Board of Control Report.

Almost a quarter of a million dol-lars less money will be asked of the coming legislature for support of the state institutions by the board of con-trol than was required two years ago. The annual report of the board, just made to the governor, fixes the amount necessary for the biennial period ending June 30, 1918, at \$1,461,530. The amount required for the last biennial period was \$1,703,-835

state hospital for new institutions and for additional acreage for the old ones in the two years ending June 30 of this year cost \$352,375.42. The state hospital for epileptics at Woodward has been developed in the last two years and will be ready for occupancy next March. Grounds for the Women's reformatory at Rockwell City also have been purchased. In its state institutions the state now owns 10,415.48 acres of land. The board does not expect to buy any additional land in the next two years. The stone quarry in Lyon county where prisoners from Anamosa will be employed, is to be opened-up, according to the hoard's plans. This will require \$100,000 for a stone crushing plant and \$55,000 for a railroad track. The board believes it will make money on this quarry, however. The board asks \$100,000 to establish a new industry at Fort Madison when the final convict labor contract expires next November. The chair factory at Fort Madison, which has been installed in the last two years, will employ from 200 to 300 men. More men will be used on road work than in the past.

At the state hospifal for epileptics at Woodward thirteen buildings have been completed. Nine new buildings and a green house are to be erected in the next two years. Four additional buildings are asked for the woman's reformatory at Rockweil City.

TROUBLED WITH

Face, Hands and Head Full. Itching and Burning. Hair Fell Out. In 2 Months Completely

HEALED BY CUTICURA SOAP AND OINTMENT

"I was troubled with little red pimples. My face, hands, and head were full of them and a little on my body.

The pimples would get white on top and then break open and a clear white matter would run out. This would cause so much itching and burning that I sometimes thought I would turn crazy. My hair came out and became thin, lifeless, and dry. "A friend told me about Cuticura Soap and Ointment. In two months I was completely healed."
