Movie Actresses and Their Hair.

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, many are leading ladies just because of their attractive locks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or mashes, but with a simple mixture by putting a teaspoonful of camphor (which they get from the druggist) in a cup of hot water and applying this instead of soap. This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is, while its lustre and softness is delightful. —Advertisement.
