

### Nebraska WOULD BRING GERM CHASER TO OMAHA

Bill by Franklin County Member to Change Laboratory Control.  
UNDER REGENTS' CONTROL  
(From a Staff Correspondent.)  
Lincoln, Jan. 25.—(Special.)—Removal of the present state bacteriological laboratory from the control of the State Board of Health and placing it in the University College of Medicine at Omaha is proposed in a bill introduced in the senate today by Senator Charles Samuelson of Franklin county "by request." It is Senate File 128.  
It would put the laboratory exclusively under the control of the board of regents of the university, and fix the maximum salary of the state bacteriologist at \$2,400. He would still serve the State Board of Health.  
A ratio of county attorney's salaries, from \$400 a year in counties having less than 2,400 population, to \$4,000 for Douglas county, or counties with 140,000 or more is outlined in Senate File 129, introduced by Senators Mattes and Neal. The salary in Lancaster, or counties under 100,000, would be \$3,000. A provision for traveling expense money is also included.

Ten Thousand Dollars  
For Wife's Affections  
Fremont, Neb., Jan. 25.—(Special.)—A judgment for \$10,000 was awarded Will Keck of Fremont against Arthur Stroupe by Judge Button in district court. Keck sued Stroupe for alienating his wife's affections. Mrs. Keck was a former Fremont high school girl. Stroupe failed to appear for the hearing, Judge Button awarding the verdict by default. Stroupe had been served with notice of the suit by mail and had filed an answer, denying the allegations. Keck asked for \$25,000. Mrs. Keck died July 1, 1916.

Mayfield Files Bond;  
Takes Oath of Office  
(From a Staff Correspondent.)  
Lincoln, Jan. 20.—(Special.)—E. O. Mayfield took the oath as member of the State Board of Control, filing a bond for \$25,000 for the unexpired term he will fill of Judge Kennedy, and a like bond for the same amount for the long term.

Various Forms  
Of Headache  
"It is necessary in order to treat headaches properly to understand the causes which produce the affection," says Dr. J. W. Hay, of Brooklyn, Ala. "Continuing, he says, 'Furiansians cannot even begin the treatment of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose anti-kamala tablets will be found most convenient and effective. One tablet every one to three hours gives comfort and rest in the most severe cases of headache, neuralgia, and particularly the headaches of women."  
"When we have a patient subject to regular attacks of sick headache and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Obtainable at druggists in any quantity desired."

HOW STAGE DANCERS  
AVOID FOOT TROUBLES  
A pretty dancer whose face and fame are familiar to all theater-goers is constantly asked the question: "How do you keep your feet from aching?" If you do not do anything at all out of the ordinary, such as walking, standing or dancing more than usual. And here is the little dancer's prescription. It always has a package of Wa-Ne-Ta on hand and always after working hard on the stage I bathe my feet in hot water in which I dissolve two or three tablets of this preparation. I never have trouble, as this leaves my feet cool, comfortable and happy. If your druggist can't supply you with Wa-Ne-Ta, don't accept a worthless substitute he may have an interest in recommending, but send us 10 cents and we will mail you a sample package of this wonderful foot relief. You can use Wa-Ne-Ta with delightful effect in your body bath. It is soft and antiseptically clean. The regular size packages sell for 25 cents. L. C. Landon Co., South Bend, Ind.—Advertisement.

Just One Application  
and the Hairs Vanish  
(Toilet Talks.)  
Any woman can keep her skin free from unsightly hair or fuzz if she will follow these simple instructions: When hairy growths appear, apply a simple paste, made by mixing some water with powdered delatone. Apply this to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a harmless treatment, but be sure you get the real delatone.—Adv.

At Last! A Perfect  
Way to Whiten Teeth  
A woman's beauty is completely spoiled by stained, unhealthy or broken teeth. A smile which ought to be such a beautiful thing should reveal an even row of perfectly white teeth. But, unfortunately, few sets of teeth are really white, for the simple reason that brushing with the usual dentifrices is not an effective means of removing stains, and so many dread the periodical visits to the dentist to have their teeth scraped.  
All teeth are covered with thin films or pellicles which are bound to become discolored in time if only the ordinary tooth powders and pastes are depended upon to keep them spotted. Many have learned, however, that to know the drug trade as "Avatol" is a veritable wonder-worker in removing the brownish or grayish films from the teeth. It is so removed, stains and tartar will never return if this peculiar substance is used daily. It is a most convenient tube and just a little need be put on the brush. Avatol does not scratch the enamel and is entirely harmless, as well as pleasant tasting, that it is the best thing for children to use also.—Advertisement.

### Wilson Consults Senate Leaders About Pet Bills

Washington, Jan. 25.—Senator Cummins did not press his resolution today to set aside time in the senate for discussion of President Wilson's peace address and the senate got to work early on appropriation legislation.  
President Wilson in his conference with Senator Stone and other democratic senators at the White House, last night, discussed his address in a general way. There was discussion also of plans to prevent any concerted effort to sidetrack important legislation with a long peace debate at this time, but the main purpose of the conference, it was said today, was to clear the way for harmonious legislative action between now and March 4. The improbability of getting through his railway labor program as originally proposed was pointed out to the president as well as a poor prospect of water power legislation.  
Tonight senate democrats will consider all these subjects in caucus.

### Stock Brokers Are Sending Reports to "Leak" Committee

New York, Jan. 25.—Stock exchange brokers who have been requested by the rules committee of the house investigating the alleged "leak" on the president's peace note to produce records of the transactions of their customers, are promptly responding, it was announced today by Sherman L. Whipple, counsel for the committee.  
Mr. Whipple and Chairman Henry did not go to Washington with the rest of the committee yesterday, and today were busy with the committee's expert accountants in preparing for the resumption of the inquiry here Monday or Tuesday.  
Mr. Whipple said he expected that it would now be possible to complete the inquiry in New York next week.

Washing Won't Rid  
Head Of Dandruff  
The only sure way to get rid of dandruff is to dissolve it then you destroy it entirely. To do this get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.  
You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.
