Dealings Characterized By Riot of Speculation in Coppers.

NEW BETHLEHEM MARK

New York, Nov. 18.—Dalings instocks oday were characterized by a riot of specilation in coppers, the principal issues taining 2 to 6 points and in several instances considerably more. The advance was attended by circumstantial rumors of impending mergers or consolidations.

New high levels were reached by Anaconda. Utah, Kennecott, Inspiration, Chino, direceme Cananca, Mismi and Nevada coppera, as well as Chile, which rose more than 4 points, with almost 11 for the 7 per cent bonds. Granby Mining rose 12½ points and the 6 per cent bonds 6 points.

The sension was noteworthy also for new maximums registered by Bethlehem Steel, at 190, and United States Steel, at 190, and United States Steel, at 1848, Ralls and similar stocks were obscured by the inquiry for speculative issues. Overnight development, such as the latest turn to events across the southern border, were reflected in the comparative beaviness of Mexican securities, notably the petrolouma. Total saies of stocks exceeded 1,600,000 shares.

of Mexican securities, course for total sales of stocks exceeded 1,000, 100 shares.

A moderate contraction of loans was shown in theactual condition of clearing shown hanks and reserves decreased by a most \$19,000,000, reducing excess reserves to about \$80,000,000, reducing excess reserves to about \$80,000,000, a contraction of more than \$44,000,00 in the last fortnight. Bonds were strong, but much of the trading was confined to convertible issues. Total sales, par value, \$2,540,000.

United States bonds were unchanged on call during the week.

Like the elephant, Eli Miguel, a thrifity and hard-working Spaniard, never forgot nor never gave up his search for the man who violated his friendship and decamped with the savings of a lifetime.

A more than three years' search ended in Chicago Friday with the arrest of Dusan Ristas on a charge of obtaining money under false pretenses. Ristas will be brought back to Omaha to stand trial. Requisition papers to bring Ristas back here were made out in County Attorney Magney's office and Detective George W. Allen of the South Side station has gone to the Windy City to take the prisoner into custody.

Three years ago last September Eli Miguel was a resident of Omaha. Ristas was his friend—he believed.

One day, according to Miguel, Ristas came to him and said that he had a chance to make big money. He wanted to buy a carload of Missouri mules at Jophin and ship them to Chicago. But he only had about \$500, and to put across the deal would require the outlay of another \$2,500. Would Miguel loan him the money? Miguel said that he did—and that was the last he saw of Ristas.

The pursuit of Ristas became a manguer moved to cantago. Status was the last he saw ship friends the chart western metropolis they were living less than two blocks away from each other.

It's a small world after all, thought Miguel, when he chanced to run onto his quarry one day. But this time he didn't confront him. Miguel just hurried to a railroad station and boarded the first train for Omaha. The country attorney issued the warrant for the crime alleged to have been committed in 1913 and Miguel rested. The requisition papers was the final chapter in the chase.

Mothers will in the future be able to procure two nipples per child under one year of age, on presenting birth certificates to prove the age of the children, and then will be able to buy new nipples by turning in the old ones. A maximum price of 35 pfennigs per nipple has been set for all that are made in Germany.

Sugar Supply of

(Correspondence of The Associated Press.)
Stockholm, Sweden, Nov. 10.—
After November I no sugar is sold in Sweden except upon presentation of a sugar card. A stock-taking throughout the kingdom has shown that some method of controlling the consumption is unavoidable, and the card system, patterned on Germany's methods of regulation, was decided on. One kilogram (2.2 pounds), will be allowed per month per capita, except for December, when two kilograms will be availbale.

The sugar shortage has been marked for some months, and has lately assumed serious proportions. It did not select for instance, the horizon, colored uniform colors. It did not select, for instance, the horizon, colored uniform adopted more than a lately assumed serious proportions, the been hoped and expected, however, that this fall's sugar beet harmyest would make any state regulation of consumption unnecessary, but it has now been found that, including this year's production, there is avail-

able only about thirteen kilograms per person from now until November 1, 1917.

A further result of the sugar shortage may be a forced reduction in the production of arrac punch, the so-called national drink of the Swedes. Fully a million kilograms are used for punch-making yearly. The drinker who consumes three half bottles weekly—a rather moderate consumption for a punch-drinker—consumes therein as much sugar as his sugar card entitles him. sugar as his sugar card entitles him to buy at the grocer's.
