the city council to assign them. The changes will be made January 1.
