Dealers and Agents Selling the Theft-Proof Perry Auto Lock Are Reporting Excellent Success

The national advertising campaign in all of the automobile trade papers and journals, in the Saturday Evening Post, daily newspapers, the billboards scattered throughout the United States and by means of the moving picture reels are of great help to those who are fortunate enough to have an agency for this wonderful device.

As you have seen advertised, a "Perry-locked" car cannot be towed away and it is impossible to drive it away. Cars locked with ignition, gear or gasoline locks can be towed away, even quicker than their owner can start the engine and drive away. Of the numerous locks on the market the "Perry" is the only one which, by its use, gains for the automobile owner a 15% cash reduction in his fire and theft insurance policy. The two largest automobile insurance companies in the world are giving this reduction.

No Bonus is Charged For Exclusive Sales Rights

The locks are priced so as to give the agent a liberal commission and that he may be able to sell to the public at an equitable price.

Write, wire or call the Auto Device Sales Co., 884-6-8 Brandeis Bldg., Omaha, Neb., for agency proposition, or the Auto Device Sales Co., Des Moines, Ia., for Iowa territory.

200 Per Cent Growth

We start 1917 with a production three times as great as that of last January.

The rapidly increasing demand for the Cole Eight would allow an even larger expansion.

But we prefer to grow with great care. It tends to a sounder stability.

We prefer to increase by logical and reasonable steps rather than by too spectacular strides.

We consider the ultimate consumer first. Therefore we always take the utmost care to protect Cole Eight purchasers by painstaking, unhurried workmanship and the use of the best materials it is possible to obtain.

We are building for the future along the lines of established permanence.

Our long experience and our extensive facilities are devoted entirely to one fixed purpose—to one chassis—America's foremost Eight.

We aim to obtain and maintain the highest standard in the manufacture of fine motor cars.

This constant, diligent and persistent effort towards bettering the best has placed us in a very advanced position in the motor car industry.

As a result we start January shipping 200 per cent more cars than at this period last year.
