Burgess-Nash Announce for Monday---

Their Annual February Sale of FURNITURE

NOTE! Furniture selected during this sale will be held for future delivery on the payment of a small deposit.

NOTE! Tickets with special prices are attached to the various pieces in this sale of furniture.

Involving the Entire Regular Stock (Excepting Sectional Book Cases, Springs and Mattresses)---Furniture Suitable for Every Room in the House at Reductions Ranging from 10% to 50%

THE February sale of furniture is one of the big calendar features of this service store—an event to which shrewd home furnishers have learned to look forward with great anticipation, fully realizing that at no other time of the year are the assortments and range of selection so great and the saving possibilities so manifest. It's one of the most important contributing features toward the making of better homes, for it points the way to better furniture at lesser cost.

FORTUNATELY, the great part of our regular stock is owned at low prices, which have not here advanced, and the new purchases were made at large discounts for specific trade reasons. But with all that one should give thought to the future. It is no yellow journal scare that furniture is going to cost more. It is costing more at wholesale this very minute. Manufacturers are raising their prices all along the line, within the past six months there have been several decided increases owing to increased costs of materials and labor.

THE sale this year promises to be the most important from a money saving point of view, of any that have gone before. Months of careful preparation have been given over to this big annual event, and we cannot say too much in praise of the quality and workmanship of the furniture, for only the best was selected to be consistent with our standard of quality, dependability and economy—furniture suitable for every room in the home, offered at reductions ranging from 10% to 50%.

Truthful Facts About Our Merchandise

THAT'S something you get here, even if you don't ask for it.

The chief duty of our advertising, as we see it, is to give the public the exact information about our merchandise.

The same policy rules in our selling.

We believe in our merchandise, or it would not be here. It must possess definite quality standards, or we will not invest our money in it. It must prove itself to us before we buy it.

That is why we can recommend it to you with absolute assurance that it is right, and, being right, we can see no reason for misrepresenting any of our goods to our customers.

Our advertisements do not contain comparative statements of value, because oftentimes, through over-enthusiasm, values are exaggerated—a tendency to mislead and misinform. We welcome the most exacting comparison of our merchandise in every essential.

We believe this policy will meet the approval of discriminating and careful people, such as it is our desire to serve.
