HAPPENINGS IN THE MAGIC CITY

James Emmet Barrett, 21 years old, student of Creighton university, died Wednesday morning at 1 o'clock at the home of his parents, Mr. and Mrs. P. J. Barrett, 1316 Harrison street. Death was due to a sudden attack of pneumonia. The young man was to have been graduated from the Creighton College of Arts and Science with the June class of 1917.

The faculty and sodality of Creighton university and class of 1917 have arranged to visit the home this afternoon and pay tribute in a body. People visited the Barrett residence on the edge of Mandan park in large numbers all day yesterday and the bier was covered high with floral contributions. The name plate on the casket bore the inscription "Our Jim."

The funeral will be held Friday morning at 9 o'clock at the home of St. Agnes church. Rev. Father James Ahern will officiate, celebrating high requiem mass. Three of the fathers at Creighton university will assist. The class of 1917 will attend in a body and the Boys' sodality of St. Agnes church will also be present.

Encounter Setbacks. Facing disturbing setbacks, members of the mid-year graduating senior class of the local high school are endeavoring to come through commencement week as smoothly as possible. First the sickness of Mrs. Adams, coach, caused the postponement of the class play, then the remodeling operations that are going on in the auditorium have caused the class leaders to look about for another meeting place.

The baccalaureate sermon will be given Sunday evening, February 21, but the place has not been selected. In years past it has been held in the school auditorium. Rev. John G. Albers, pastor of the First Christian church, has been selected to preach and the Wheeler Memorial church, across from the high school, has been suggested as possibly large enough to accommodate the crowd that would attend. Principal Huald will confer with class leaders this morning and final plans will be made up before the end of the week.

Semester examinations start Monday morning and continue four days. Commencement exercises will be held on the north side Wednesday evening, January 24. Miss Dennett and Prof. Vosack, faculty sponsors of the two senior classes, are working out the commencement program and will announce it tomorrow or the next day.

For All Pain

"The efficiency of any drug" says Dr. C. P. Robbins "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, i. e., something to relieve his pain. If we can arrest this promptly the patient is more likely to trust in us for other remedies which will effect a permanent cure. One remedy which I have used and which has been found to be a most efficient remedy is Anti-Kamnia Tablets. Many and varied are their uses. I have put them to the test on many diseases of pain, and this is what the patient most often applies to us for, i. e., something to relieve his pain.
