WEEK MORE UNTIL LAWMAKERS MEET

Little Rush So Far to Secure Office at Thirty-Fifth Session of Legislature.

OLD-TIMERS PREFERRED

Loncoln, Dec. 26.-(Special.)-Onweek from today at noon the thirty fifth session of the Nebraska legislature is scheduled to begin operations, but so far, there has been few candidates for the several legislative

It is generally conceded that George Jackson, speaker of the last house, will be a candidate, he will get the place, unless some candidate shows strength greater than at pres-ent. C. W. Trumble of Sherman county is the only one mentioned for the place in opposition to Speaker the place in opposition to Speaker Jackson and when he gets on the ground may develop strength sufficient to make it interesting for the Nuckolls county stateman. Trumble was one of the live wires of the last session, has had experience, in former sessions and has a whole host of friends, many of whom will be back this session. If an opinion prevails to pass things around Trumble stands in a good position to land.

Potts for Clerk.

For the chief clerkship George W.

For the chief clerkship George W. Potts, who so admirably held down the job at the last session, is again a candidate, so it is understood, and J. W. Jones, former insurance examiner, is said to be getting ready to shy his castor in the ring and take chances with Mr. Potts. Positions for first and second assistant clerk are still open, though it is, believed that "Triple E" Ridgway of Omaha, who has been one of the assistants for several sessions is likely to try out for one of the places.

Kohl for President.

In the senate there appears to be little rivalry so far for the pluma. Senator Phil Kohl of Wayne, president pro tem of the last senate, will again be a candidate for that place and no others, so far, have announced themselves, although there is a rumor that Beal of Custer may get into the running as soon as he lands in the capital city. It is also rumored that Senator Ed Howell of Douglas is growing a boom for the presidency of the upper body.

For secretary of the senate E. A. Walrath appears to be the only man mentioned so far for that job. "Genebias had so much experience along that line and gave such universal satisfaction at the last session that it is likely he will be named without opposition as nine of the democratic nicembers of the last session will occupy chairs in the coming session and, knowing his ability, will probably not want to take chances on an unknown.

When You Have a Cold.

It is when you have a severe cold that you appreciate the good qualities of Chamberlain's Cough Remedy.

Mrs. Frank Crocker, Pana, Ill., writes:

"Our 5-year-old son, Paul, caught a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Lough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."

new work will be to bring the big advertiser into touch with the country newspaper.

For this work Mr. Huse is specially fitted, having made his own paper a remarkable success in the national advertising field. He is a son of Nebraska, a graduate of the University of Nebraska, and the third in line of successful country publishers in the state. His grandfather, William Huse, was the editor of the Northeast Nebraska Journal, published at Ponca in 1871, the first newspaper in that section of the state. His father, William N. Huse, took hold of the Norfolk News back in the 80s and made it a successful paper. Norris Huse worked with his tather as a boy, and as a man after leaving the university, and when William N. Huse died in January, 1913, his two sons, Norris and Eugene, were well equipped to carry on the great business, which has been more than successful under their direction.

Norris Huse looked after the newspaper end of the business and Eugene had charge of the manufacturing. Now the establishment will be under full control of Eugene, although his older brother will retain his interest in the business.

A committee headed by Dean Stout of the engineering college, and generally hostile to the proposed department, was named to investigate and report its findings. The message said that the Gresham had started out to search for the steamer Maryland, which sent out a distress call early today, when she discovered the plight of the schooners. Nothing further, however, had been heard from the Mrayland.

New York, Dec. 26.—The coastwise steamship City of Savannah and the coast guard cutter Acushnet today hurried to the assistance of the steamship Maryland, which shortly after midnight sent out messages stating that it was sinking and asking immediate aid. The Maryland gave its position as latitude, 39, longitude 67, or about 380 miles east of Sandy Hook.

The City of Savannah was 160 miles south of the position given by the Maryland when the call for aid was received. The Acushnet was at Woods Hole, Mass., when ordered to proceed to the assistance of the Maryland. The coast guard cutter Mohawk, which left Sandy Hook when the first appeal for help was received was later ordered to return in view of the proximity to the Maryland of other vessels enroute to its aid.

Since the first call for help, which was picked up by wireless stations in this city and at the naval station at Newport, R. I., no further word was received from the Maryland and it was believed that the vessel's wireless had been put out of commission owing to the flooding of the engine room and the consequent lack of power.
