Daniels Appeals to Senators To Defeat Oil Compromise

Washington, Jan. 6.—Secretary Dariels appealed today to Chairman Tillman of the senate naval committee to defeat the compromise legislation to give claimants leases on the navy petroleum fuel reserve in California and Wyoming. He also sent a statement of the navy's objections to Senator Pittmann, chairman of a subcommittee which framed the compromise. The Department of Justice holds many of the claims are fraudulent and the navy maintains the

iolds many of the claims are fraudulent and the navy maintains the safety of the nation will be imperiled by the loss of fuel.

"Every capital ship and every cestroyer is now designed to burn oil, and oil only," Secretary Daniels wrote Senator Tillman, "and the leatures of the design are such that it is impossible to return to the use of coal. Under the circumstances the problem of securing a supply of oil for our fleet is one of the greatest national importance. The speed of our destroyers and battle cruisers would be impossible of attainment with angething but oil, and if this supply were thing but oil, and if this supply were seriously threatened, as it is in the pending bill, we should be brought face to face with the consideration of the abandonment altogether of oil a

the abandonment altogether of oil as fuel.

"The enormous power required to attain the speed contemplated in our battle cruisers calls for an expenditure of oil immensely greater than anything that had been dreamed of, and it is, therefore, of the highest importance to the nation that the oil in these lands be reserved for the use of the navy. We do not want the value of the oil, but we want to preserve the oil so that we may be assured of a supply for our own ships, and if we are to be placed in such a position of inferiority, as we would be if forced to abandon the use of oil, the condition would be one of national humiliation."

To Senator Pittmann Secretary Daniels wrote: "I am advised that many of the

claimants have not rights enforcible in any court of law or equity, and they maintained possessions in most cases by force or intimidation. These cases by force or intimidation. These men are now asking congress to give them, at the cost of naval efficiency (which means at the cost of the na-tional security), that to which they have no legal or equitable claim, and it is my understanding that this pro-posed remedial legislation is calcu-lated to accomplish that result."
