PRESS IS BEST ALLY OF RELIGION

Printed Page Has Many Advantages Over Spoken Sermon, Says M. V. Higbee.

CITES PROOF FROM EGYPT

"Sixty daily papers are published in Cairo, Egypt, a city of 800,000 people," said Rev. M. V. Higbee, in the course of an address before the Omaha Ministerial union on "Africa for Christ or Mohammed?"

The startling statement was questioned in the discussion which followed the address. When cities like Omaha, with 200,000 people, have only half a dozen daily papers, it was contended that Cairo surely could not have sixty, especially as Omaha is inhabited by well educated people and Cairo largely by brown men of little or no education.

But Dr. Higbee proved his statement. He had it direct from Dr. Zwemer, a Christian missionary for years in Cairo.

"Thirty-nine of the daily papers in Cairo are published in the Arabic language," said Dr. Higbee. "And all of these are Mohammedan in their influence. Many of the other twenty-one dailies also are Mohammedan.

Spreading Faith.

"In the year 1909 the Egyptian mails handled 25,169,000 copies of these dailies. Two and a half million copies went out of Egypt to other Mohammedan countries.

"There are, in Cairo also, eleven Moslem magazines devoted to the spread of that religion.

"In South Africa we find the same activity on the part of the Mohammedans to spread their religion and they are making converts in large numbers. Not are these alone from the natives, but also from the half-castes and even among Europeans.

"Journalism is a most powerful means of spreading the gospel of Christ. The printed page has many advantages over the spoken sermon. We have already established the Nile

Christian press as an offset of the great flood of Moslem literature that is issuing from Egypt.

"We need to establish more such presses that will present the message of the gospel in the Arabic and Chinese languages."

Snow is General Over The State of Nebraska

Snow is general over Nebraska, South Dakota and Wyoming, the fall up to 8 o'clock Monday morning having ranged from one to two inches. At that hour it was still snowing. There was no wind reported and temperatures ranged from zero to 18 degrees above in Nebraska.

Out in Wyoming it was considerably colder, the temperatures there running from 4 to 12 degrees below. The coldest places in Wyoming were out in the mountain districts.

Nowhere was there enough snow to interfere with the movement of trains.

Want Missouri Pacific to Put Watchman on Boulevard

As City Commissioner Withnell was motoring to his office this morning he observed a man in a closed automobile narrowly escape death at the intersection of Boyd street and Florence boulevard. A locomotive grazed the rear of the imperiled machine and if the driver should have stopped, a serious accident would have resulted.

Arriving at the city hall, Mr. Withnell brought the matter to the attention of the city council committee of the whole, stating that the Missouri Pacific had been ordered several months ago to place a watchman at this dangerous intersection.

Tuesday morning the commissioner will offer to the council a resolution, notifying the Missouri Pacific that they will be held liable for any accidents at this crossing.

I wish to announce that I am now the only JUSTICE OF THE PEACE in Greater Omaha.

Wants Sons in Navy—Because his grandfather and father were in the Danish navy and he himself had been a sailor for Uncle Sam during the civil war, Andrew Nelson, aged 77, retired farmer of Benson, decided that his two sons, Andrew, Jr., 17, and Chris, 21, should also follow seafaring lives. Accordingly he marched them up to the recruiting station and both passed an excellent physical and mental grade. They will be sent to the Great Lakes train station at Chicago.

Sheridan County Farmers Showing What They Can Do

The 164 Sheridan county farmers who are enroute to Lincoln on a special train over the Northwestern are spending the day entertaining the people of the cities and towns along the route.

On their train the Sheridan county boosters are carrying an exhibit of the agricultural products of the county. At most of the towns this train is parked for an hour or so on a siding and opened to the inspection of visitors. It will reach Lincoln some time tonight and tomorrow the people aboard will participate in the meetings of Nebraska farmers, to be held at the state farm.

will be held during the week of February 26, but he explained that the sign would serve a good purpose for all attractions.

The council granted the Automobile association use of Fifteenth street, Howard street to the southward alley, for erection of a proposed temporary structure to accommodate the overflow of the Automobile show. Forty-two exhibitors have entered for this year's show, as against thirty-four last year.

Auto Men May Use Street For the Motor Car Show

Secretary Powell of the Omaha Automobile association convinced the city council committee of the whole that a permanent electric sign on the Auditorium would be a wise investment. An appropriation not to exceed \$800 was recommended.

The permanent letters of the sign will read "Auditorium," and the underline will indicate the current attraction.

Mr. Powell's particular interest was in the Automobile show which

SUFFERED 17 YEARS

Mrs. Nellie B. Vanaradell, of Mackville, Ky., reports an interesting case of how she had suffered from bowel trouble since childhood. She says: "I have had four operations for my trouble and there was nothing would do me any good or give me any relief but Theodor's Black-Draught. I suffered 17 years straight until I got to using your medicine." This long standing trouble was relieved, after other treatments failed, by the use of Theodor's Black-Draught, a purely vegetable preparation, made of ground roots and herbs. For over 70 years Black-Draught has helped people who have suffered from constipation, indigestion, biliousness, sick headache, etc. It may be just the medicine you need. Try it. Only one cent a dose—25 cents a package. Your druggist sells it.
