

Says Hot Water Each Day Keeps the Doctor Away

Drink glass of hot water before breakfast to wash out the poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening, and purifying the entire alimentary canal, before putting more food into the stomach.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Advertisement.

RESOLVE TO ESCAPE THE CLUTCHES OF GRIPPE

Many Physicians Recommend Duffy's Pure Malt Whiskey as a Reliable Remedy and Preventive.

At this season of the year, when exposure to sudden and severe changes of weather is frequent, grip and pneumonia often attack the system quickly and relentlessly, especially if you are run down from worry, overwork or exposure.

For more than half a century Duffy's Pure Malt Whiskey has been recognized as a beneficial remedy in the prevention of coughs, colds, grip, pneumonia and diseases of the respiratory organs.

More than 1,000 baskets of food-stuffs for Christmas were distributed to deserving poor persons during the Christmas season, by the various organizations in the Associated Charities.

It was reported that Captain Peyton had distributed 300 baskets, Miss McGee, 25; Major McCormick, 300; Mrs. Doane through various organizations 300, besides 800 baskets handled by the "Good Fellows" organization.

An effort will be made to centralize the work more next year. It is the hope of the committee that the work will be handled in one office, although card indexes are even now kept in all the offices and the co-operation is such that almost no duplication occurs.

"Much of the charity done at Christmas time," said Rabbi Cohn, "was of such a character that these people get provisions for weeks to come. The charity did not stop at merely giving Christmas baskets for the day. In some cases coal was furnished, and some places where the necessity was great two and three tons of coal were put in for a family."
