PLAN Our business is retailing greating means and some bardware, buy-ing in large quantities, usually car loads of the best sellers, and so getting the lowest prices. SELLING for strictly cash, absolutely no eredit, no losses on secounts. DELIVERY EXPENSE reduced to a minimum. A charge of Secie made un-

less orders are over \$5.09. OUR PRICES, as a result, are much the lowest, which in turn increases the yolume of business. The increasing volume naturally gains us further advantages

in buying. SAFETY What is safer than a strictly cash business steadily growing in volume We deal in the necessaries of life, which people must have every day, good times or bad. The "high cast of living" will undoubtedly drive many new customers to our stores this while to get the benefit of our lower prices. The net assats of the business exceed the preferred stock issued more than 5 to 1. As this Preferred Stock is a first lien on the net assets, it is an unusually rafe investment.

safe investment. It is na-assessible and tax free in Nebraska. We do not wish to sell over \$20,000 of this stock at present, so investigate now. Don't put it off.
