Rancher is Ordered to Keep Off Forest Reserve

Rapid City, S. D., Jan. 15.—Judge Elliott has issued an important order of the court restraining the further illegal use of lands near Pactola, a short distance west of here.

It appears that Arthur Harvey, who owns a ranch at Pactola, had enclosed and used for his own advantage certain national forest lands without having obtained proper authority.

The forest service had expressed its willingness to legalize the use of this land by the issuance of a special use permit, contingent upon the payment of the regulation annual fee for such permits.

Arthur Harvey, however, apparently considered such compliance on his part unnecessary and refused to conform to the law.

Consequently United States Attorney Stewart investigated the case, with the result that Judge Elliott has issued a restraining order against Harvey whereby he is ordered forthwith to remove the illegal enclosures and also cease any trespass whatsoever on the land in question.
