

Nebraska CALL FOR \$86,000 MORE IN RESERVE

Banking Board Sends Notices to State Banks to Add to Guaranty Fund.

OVER MILLION TO GOOD

(From a Staff Correspondent.) Lincoln, Neb., Nov. 16.—(Special.)—A special assessment has been made by the State Banking board against 580 of the 840 state banks of the state for the purpose of bringing up the reserve fund to its proper amount.

The amount will bring up the accumulative reserve of each bank to 1 per cent of the bank's average deposits for the last six months and will add a total of \$86,000 to the state guaranty fund raising the full amount to \$1,200,000.

Notes from Beatrice And Gage County

Beatrice, Neb., Nov. 16.—(Special.)—Charles and Dean Essex, 10 and 12 years of age, respectively, sons of T. B. Essex, a farmer living eight miles east of Beatrice, was struck by an eastbound Burlington passenger train No. 97 yesterday afternoon at 1:30 o'clock a quarter of a mile east of Rockford, but escaped injury.

They were riding in a wagon, which caught on the cowcatcher in such a way as to free the horses. The vehicle was carried down the track forty rods and when the train stopped the two boys jumped out of the wagon unharmed.

The sum of \$131.98, which was the net proceeds of the home talent opera given here November 1 and 2, was sent to Company C on the border yesterday to be used in buying the members of the company a Thanksgiving dinner.

Mrs. Dorothy McKinnon, an old resident of Lincoln, died suddenly yesterday morning at the home of her daughter, Mrs. Edward Smack of this city, where she had been visiting.

Edward Jeffries, an old resident of Gage county who taught school here for years, has been elected county judge at Central City, Neb.

During the last week three forged checks for \$10 each have been passed at local stores. Yesterday Chief of Police Hayden took in custody a woman, the wife of a farm hand working near Beatrice, who confessed to forging the checks.

Leland Richardson and Charles Lewis, two boys of this city, yesterday confessed to Chief Hayden that they robbed Walter Brothers' drug store about a month ago of \$55 which they secured from the cash drawer.

Entrance was through a basement window. The boys stated that a resident of this city who has disappeared, hired them to do the job and gave them \$1 each. Part of the money has been recovered.

Silica Mine Opened Near North Platte

North Platte, Neb., Nov. 16.—(Special.)—The first mining claim in this district has just been filed in the United States land office here. George W. Kishman has changed his homestead right to a small tract of land north of Farnam to a mine claim and is working a silica bed.

Kishman is reported to have discovered the silica bed on his homestead more than a year ago. Since that time he has developed the mine until now several cars of the substance are shipped to surrounding states and into Canada each week.

The mine is of special interest to persons in this section in that it brings to light one more resource of western Nebraska of which little or nothing is known to the average resident.

Postpone Wedding Because of Thirteenth

Stella, Neb., Nov. 16.—(Special.)—Miss Minnie Pugh and Floyd Higgins were married at Nebraska City Tuesday, November 14. Plans were made for the wedding to be on Monday, but when the contracting parties learned that day fell on the 13th they decided to postpone their nuptials for a day so as to avoid any bad luck that would follow the 13th date. The bride is the daughter of Mr. and Mrs. Newton W. Pugh of Stella. The groom is the son of Mr. and Mrs. Floyd Higgins, retired farmers, living in Auburn. The young people will make their home on a farm near Auburn.

Commercial Club Meeting

Albion, Neb., Nov. 16.—(Special.)—The largest attended monthly meeting of the Albion Commercial club was held last evening. There were over 200 present and the music was furnished by the orchestra of the high school. The address of the evening was given by E. R. Gurney of Fremont and abounded with wit and the chief of good citizenship as well as commercial ideas.

Farm House Burned Near McCook

McCook, Neb., Nov. 16.—(Special.)—The farm home of Fred Thompson, two miles east of Box Elder, this county, was destroyed by fire Thursday morning. The blaze is supposed to have originated at a defective flue. Within a few minutes after the awakening of Mr. and Mrs. Leon Clifton, who are employed on the place, the roof fell in, hence but little was saved of the contents of the house.

Stomach Trouble and Constipation.

Those who are afflicted with stomach trouble and constipation should read the following: "I have never found anything so good for stomach trouble and constipation as Chamberlain's Tablets. I have used them off and on now for the past two years. They not only regulate the action of the bowels, but stimulate the liver and keep one's body in a healthy condition," writes Mrs. Benjamin Hooper, Auburn, N. Y.—Advertisement.

DEMOCRATS BANDY GLAD WORDS ABOUT

Throw Compliments Galore Around Banquet Board at Lincoln.

SKILES PRAISES BRYAN

(From a Staff Correspondent.) Lincoln, Nov. 16.—(Special.)—The ratification banquet pulled off by the democrats last night at the Lincoln hotel was a thing of beauty and to all appearances a joy forever from a democratic standpoint and the way they congratulated themselves over receiving the greatest surprise of their lives was wonderfully wonderful.

Among other things pulled off "Dick" Metcalfe, in one of his warm atmosphere speeches, proposed the name of Gilbert M. Hitchcock for president in 1920, notwithstanding that C. M. Skiles in a previous speech had said while the room rang with loud acclaim that William J. Bryan was the greatest democrat in the world.

So with Mr. Bryan generally believed to be grooming himself for a fourth battle for the presidency under a prohibitory banner, "Met" will endeavor to put Senator Hitchcock across under a banner which may not be so prohibitory. Thus will democratic harmony again be in evidence between the two wings of the party.

Skiles Talks Plainly.

In his speech C. M. Skiles refused to give any of the democratic state candidates credit for being elected because of their efficiency or for the "wonderful record of saving to the state" so well advertised during the campaign, but said that they were elected because of the popularity of President Wilson, which carried them through on the land slide.

About the biggest man present was Arthur Mullen. "Boss" Mullen appeared on the scene soon after the banqueters became seated and modestly took a seat in the rear of the room among the common people, but his entrance was greeted by a round of cheering that even equalled that given the name of William Jennings Bryan by Mr. Skiles when he called him the greatest democrat ever.

Neville Stays Away.

Governor-elect Neville was not present. It was rumored that he feared to meet the vast herd of office seekers which he thought might pursue him if he came within reach.

Governor Morehead said he was going out of politics, but some man yelled "Rah for the (hic) next senator," when the governor arose to speak. Governor Morehead said that the people should remember that the state four years ago was bankrupt when the democrats first took hold of the government, being in debt \$250,000. He failed to call attention to the fact that in its bankrupt state it still had \$9,000,000 loaned out, drawing a good rate of interest, and that most any democrat present would be glad to be bankrupt with a debt of \$250,000 starting him in the face if he had \$9,000,000 drawing 4 and 5 per cent interest as an offset.

Butte Widow Found Dead in Her Home

Butte, Neb., Nov. 16.—(Special Telegram.)—Mrs. J. B. Kroughan, a widow, was found dead at her home in Butte Wednesday evening at 5 o'clock. She lived alone and had only recently returned from Tripp county, South Dakota, where she had been for some time. Her death appears to have been caused by a heart ailment.

Grand Island Man Carved by Mexican

Grand Island, Neb., Nov. 16.—(Special Telegram.)—Thomas Murphy, laborer, and a Mexican who gives his name as Caesar, became involved in an altercation at the Union Pacific depot late last night. Murphy struck the first blow, according to witnesses, whereupon the Mexican ripped out a knife and cut two frightful gashes on the head and face of Murphy. Both cuts were long and deep and Murphy, who is in a local hospital, will probably be disfigured for life. After a severe chase some railroad men captured the Mexican and turned him over to Union Pacific Officer Johnson. Caesar has been working in the beet fields.

Requisition to Bring Alleged Embezzler Back

Beatrice, Neb., Nov. 16.—(Special Telegram.)—Sheriff Acton has secured a requisition from Governor Morehead for the return to Beatrice of Adolph Fischer, alias A. M. Fernbach, who is under arrest in McClellan county, Texas. He is charged with embezzling \$98.50 from the Prairie Home Life Insurance company of Omaha, which is alleged he collected as premium from Robert Stratford of this city and converted to his own use. The alleged embezzlement occurred April 7, 1915.

Lindsay Cattle Die Of Cornstalk Disease

Lindsay, Neb., Nov. 16.—(Special.)—Some cattle here have died of cornstalk disease recently. While no detailed reports are in, Will Gogan lost three, shipping out the rest of his cattle for fear that they might get the same trouble. John Pfeifer recently lost thirteen. Last night M. J. Ramackers noticed one had the trouble, in his herd of eighty-five head.

By Way of Preparedness

Omaha Uni Girls "Rassle" With The High Cost of Living Problem

The home economics girls of the University of Omaha are literally in distress because of the continually increasing cost of foods. The problem of arranging scientific diets with a reasonable amount of money has become such a hard task that they can no longer do it alone. So they have enlisted the aid of the chemistry and mathematics departments.

The young chemists of the school are analyzing a number of staple foods in order to make a detailed report to the girls on values. Among the foods tried are beans, potatoes, flour, rice, corn and other cereals. As a result of these experiments the girls may issue a kind of proclamation in which they endorse rice and corn as daily foods in order to keep the cost of living down, even though the cost of foods soar. The new diets will be tried in the school and in the homes of the experimenters.

The girls have also asked the analytical geometry class to help in this time of need. No one probably ever dreamed that such a subject would ever be so closely connected with the high cost of living, but it is a fact that a dozen plotters are making drawings for the school cooks. They are watching the markets and making charts showing the cost of certain foods between definite dates. The foods taken are the same as the ones taken by the chemists. The plotters say that the law governing the graphs, the law of supply and demand, is not as consistent as the geometric laws, as its properties change from day to day, or even from hour to hour.

This work will continue until Thanksgiving. Turkeys are among the list, but only as a novelty, because they will be too dear for the average man this year. The whole school is anxiously awaiting the report of the food investigators.

Indians Are Given Deeds to Farms

Sioux Falls, S. D., Nov. 16.—Elaborate ceremonies attended the delivery of fifty Sioux Indians of deeded lands to their lands by the government. The government was represented by Major James McLaughlin, the veteran Indian inspector. The delivery of the deeds gave the fifty Indians the full citizenship rights. The shooting of the last arrow ceremony was used in delivering the deeds to the Indians.

The Sisseton Indians have been divided into three classes for citizenship purposes by Agent Mossman, in charge of the agency. The fifty Indians just made citizens stood first in these classes, they being pronounced the most competent to handle their lands and business affairs without the assistance of the Indian agent or the government.

The members of Class No. 2, who did not develop the necessary qualifications, have been given another trial and will try to make good so they can receive their deeds and their full rights as citizens next year. It is estimated that about 200 Indians have a place in this class and may have the qualifications necessary to entitle them to be made citizens next year.

The members of Class No. 3 are regarded as being permanently incompetent, and it is doubtful if they will ever advance enough to entitle them to citizenship rights. The issuance of the deeds to the fifty Indians will mean that fifty additional tracts of land heretofore not listed as taxable now will be added to the taxable property of Roberts county. The addition of other tracts of Indian land as the Indians become citizens eventually will reduce the tax rate in Roberts county.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRHAL DEAFNESS AND HEAD NOISES. If you know someone who is troubled with head noises, or Catarrhal Deafness, cut out this formula, and hand it to them, and you will have been the means of saving some poor sufferer from total deafness. Recent experiences have proved conclusively that Catarrhal Deafness, head noises, etc., are the direct cause of constitutional disease, and that salves, ointments, and merely temporary with the complaint and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent in vain by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmentin (Double Strength), about 75c worth. Take this home and add to it 1 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat, are other symptoms that show the presence of catarrhal deafness, and which are often entirely overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh; therefore, there must be many people whose hearing can be restored by this simple home treatment.

POLISH AUTHOR DIES SUDDENLY

Henryk Sienkiewicz, Author of "Quo Vadis," Expires in Hotel in Switzerland.

ONCE LIVED IN THE U. S.

New York, Nov. 16.—Henryk Sienkiewicz, the Polish novelist, best known in this country as the author of "Quo Vadis," is dead at Vevey, Switzerland, according to a cable dispatch received here today by the Polish victims' relief committee. Sienkiewicz had devoted much of his time to Polish relief work and had been in frequent communication since the European war began with the committee here and with the National American Red Cross.

The announcement of his death came from a man named Rabinowitz, who is a member of the Polish committee at Lausanne, Switzerland. The message said the novelist died suddenly in a Vevey hotel yesterday.

When Helen Modjeska, Polish actress, settled on a ranch near Los Angeles, Cal., about 1876, hoping there to found a colony for oppressed Poles, Sienkiewicz emigrated to this country and joined her. Her project did not succeed and Sienkiewicz returned to his own country to engage in literary work. His "Quo Vadis" has been translated into almost every European language.

Thomas Watching Official Returns

(From a Staff Correspondent.) Lincoln, Nov. 16.—(Special.)—Dr. A. O. Thomas, state superintendent, knocked off from his strenuous job of watching election returns as shown by official counts coming into the office of the secretary of state and went to Red Cloud today, where he will address the Farmers' Institute of Webster county this evening.

The official count as shown by seventy-seven counties reporting up to noon today showed Thomas, 90,456; Clemmons, 90,104. This count does not include Douglas or Lancaster and still leaves the situation in doubt, with Clay, Dixon, Frontier, Gage, Greeley, Kearney, Morrill, Nuckolls, Saline, Sarpy, Scott's bluff, Sherman, Sioux and Wheeler, still out, in addition.

PUT CREAM IN NOSE AND STOP CATARRH Tells How to Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Adv.

OUCH! LUMBAGO?

Try Musterole. See How Quickly It Relieves

You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not blister. Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites, sores of the chest (it often prevents pneumonia). Always dependable. 25c and 50c jars; hospital size \$2.50.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.

How to Keep the Face Young and Attractive

The way to ward off old age is not to fear it, nor to allow one's self to be oppressed by the dread of advancing years. Use only scientific preventives and avoid trying experiments with preparations that have not stood the test of scientific safety and very effective way to keep the complexion young-looking and beautiful is to apply ordinary mercurized wax at bedtime, using the cold cream, washing it off in the morning. This gradually absorbs the withered, faded cuticle, which is replaced by the more youthful, pink-tinted epidermis. "One ounce of this wax, to be had at any drug store, is enough to completely rejuvenate a worn-out complexion. Signs of advancing age may be removed by a simple, harmless preparation made by dissolving a sure of powdered axcelite in a half pint witch hazel. It is used as a face bath.—Advertisement.

Witness Says the Railroads Have No Money to Expend

Louisville, Ky., Nov. 16.—An increase in freight rates, the proceeds to be used solely for improvements of a character to be designated by the Interstate Commerce commission, was advocated by Frank H. Alfred, general manager of the Pere Marquette, the only witness this morning at the Interstate Commerce commission hearing, in connection with the freight car shortage, as a means of preventing a recurrence at a later date of present conditions.

The railroads, he said, are not prepared to make improvements, or even to undertake demands for the replacements which would be needed because of a lack of fuel with which to carry on the work. Increased pay to employes, he declared, had absorbed any gain in revenue resulting from recent increases in rates. The rising cost of materials used in the replacement of equipment, he said, would more than absorb any extra earnings coming from increased traffic.

Persistence Is the Cardinal Virtue in Advertising.

Dependent Man slain. Sacramento, Cal., Nov. 16.—Dr. Clifton M. Ferris, graduate of John Hopkins and Stanford universities, was found dead today shot through the heart. He had been dependent for some time it was said.

"Look Pa, How 'Gets-It' Works!"

Lifts Your Corn Right Off Never Fails.

Well Now, Look at That! Off Comes That Pesky Corn as Slick as a Whistle. The earth is blessed with the one, simple, painless, never-failing remedy that makes millions of corn-plagued people happy, and that's "GETS-IT". Apply it in 3 seconds. It dries. Some people jab and dig at their corns with knives and razors—wrap their toes in packages with bandages or sticky tape, make them red and raw with salves. Nothing like this with "GETS-IT". Your corn loosens—you lift it off. There's nothing to press on the corn, or hurt. Angels couldn't ask for more. Try it tonight on any corn, callus or wart. "GETS-IT" is sold and recommended by druggists everywhere, 15c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Omaha and recommended as the world's best corn remedy by Sherman & McConnell Drug Co.

Found Health in Cardui.

Mrs. Anna Hileman, of Henryetta, Oklahoma, says that she suffered for eight years with headache, backache, nervousness and other complaints caused from womanly troubles and that she had been to many places seeking health but was not benefited until she took Cardui. At one time she was confined to her bed for three months. She further says: "Could see after I had taken the second bottle it was doing me good. Today I am a well woman and I know that Cardui... has cured me, and I would advise every suffering woman to take it." All druggists sell Cardui (pronounced Card-you-eye)—The Woman's Tonic. Try it if you need a medicinal tonic of this kind. Get a bottle today. 8-23

Why MARY PICKFORD Is the Most Popular Screen Performer in the World

It is very easy to see why Miss Pickford is the highest salaried artist in the world of any description whatever. She "makes good" with the ladies. Watch any picture in which this little lady appears and you will hear more laughs from the feminine portion of the audience than the masculine, because she has little idiosyncrasies all her own that are dear to the ladies' hearts. And this is not "mush" either.

Another thing: She's always modest. Never can you point to any picture where you saw this charming player have to depend upon nudity or vulgarity to put a scene over, handling each and every scene with a charm that wins you from the start.

Take the bathroom scene in LESS THAN THE DUST—this is so modestly done that you feel like writing Miss Pickford a letter and congratulating her upon her artistry in handling this in so delicate a manner, and so on throughout all her features you never see anything in them that makes you ashamed of motion pictures.

Anyway, we're not sorry we booked this first super-feature, it's making good with a vengeance and establishing Miss Pickford as one of the Strand's standbys.

Don't forget, this picture holds forth today and tomorrow, so if you have not seen it don't pass it up.
