

If Back Hurts Begin on Salts

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

HOW GOOD THAT MUSTEROLE FEELS!

It Gets to That Sore Spot Like Magic

A-ah! That's delicious relief for those sore muscles, those stiff joints, that lame back.

Musterole is a clean, white ointment, made with the oil of mustard and other home simples.

It does the work of the old-fashioned mustard plaster, minus the blister!

You simply rub Musterole on the spot where the pain is—rub it on briskly—and usually the pain is gone.

No mess, no bother. Just comforting, soothing relief—first a gentle glow, then a delightful sense of coolness. And best of all, no blisters like the old-fashioned mustard plaster used to make.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites and colds of the chest (it often prevents pneumonia).

County Attorney Orders Probe of Mrs. Talley's Death

In order to determine what caused the death of Mrs. J. A. L. Talley, 3110 Hamilton street, who died suddenly in the Brandeis building Tuesday noon, County Attorney Magney has ordered a post mortem examination of the body.

Mrs. Talley fell in a faint in the Brandeis store and was removed to the office of Dr. Medders, who says that when she was brought into his office her pulse was near normal but that despite this she died four minutes later.

He said death was not due to heart disease and could have been caused by poison or drugs. It was on this statement that the county attorney ordered a post mortem examination.

Mrs. Talley was 50 years of age. Her husband, who is a salesman, was out in the state at the time of his wife's death but he hurried to Omaha. The body is at the N. P. Swanson undertaking establishment.

Sent to Jail for Carrying Concealed Weapons

Ads in The Bee of Forty Years Ago Show of What the Railroads Boasted Then.

OMAHA PROUD OF HOTEL

By A. R. GROH. "Through to Chicago without change of cars," says an advertisement of the Chicago, Burlington & Quincy railroad in The Bee of one day in January, 1877, forty years ago.

"Celebrated Westinghouse Air Brakes on our express trains," cries an advertisement of the Chicago, Rock Island & Pacific railroad in the same paper.

"Only direct route, being the shortest and first completed, between Omaha and Chicago," says the advertisement of the Chicago & Northwestern railway, and adds the further inducement that its "trains are equipped with Miller's Safety Platform and Coupler."

They refrain from stating their running time between Omaha and Chicago. But here is an ad of the St. Paul & Sioux City and Sioux City & Pacific railroads which proudly announces that the run from Omaha to St. Paul is made in eighteen hours, "ten hours ahead of any other road." The schedule today from Omaha to St. Paul is about eleven hours.

Fast Train Then.

Something of the speed of travel in those days is shown by an advertisement of the Pennsylvania lines in The Bee giving the schedule from Chicago to New York. This road's "crack" train left Chicago at 9 a. m. and was due in New York at 7:35 p. m. the next day, thirty-five hours and thirty-five minutes. The fastest time today is twenty hours.

There were seven trains coming in

Sage Tea Turns Gray Hair Dark

It's Grandmother's recipe to bring color, lustre and youthfulness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no long time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 1997, Marcellus Avenue, St. Louis, Mo., I will send you this notice and show it to any other who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Adv.

Harry P. Deuel's name was signed to the advertisement of the "C. & R. L. P." and "C. B. & Q." advertisements as Omaha ticket agent. J. O. Phillippi was general Omaha agent for the latter road.

Several other roads set forth their advantages in the advertisements. Little roads that were later absorbed by the growing systems.

The Sidney Short Line stated that it was the shortest line to the Black Hills, and that it used a new sixty-one-span truss bridge across the Platte river.

And here is the ad of the Central Railroad of Iowa. What did the Central Railroad of Iowa have to offer the traveling public? Well, sir, it had "Track Built of Steel Rails," as the advertisement says.

And while we are talking about the traveling public, observe the luxury which Omaha offered in the way

of hotels. Here is the advertisement of the "Grand Central Hotel, Largest and Best Hotel between Chicago and San Francisco. Opened new, September 30, 1873, George Thrall, Prop."
