Beauty

There is an ad saying that beauty is only skin deep, but that is far from the truth. Beauty is founded on good health—without that there is no real beauty. You can cover up a muddy or sallow complexion with face powder, but it will not be beautiful. A homely woman in good health is usually more interesting and more charming than a bilious dyspeptic beauty. Constipation and a sluggish liver impair good looks. If you are troubled in this way take Chamberlain's Tablets and you will soon be looking better and feeling better.—Advertisement.

This is the Idea of Probation Officer Miller as to the South Side Affair.

Barnes is at the South Side hospital in a precarious condition, a bullet lodged in his spine and physicians holding out but scant hopes for his recovery. He was shot by his chum, Ben Bell, 4921 South Twenty-sixth street, at whose home he was spending the night.
