Omaha, Dec. 23.—To the Editor of The Bee: I wish to express to you as editor of The Bee my sincere appreciation for the many courtesies and method of co-operation which you have extended to me during the last year and a half as superintendent of recreation.

There are two ways in which to establish a new work in any city. One is to create favorable comment and desire by the people in good active work accomplished.

I am very thankful, indeed, for what you have done in this matter, not only personally, but because I represent the movement as such and it is the establishment of the recreation system under competent supervision that has interested you from the first because it has interested the people.
