

BOURBONS PLOT TO DROP FREE LIST

With Visions of Big Deficit Demos Plan to Put Tariff On About Everything.

JUST MUST RAISE MONEY

Washington, Jan. 3.—The problem of raising additional revenue for the government to avoid the threatened deficit at the end of the next fiscal year has assumed such proportions that administration leaders in congress are reviewing the entire free list to consider the possibility of placing tariff duties on other commodities than coffee, rubber and wool, and increasing the present tariff on sugar.

Revenues to be derived from these four sources will fall far below the sum needed, unless there is a radical revision upward of the tariff duties originally proposed on them. Estimates placed before the ways and means committee by Treasury department experts are said to show that under a maximum tariff of 5 per cent, these four commodities would yield not more than \$50,000,000 annually and probably not more than \$45,000,000.

Huge Sum Must Be Raised. Secretary McAdoo estimated that approximately \$195,000,000 will have to be raised by taxation in addition to sums to be derived from proposed bond issues.

The chief remaining articles on the free list, not eliminated by the policy of non-disturbance of vital industries as the iron and steel trade, include cocoa, drugs, undressed furs and skins, meats, oils, potatoes, silk and tea. Other articles on the free list understood to have been virtually eliminated from consideration are copper and iron ore, leather and steel products such as rails. A host of minor articles also are on the free list and on these estimates have been furnished the committee, showing the amount of revenue which small tariff duties would yield.

Attention, Tobacco Users! Additional sources of revenue under consideration by the committee include articles on which the internal revenue bureau collects an excise tax, notably tobacco. Tobacco already is under heavy excise and tariff taxes, but some officials feel that considerably more revenue could be raised by imposing additional taxes.

Indications were that President Wilson will leave the problem to the ways and means committee and will not find it necessary to make recommendations to congress to cover the situation.

Estimates as to the revenue to be derived by placing tariff duties on virtually everything on the free list are in the committee's hands. From these estimates the committee hopes to evolve a revenue bill which may include a number of the chief articles imported and omit many others.

Free Text Book Bill Offered in the South Dakota Senate. Pierre, S. D., Jan. 3.—The South Dakota legislature this afternoon took its first legislative step when Representative Swanson introduced into the house a bill providing for the recodification of the laws of the state and Senator Amsden presented a bill in the senate providing for free textbooks for the children of the state. Other bills introduced in the house included an appropriation for the purchase of a farm at the State School for Deaf at Sioux Falls and one to increase the state aid to public schools.

It is expected that most of the committees will be announced not later than the Friday session.

The special feature of today was the afternoon tea at the home of Governor Byrne, to which the visiting women of the city were invited. Mrs. Byrne being assisted by Mrs. Norbeck, Mrs. J. H. Brown, Mrs. Evert, Mrs. Karcher, Mrs. Hoyt and Miss Byrne.

This evening the inaugural ball was held at the city auditorium, the grand march being led by Senator Jaynes of Hughes county and Mrs. Norbeck and Governor Norbeck and Mrs. Jaynes.

Golden Wedding of Mr. and Mrs. J. H. Brown. Julesburg, Colo., Jan. 3.—(Special.)—The children, grandchildren and friends of Mr. and Mrs. J. H. Brown of Chappell, Neb., met at the home of their daughter, Mrs. Glenn La Selle, at Julesburg, Colo., New Year's day, to celebrate the fiftieth anniversary of the wedding of Mr. and Mrs. J. H. Brown. Mr. and Mrs. Brown were married in Illinois, but for the last thirty years have lived in Deuel county, Nebraska.

To Cure a Cold in One Day. Take LAXATIVE. Druggists refund money if it fails to cure. H. W. GROVER'S signature is on each box. 35c.—Advertisement.

Legislative Notes. (From a Staff Correspondent.) Lincoln, Jan. 3.—(Special.)—A resolution was adopted unanimously in the house, introduced by Murray of Cass, requesting the state railway commission to report to the house within ten days, "When the railroad companies will furnish cars sufficient to move grain now in elevators and in farmers' granaries and whether the railroad companies will agree hereafter to keep the state at all times sufficient box-cars to move grain within a reasonable time and are ordered."

Representative Jerry Howard turned down this morning in his first speech. He attacked the government for attempting to but in and interfere with the business of the state, the issue when Representative Hoffmeister announced that the Lincoln postmaster had instituted a substitution in representative hall. Jerry denounced the action as against the interests of labor and deprived a poor man of a chance to earn a few dollars as postmaster of the town.

A delegation from Chambers today visited the senate, interested in the introduction of a bill to promote more railroad building in the state. They are primarily interested in the extension of the Burlington from Ericson to Chambers and desire the passage of an act which will allow a railroad built after 1916 to run any kind of a train service it may see fit.

Rep. James Huff of Omaha, chairman of the senate, is the father of Lee Huff, a prominent automobile man of Omaha. He is an old soldier and has been chaplain of the Nebraska penitentiary.

Adjutant General Phil Hall, who vacated his quarters at the capitol to make room for the legislative executive bureau during the three months' session, engaged new quarters and moved out part and parcel in three hours Wednesday morning. During the session the adjutant general's administrative offices will be at 1217 N. street.

Asks Grandson Pray As He Takes Poison

Mrs. Earl Bates, wife of a taxi driver, 111 North Twentieth street, entered the bedroom of her father, Gus Clausen, 40, who lives at her home, last night, to find that he had taken carboric acid. Beside him, Earl, her 4-year-old son, was on his knees, praying for his grandfather's soul.

"Grandpa said he was going to die sure," said the boy to his mother, "and he told me to pray to God for his soul, because God might listen to me. He said he didn't think God would do much for him."

Clausen was revived by Police Surgeon Connelly and will live.

Brotherhood Chief Charges Roads 'Cook' Expense Statistics

Cleveland, O., Jan. 3.—W. G. Lee, chief of the Brotherhood of Railroad Trainmen, issued a statement here today charging that the railroads of the country are permitting delays to trains and overtime which would not ordinarily be permitted in order to prove the enormous expense that would follow obedience to the Adamson law. The statement asked whether if the supreme court declares the law either constitutional or invalid the brotherhoods should continue to await the eight-hour day.

Mr. Lee denied a report published today that a sealed statement putting the Adamson law situation up to the men had been sent out by the chiefs of the four brotherhoods.

It was learned from an authoritative source that the general chairman of the four brotherhoods will hold a meeting in Chicago January 11 to consider the situation.

Unidentified Man Cannot Remember Name or Home. Amnesia, a mental disease which robs its victims of power to remember, has furnished the Omaha police with another mystery in the person of a middle-aged man, who lies unidentified in St. Joseph hospital. The man is conscious, but can't remember his name or any event in his life.

Patrolman James McDonald found him in a daze in the hallway of the city jail. After futile questioning the man's clothing was searched. But no marks of identification were found. The victim was plainly dressed and had the appearance of a manual laborer.

Good Health Makes a Happy Home. "Every Picture Tells a Story"

Good health makes housework easy. Bad health takes all happiness out of it. Hosts of good women and good mothers drag along in daily misery, back aching, worried, "blue," tired and worn, because they don't know what ails them or what to do for it.

These same troubles come with weak kidneys, and, if the kidney action is distressingly disordered, there should be no doubt that the kidneys need help.

Get a box of Doan's Kidney Pills. They are safe and reliable. They have helped thousands of discouraged women.

An Omaha Case: Mrs. Chas. Moolberry, 401 N. Twenty-fifth St., says: "After an attack of La Grippe I came down with kidney trouble and it made me miserable. My back hurt me so that any exertion or turn or twist of my body pained me. All work was hard and at night I couldn't get my proper rest. The kidney secretions bothered me a whole lot. I tried different medicines, but found only temporary relief. Finally I used three boxes of Doan's Kidney Pills and they made a cure that has been permanent."

Cocoon Oil Fine For Washing Hair. If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten the hair with water and rub it in. In one or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly, and it leaves it fine and silky, bright, fluffy, and easy to manage.

You can get mulified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

WOULDN'T you like to be sure that your tenants would be treated courteously and tactfully; that your rents would be collected promptly; that taxes would be paid when due and repairs attended to when needed?

This company manages your property in this manner.

LOBECK TO SUBMIT TO AN OPERATION

Second District Congressman Will Undergo Treatment for an Abscess.

NOT THOUGHT DANGEROUS

(From a Staff Correspondent.) Washington, Jan. 3.—(Special Telegram.)—Congressman Lobeck will undergo an operation tomorrow for an abscess which has been forming for some time. Mrs. Lobeck, who arrived this morning, acquiesced in the operation, after the attending physician, Dr. Richard Kingsman, had outlined its necessity.

Mr. Lobeck was removed from his apartments in the Winston hotel to the Homeopathic hospital, where the operation will be performed. While the operation is by no means a serious one, still the age of Mr. Lobeck makes it rather delicate. The congressman's physical condition, according to Dr. Kingsman, is excellent to bear the shock of the operation.

Urge Passage of Measure For Investigation of Packers. (From a Staff Correspondent.) Washington, Jan. 3.—(Special Telegram.)—Congressman Stephens of Nebraska, together with Congressman Doolittle, Borland, Kent and Garner, called on the president by appointment today to urge upon his attention the necessity of passing the Borland resolution at this short session, authorizing the investigation of packers and the food situation in general.

Mr. Stephens made an extended speech on this subject last year and was one of the originators of the movement, which has extended over the whole country. He believes the high cost of meat is due almost entirely to the control of the market by the four big packers, which has made cattle feeding so hazardous that there is a constant decrease in the supply of meat animals on the market. Mr. Stephens is a feeder of cattle.

Carranza Agent at New York City is Arrested. New York, Jan. 3.—Juan T. Burns, Carranza consul general here, was today arrested, charged with being concerned in a conspiracy to ship arms and ammunition to Vera Cruz in violation of President Wilson's embargo proclamation of October, 1915.

Trial of Alleged Bomb Planter is Begun at 'Frisco

San Francisco, Jan. 3.—Thomas J. Mooney, alleged ring leader of five persons indicted for murder in connection with a bomb explosion here July 22 during a preparedness parade, when ten persons were killed and forty injured, was placed on trial today. Warren K. Billings, charged with having been the bomb planter, already has been convicted and is under sentence of life imprisonment.

Mooney's chief of counsel is W. Bourke Cockran, a New York attorney, who volunteered his services. The defense will be financed by the International Workers' Defense league, of which Robert Minor, a New York cartoonist, is treasurer. Minor has been several months.

Mrs. Rena Mooney, wife of the defendant; Edward Nolan, a machinist, and Israel Warnberg, automobile driver, also are defendants and will be tried later. Mooney was an organizer for the Amalgamated Association of Street Railway Employees.

The National Capital. (From a Staff Correspondent.) Lincoln, Jan. 3.—(Special Telegram.)—Prohibition forces appear to be unable to agree upon the kind of a bill to bring before the state legislature. The committee which prepared the one published last Sunday has been censured, so it is said, because of the radical measure which they drew up. Another group of dries, headed by A. G. Wolfenbarger, will prepare another bill for the consideration of the legislature.

Mr. Wolfenbarger has selected as his assistants such men as C. M. Skiles, Mayor Charles Bryan, John W. Dryden, I. D. Evans, J. J. Thomas and other well known attorneys. These, so it is said, do not like the radical provisions of the "bone dry" bill prepared by the dry federation, especially that which permits drug stores to handle liquors of any kind even in infinitesimal quantities, believing that no permits should be granted at all.

Work will begin on the second bill immediately in the hope that it may be considered before the first bill receives consideration. In fact, unless the dry federation bill eliminates some of its provisions, it may not get very far.

Persistence is the Cardinal Virtue in Advertising.
