One of the prettiest parties of the year was the first assembly dance of the season given in the Grand ball room Wednesday evening. Mrs. Stewart, who had personally superintended the redecoration, received many congratulations on its greatly improved appearance. The floor was in extremely good shape and the music exceptionally fine. The affair was thought to be a great success from beginning to end. She Knows All About Bread and Will Tell It to the Women Folks

Bread, the high price of it, the history of bread, importance of bread, kinds of bread, substitutes for bread, uses for stale bread—in fact, an education in "bread" will be offered by the home economics department of the Omaha Woman's club, Thursday morning at 10 o'clock at Metropolitan clubhouse. Mrs. Charles A. Lotz, for three years connected with the domestic science department of the Salina, Kan., schools and now assistant leader of the Woman's club section, will tell you a lot of things about "the staff of life" that you didn't know before.

Most folks imagine that bread is a slice of something you butter to eat with your food. Mrs. Lotz's outline of her subject for discussion sounds like the history of the First, Second or Third Punic war or something like that. First, she will tell you about the beginnings of bread; the growth of yeast; different grains used in flour; varieties of wheat flour; imperfections in both kinds; scientific research in making bread or new yeast for salt-rising bread, etc.

A blow at Mr. High-Cost-of-Living will be struck when Mrs. Lotz tells what flours can be used with wheat flour to make bread less expensive, substitutes for bread on the table and a few inside secrets like that. Mrs. Lotz knows 'em too, for she studied in a big domestic science school in Detroit.

Mrs. F. J. Burnett, the leader, and other members of the department,

Mrs. C. A. Lotz

have some inside "dope" too. They will tell about making oatmeal bread and bread with cornmeal in it, which proved highly successful.

"In a Few Minutes, Away Go Blackheads"

"You Never Saw Anything Like It, Girls, and Here Are Some Other Beauty Secrets Just as Wonderful," Says Valeska Suratt.

By Valeska Suratt.

HONESTLY, it gives me the "flights" every time I hear of, or see, anyone trying to pinch out blackheads. You can squeeze out a large one in a while and there's no damage to the skin, but when you try to squeeze out the thousands of little ones that are so firmly imbedded in the skin that you have to disfigure your face to get them out, it is time to "call a taxi." Anyway, you'll never get them all out by pinching the face—it's impossible. And it is unnecessary. I have proven it to be unnecessary. You can prove it to yourself in three minutes, if you will take the little trouble to do it, you'll not be able to see a blackhead, when the three minutes are up.

It's wonderful what you can do by sprinkling a little powdered norexin on a wet sponge and rubbing the blackheads with it for a few minutes. It does what nothing else in the wide world can do—get rid of them all, big and little ones. Just try this right away, get the norexin at the drug store. Don't steam the face because that makes the pores large and it does not do a particle of good for removing blackheads.

burn, reds and irritate the skin badly. This is safe on any part of the body. You'll be more than satisfied.

FORM X.—Sorry, but I can't promise you surely that your bust can be developed. Nobody can do that. Nevertheless, there's one thing that will do it if anything can, and that's a mixture of two ounces of rye-tone and half a cup of sugar in a half pint of water. You take two teaspoonfuls for each meal and at bed time. Ask for rye-tone from your druggist.

MRS. B. D. S.—It makes me happy every time I give this wrinkle formula. It does so many wonderful things. You'll hardly have a wrinkle in your face after a few days' use of this cream, which you make yourself at home in a few minutes. Two ounces of opol, one tablespoonful of glycerine in half a pint of water, makes up the cream. Apply once a day at least. All mudiness, spots and freckles vanish like magic.

ANNETTE G.—Well, it just happened your druggist didn't have, but then the eggol for the head-wash and for removing dandruff. Whenever this happens, send the twenty-five cents to "Secretary to Valeska Suratt, Thompson Bldg., Chicago," and it will be sent to you at once.

MISS JANIS T.—One might as well buy chalk as any of the face powders so commonly sold. It's a "fright." I'll say nobody can get as good a face powder on earth as what I have had made for myself after my own formula. It's so fine it's like silk and is invisible. It has no chalkiness whatever. It is being sold now for 15c cents in drug stores as "Valeska Suratt Face Powder," in flesh, white and brunette tints. Adv.

ANSWERS TO QUESTIONS

MISS DOUBLE M.—Your hair ought to stop right away from falling if you will use my hair formula. This has certainly stirred up things among my friends. Every one who has tried it says it is perfectly astounding how it makes hair grow and stops hair falling. Get one ounce of beta-quinol from your druggist and mix it with half a pint of water and half a pint of alcohol. If you prefer, use a full pint of tap water instead of water and alcohol. Use this every day, and your dream of long, silky, beautiful hair will come true.

MISS HAPPY—I knew that hair formula would make your hair grow fast. Now about the dandruff. You know soap and the common shampoos you buy all have alkali. That hurts hair and never stops dandruff. Try a teaspoonful of eggol in half a cup of water and see them shrivel and dissolve away. I'll scale, grease and dandruff. It's wonderful for that. Eggol will cost twenty-five cents—enough to make about twelve shampoos. There's nothing as good.

MISS M. G. H.—One, two, three. That's almost as fast and as easy as my superfluous hair formula gets rid of superfluous hairs. You never saw anything like it in your life. Just moisten the hair with sulfo solution and see them shrivel and dissolve away. I wouldn't use the burners and so-called superfluous hair removers sold for anything! They
