

SIoux CITY MUST PAY JIMMY KANE

National Commission Serves Notice on Club and Western League to Boot.

PRIVILEGE IS THREATENED

Cincinnati, Nov. 16.—The National Base Ball commission today not only dismissed the application of the Sioux City club of the Western league for a rehearing in the Kane case, but served notice on the Western league as well as upon the Sioux City club that "if the ward is not fully adjusted within five days after the promulgation of this finding, the National agreement privileges which the Sioux City club and the Western league have enjoyed will be no longer respected."

During last September the commission reversed a finding of the national board and allowed a claim by Player James Kane against the Sioux City club for salary from May 9 to July 17, at the rate of \$226 per month, less a credit of \$28.

Basils of Refusal.

The ward against the Sioux City club was predicated on that club's refusal to permit the player to join the Wichita club unless under the terms of a gentlemen's agreement, which barred the player released by one of the clubs in the league from signing with another club in the league unless the releasing club was paid the league's waiver price of \$400.

The commission in the finding today, states that it is convinced that this gentlemen's agreement was in effect in the Western league, despite a notification from the Western league's president that on October 3, that "the owners (Western league), deny the existence of the so-called gentlemen's agreement and respectfully refuse to pay the claim."

The commission bases its opinion on a statement from President Zehring of the Western league, under date of September 16, in which the latter said: "Regarding the legislation in regard to the bringing of players from signing with another club within sixty days unless the other club pays the releasing club the waiver price of \$400, this understanding is a gentlemen's agreement among the owners."

Won't Pay, Says Hanlon.

Sioux City, Ia., Nov. 16.—President Hanlon of the Sioux City, Western League Base Ball club, when notified of the action of the National commission in the Kane case said: "I will ignore the ultimatum issued me by the commission. I will not pay Jimmy Kane a cent unless I get a fair hearing. I have not had such a hearing. If the Western league is to suffer from a ruling which I know nothing about and which President Zehring is purported to have said existed then let President Zehring pay the claim and get the league out of the scrape. As far as I know there is no gentlemen's agreement in this league which forbids a player signing with another club in the league within sixty days after release from another club of the league."

Passengers Watch Battle Between Destroyer Fleets

New York, Nov. 16.—The battle between British and German destroyers in the English channel on the night of October 26, when German war craft made a raid upon the channel transport service, was witnessed at a distance by passengers and officers on the Cunard line steamer Andania, which arrived here today from London. Reports brought to the ship after the battle, the passengers said, were that eight British outpost vessels, two destroyers and one transport were sunk.

Chief Officer T. A. Chester of the Andania said today that the liner left Liverpool for London on October 24, anchoring off Plymouth for coal and to await admiralty orders to proceed after the course was assured to be cleared of enemy ships. On the evening of the 26th a line of British destroyers was seen moving to the east at a rapid speed. Soon after they had passed the flashes of light were seen and the thunder of guns was heard, coming from an estimated distance of about twelve miles.

The flashes and detonations indicated that a brisk battle was in progress, which lasted all night.

Wheat Gets Boost of One to Two Cents Bushel

Following reports that the outlook for a bumper crop in Argentina is the bad and that grasshoppers are in the fields, the Omaha market, like markets elsewhere, gave wheat a boost of 1 to 2 cents per bushel. The sales were made at \$1.83 1/2 to \$1.87 1/2 per bushel. Receipts were eighty carloads. Corn followed wheat and took on a rise of 1 to 1 1/2 cents per bushel, selling at 93 1/2 to 96 1/2 cents per bushel. Receipts for the day were thirty-nine carloads. Oats were a little weaker than the other grains, the advance being but 1/4 cent. The prices paid were 55 1/2 to 57 1/2 cents per bushel. The receipts were twenty-five carloads.

EXPERT BLAMES ACHING FEET FOR INEFFICIENCY

One of the great afflictions which beset the feet is a pain known as metatarsalgia. It is caused by a local inflammation of the metatarsal bones, which are the bones of the ball of the foot. It is usually caused by wearing shoes which are too tight or too narrow. It is characterized by a sharp, burning pain in the ball of the foot, which is aggravated by walking or standing. It is usually accompanied by swelling and redness of the affected area. It is a very common affliction, and one which should not be neglected. It can be cured by wearing shoes which are properly fitted and by using the proper foot care.

England Does Not Fear Mr. Wilson Will Act, Says the Cologne Gazette

Amsterdam, Nov. 16.—(Via London).—The Cologne Gazette, commenting on the British reply to the American note regarding black lists says: "Everything remains as before. England is mistress of the sea and whoever wants to carry on commerce can do so only with its permission and under its supervision. Is not this navalism a thousand times more complete and more oppressive than anything in German militarism—which does not exist—is supposed to have done?"

Seven Hundred Fifty Teachers Ask For a Raise in Pay

(Continued from Page One.) leaves the matter to the good judgment of the superintendent and members of the Board of Education. "Is there any organization among the teachers at this time?" was another question. "No, but we are all together in this matter of asking for an increase," she answered.

Teachers of the grade schools are now receiving from \$500 to \$1,000 a year, an increase of \$60 a year being allowed from the initial salary of \$500. Principals receive from \$960 to \$2,000 a year, according to service and size of school. Four principals are receiving \$2,000 a year and the average is about \$1,500 a year.

Others Have Been Raised. At its last meeting the Board of Education increased the salary of supervisors from \$1,550 a year to a maximum of \$1,800 a year after four years of service. High school teachers also were given a raise to \$1,500 a year, with a promotional maximum of \$1,800 a year upon passing examinations provided by the board.

The budget approved by the Board of Education July 28, 1916, for the next year contained an estimated allowance of \$900,000 for teachers' salaries. Should the twenty-five increase requested be granted, it would mean an additional amount of more than \$300,000 to the annual school district expenditures. This would mean an additional levy of five mills.

This situation places the finance committee of the board in something of a dilemma. The prospective reduction of revenues on account of cutting off saloon licenses brought the committee face to face with the stern realities of the future and this general request for salary increase adds another facet to the financial problem of the school directors.

Must Increase Levy.

The next school levy was fixed at 25 mills, which is the legal maximum. The consensus of opinion among the board members is that the whole situation must be carefully analyzed in committee of the whole and the legislature asked this winter for passage of a bill which will increase the mill levy maximum.

The maximum receipts for this school year already has been fixed and cannot be changed. The saloon license situation will create a deficit of an amount according to number of saloons which will be closed on January 1.

Tanners Say Price Of Shoe Leather Will Not Advance

Chicago, Nov. 16.—Five hundred members of the National Association of Tanners, in annual convention here today, said there would be no advance in the price of shoe leather unless the nations at war make too big a demand on the surplus stock now in the hands of tanners and shoe manufacturers. Hides and skins, however, were declared to be scarce. Persistence is the Cardinal Virtue in Advertising.
