PLACE EMBARGOES

Two Will Not Receive Freight for Shipment East of Chicago-U. P. Also in Line.

LIVE STOCK AN EXCEPTION

The freight embargo is an original product of the eastern roads, but now it has traveled westward, reaching Omaha, where it has been placed by three of the leading lines having terminals here.

Effective instanter, the Northwest ern and the Milwankee have placed embargoes on the shipment of all commodities, with the exception of live stock, dressed meats and perishable goods, to points east of Chicago No date for the lifting of the em-bargo is set, the understanding be-ing that it will continue so long as congestion exists at terminal points in the east. When this relief is to come is uncertain, railroad men as serting that sidings and railroad yards practically all the way from Chicago east to the Atlantic coast are filled with cars loaded for domestic and export trade.

Embargo Is Broad. The embargo laid by the North-western and Milwaukee is broad in its scope, extending to lines with which the companies have formerly been doing business. For instance, at junction points cars coming in off other lines and for transportation cast will not be accepted so long as the embargo is in effect. However, all consignments to local points between

consignments to local points between Omaha and Chicago will be received and forwarded as usual, but the ban is on everything else.

The Union Pacific has come to the front with a freight embargo and has given all other roads notice of the placing of the same. This embargo becomes effective Desember 26 and is secomes effective December 26 and is ooked to continue up to and includ-

ing January 7.

The scope of the Union Pacific embargo is substantially the same as the one laid on freight shipments by the Northwestern and Milwaukee, only that it is to the west, instead of to the east. As a result the Union Pa-cific will not accept freight for competitive points west of Omaha. Like the embargo by the croads, that of the Union Pacific

Like the embargo by the other roads, that of the Union Pacific permits the handling of through shipments of live stock, meats or perishable freight.

The other railroads—the Burlington, Rock Island, Great Western, Illinois Central, Wabash and Missouri Pacific—are looking for the laying of substraces at any time on shipments. embargoes at any time on shipments out of Omaha, the understanding of railroad officials being that this is a move upon the part of the heads of the transportation lines to permit of an opportunity of cleaning up the congestion in the east and get business head on a normal hasis.

congestion in the east and get ousness back on a normal basis.

All of the railroad officials assert
that the lines they represent are losing large sums of money by not receiving shipments off other roads, but
add that if something of the kind is
not done shorely the situation is
likely to become so complicated in likely to become so complicated in the east that it will require months of time to straighten it out.

Grocer Throws Up His Hands, but He Has a Gun in One

James Spellman, grocer at 1102
North Seventeenth street, was equal to the occasion when three strangers Monday evening invited him to hold his hands over his head while they robbed the store.

The trio entered at 9 p. m. and one asked for a sack of tobacco. While the grocer was making change at the cash register one of the men ordered him to turn around and hold up his hands. Spellman quickly reached for his revolver, which he started to unload. The trio then rushed for the door, one firing two shots as a part-
