LOYD GEORGE MAY BECOME PREMIER

Manchester Guardian and London Express Hint at Shakeup in British Cabinet.

CRISIS SEEMS TO BE NEAR

London, Dec. 2.—Cabinet changes involving the resignation of Premier Asquith are predicted today by the Manchester Guardian. The paper says: "Rumors are going around in the lobby of imminent changes, the current rumor being that Bonar Law may replace Asquith for the time being, but that a final settlement would be Lloyd George as prime minister."

The Guardian concludes that the coalition government has not the collective prestige to resist the attacks being made upon it and that the House of Commons has reached the mood in which it is ready to create another ministry.

The Express says that a political crisis has suddenly arisen and that the coalition government is likely to go; that a new war council, probably consisting of Premier Asquith, Lloyd George, Bonar Law, Arthur Balfour, Sir Edward Carson, will be appointed.

SUGAR BEETS BRING HIGHEST PRICE EVER

Next Year's Contract at Grand Island Provide for Six Dollars Ton Flat.

BIG SEASON IS EXPECTED

Grand Island, Neb., Dec. 2.—(Special Telegram.)—Six dollars per ton flat for beets, with \$1 in addition for beets that are siled in the 1917 contract of the American Beet Sugar company, announced today by the company. The contracts are already in print. This is the highest price ever paid for beets and the company expects to have no difficulty in getting all of the acreage it wants in shorter time than ever before.

The announcement is also taken to mean that with the shortage in the production of sugar in European countries, the assurance of no change in the tariff and the monopoly of the sea limiting imports, there will be no appreciable decrease in the sugar market before the 1917 crop is on the market.

It has become known, at the same time, that all beet growers this year are receiving a practical bonus of 50 cents per ton over the amount called for in their contracts, the sum total for the Grand Island factory being about \$25,000.

The first price paid farmers for beets was \$4, then came a sliding scale, then \$5 flat, which has been the highest hitherto. The local factory is in full swing and will continue night and day and Sundays until about January 10. It is grinding up about 430 tons per day.
