

Brief City News

Platinum Wedding Rings—Edholm. Have Root Print It—Now Beacon Press. Best Meal for the Money—Clairmont Inn. Dr. W. K. Foote, now at 1013 First National. Dr. J. P. Slater, Dentist, now at 1121 First Nat. Bank, New phone Tyler 736.

The Undertaking Business of the late Edward L. Dodder will be continued under the management of Fred E. Fero, who has been with the firm for the last eighteen years. (Signed) DELLA DODDER, Admrx.

Delegates to Municipality Meeting—Mayor Dahlman appointed Commissioners Butler, Hummel and Jardine as delegates to attend the annual meeting of the League of Nebraska Municipalities at Hastings on January 25 and 26.

John Utt is a Sick Man—John Utt, Rock Island general agent, who has been in poor health for more than a year, is now in southern California and reports from there are to the effect that, while he is not well, he is much better than when he went there.

Social Club Election—The Hatkwoop Social club held a meeting at the home of Louis Levy, 2718 Burt street, and the following officers were elected: Morris Levy, president; Ruben Brown, vice president; Robert Kuper, secretary; Louis Levy, treasurer; Sam Kadner, reporter.

Haskell is Sustained—Although he is no longer a Justice of the peace, a supreme court has decided that he had a right to that office while there. This was brought out when the supreme court sustained the action of the district court in ouster proceedings brought by Hieronymous Eisler.

B'nal Birth Program—A smoker and social program and the initiation of forty candidates for membership will entertain the William McKinley lodge, No. 521, International order of Royal Birch, at their meeting Thursday evening in the Lyric building. The Ladies' auxiliary will give a dance Tuesday, January 23, at the Hotel Itome.

Northwest Improvers to Meet—The Northwest Federation club will hold its regular monthly meeting with the Newport-Belvedere improvement club in the auditorium of the Belvidere school, thirty-sixth and Kansas avenue, Thursday evening, January 18, at 8 o'clock. There will be addresses made by prominent speakers and a full attendance is desired.

Fire Replaces Good—Sunderland. Plenty of Smokes—During last year in its transcendent business, the Union Pacific hauled 2,992,000 pounds of manufactured tobacco into San Francisco and it is estimated that as much more was taken in locally and on other transportation lines. The 2,992,000-pound consignment was for home consumption and did not include that carried through for export purposes.

Coal Supply Increases—The local coal supply was materially increased by the arrival of four trainloads over the Missouri Pacific from Kansas and Missouri. While no shortage is anticipated, all railroads centering here are hurrying coal along from the mines. The Burlington, Northwestern and Rock Island are bringing large quantities from Illinois and considerable quantities are coming in from Wyoming.

Develops Blood Poison and Appendicitis—Roland Barbee, who shot Deputy Sheriff George Gillispy at the Oscar Lawson farm and who received a bullet in the leg in return, was taken from the Avoca (Ia.) jail to the Jenny Edmundson hospital in Council Bluffs last night, as his condition is considered dangerous. The wound in his leg had become infected and the prisoner is also suffering from appendicitis, which developed while he was confined in jail.

Nash and Burgess Go East for Some New Ideas—Ward Burgess and Louis C. Nash, president and vice president, respectively of the Burgess-Nash company, left Monday night on an inspection trip of some of the principal stores in the east.

It is their plan to visit such cities as Indianapolis, Dayton, Toledo, Cleveland and Detroit, where some of the most up-to-date and progressive department stores of the country are located. "We intend to include every practical convenience for shopping and service in our new store," said Mr. Nash before leaving. "We expect to get many ideas on this trip that will help us materially in making our plans. The architect's plans of the building will soon be completed, and Tausig & Fleish of Chicago are working on the arrangement and layout of the store. We expect to begin the work of demolishing the Boyd building within the next few weeks and our plan is to raise the building on as rapidly as possible."

A Simple Way to Remove Dandruff—There is one sure way that has never failed to remove dandruff at once and that is to dissolve it, then you destroy it entirely. To do this just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most if not all of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.—Adv.

SOLVES PROBLEM OF STAYING HOME

Youthful Wireless Operator is a Philosopher with His Other Talents.

TALKS TO FAR OFF FRIENDS

By A. R. GROH. Douglas Burghardt's call is "9 W. R." He uses a 200-meter wave link and the continental code.

Of course, you don't know what all this is about. So I'll explain. By day, Douglas Burghardt is an employe of The Bee engraving department. But by night he is a amateur wireless operator.

At his home 5023 North Twenty-fourth street, he sits down to his transmitter. His thoughts leap out, hundreds of miles across the country. He "talks" to other boys in Dubuque, in Dallas, Tex., in Buffalo, N. Y., boys whom he has never seen, but who are his wireless pals.

I stopped Douglas as he was passing through the office. He told me about the amateur wireless organization of this country. Wonderfully well informed he is and his conversation is full of interest.

He talks of Hanover, Germany; Arlington, Va. ("right across the river from Washington, L. C.," he tells me) and Key West, Fla., just ordinary people might talk of Omaha, Council Bluffs and Florence. Indeed, in wireless circles, the former aren't much further apart than the latter.

"How often do you use your wireless?" "Every night," said Douglas, promptly. "About 7:30 I send out the general call. That 'C. Q.' in the continental code you make 'C' with a dash-dot-dash-dot and 'Q' with a dash-dot-dash-dot."

"My aerial is in the yard. I have a tower forty feet high and a pole 100 feet high, making ninety feet. I use the city current instead of a battery and have a one-kilowatt transformer."

"I've been getting the war reports from the government station at Fort Sam Houston, Tex., and messages from amateur stations all over. The other day I got a card from an amateur in Buffalo, N. Y., stating that he had picked up my message. And another fellow in Dallas, Tex., got a call of mine. I have received messages here from Guantanamo Bay, Cuba, and Porto Bello, Central America."

Douglas wears a button inscribed "Radio League of America," and he has a government license from the United States radio inspector.

Fifteen Stations Here. He says there are about fifteen amateur wireless stations in Omaha. He and William Reinhardt, thirty-second and Larimore avenue, work together a good deal.

He told me how the country is divided into districts for the amateurs. Omaha is in the ninth district. Amateurs have to use a "wave link" less than 200 meters long, so as not to interfere with government stations which use wave links, sometimes thousands of meters long. Ships use a 600-meter wave link.

"In time of war," this serious lad informs me, "we would give our stations to the government and, even if the enemy cut all the telegraph lines, messages could be relayed by the amateur stations. We have to promise to do this." (Let our enemies beware.)

"But doesn't it cost a good deal to have a wireless station?" I asked. Now mark the words of wisdom that fell from this boy's lips. "I think I've spent about \$100 on mine," he said, "but I think I have gotten more good out of it than that. You learn a lot, and besides, if I didn't have the wireless I'd want to be out at night, doing something else."

Aha, Douglas, quite true! You hit the nail on the head. I hadn't thought of that, but it certainly is the truth. Parents of our amateur wireless enthusiasts don't have to worry how to keep their boys at home, nights.

School House at Moberidge Burns. Moberidge, S. D., Jan. 16.—(Special.)—Fire destroyed the East Side school house at Moberidge during the night, causing a loss of between \$3,000 and \$4,000. The entire building

with its contents is a total loss. An overheated furnace is believed to have caused the fire.

Fire in New Bank Building is Started By a Cigaret Stub

Somebody tossed the stub of a burning cigar among some rubbish in a vacant office on the seventh floor of the First National bank building. The result was a fire-scare that drove many office men in a pell-mell rush to the street, and did about \$400 damage to the building. The damage was confined to blistered paint and burned woodwork on the seventh floor of the building.

Pipe Line Destroys Hope of Growth of Glen Rock. The people of Glen Rock, a city that has sprung up within the last sixty days in the Big Muddy district, the latest of the Wyoming oil fields to come in, have given up all hope of securing a refining plant. The Standard Oil company has commenced laying a pipe line from Glen Rock to Casper, a distance of nineteen miles.

Glen Rock sixty days ago was a portion of a cattle ranch. Now it is said to have a population of 1,000, with about every line of business represented. Twelve producing oil wells are within a radius of three miles.

This Simple Laxative A Household Necessity. Dr. Caldwell's Syrup Pepsin Should Have a Place in Every Home.

Constipation, or inaction of the bowels, a condition that nearly every one experiences with more or less frequency, is the direct cause of much disease. When the bowels become clogged with refuse from the stomach, foul gases and poisons are generated, and unless the congestion is quickly relieved the system becomes weakened and most susceptible to attack.

Various remedies to relieve constipation are prescribed, but many of these contain cathartic or purgative agents that are harsh and violent in their action and shock the system. The most effective remedy is the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin.

The Hon. John D. Keister of Branding, W. Va., who has represented his district in the State Legislature for six years, writes that he uses Dr. Caldwell's Syrup Pepsin and finds it a splendid laxative, easy to take and mild, yet positive, in its action, and that it should be in every household for use when needed.

Dr. Caldwell's Syrup Pepsin is sold by druggists in all parts of the United States and costs only fifty cents a bottle. It contains no opiate or narcotic drug, does not gripe, and is recommended as a family laxative, mild enough for the tiniest babe, yet sufficiently powerful to act easily on the strongest constitution.

To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

Relatives Usually Respond in Blood Transfusion Cases. The relief of patients by transfusion of blood is not a serious problem in Omaha hospitals. Usually, when transfusion is necessary, relatives or friends respond with their life blood. Only occasionally is it necessary to pay the person whose blood is transfused to save a life.

Whether the person is a relative, friend or stranger, his blood is carefully tested before he contributes to the life of another. In a few cases those whose veins were tapped were paid \$25 to \$50 for this service. Most of the patients are anemics.

In some of the large cities of the country subjects are selected from such institutions as workmen's hotels or charitable shelters. On an average one out of four are accepted.

Police Take Part in the Payment of Coal Bill. W. M. Kissell was fined \$7.50 and costs by Police Judge Fitzgerald on complaint of Mrs. E. Kerr of 131 South Twenty-fifth street. Mrs. Kerr said that she had left some money with Kissell, who was in her employ at that time, to pay a coal bill, but that the money and Kissell disappeared soon after.

EXPERT BLAMES ACHING FEET FOR INEFFICIENCY. One of the great efficiency experts believes that a primary cause of inefficiency in the pursuit of the daily bread, "I examine a man mentally and physically," he says, "and if I find he has had feet I report against him. I know that had he lower a person's effectiveness." If you are suffering from hot, tender, aching feet, you can't do your best work. Fortunately, there is no longer any excuse for suffering feet. A 25-cent package of Wa-Na-Ta will give you foot comfort. When you get home in the evening, drop two or three of these tablets in a pan of hot water and soak your feet in it for a few minutes. You'll be surprised how the pain vanishes. It will soon relieve you of all foot troubles. Delightful for use in the morning, when your feet are aching from a long day's work. If your druggist hasn't Wa-Na-Ta, send us 10 cents and we will mail you prepaid a sample package. L. C. Landon Co., South Bend, Ind.
