

WOMAN IS SHOT AS STEPS OFF CAR

Man Said to Have Been Rejected in His Attention Firing Gun at Her.

THEN MAKES HIS ESCAPE

(From a Staff Correspondent.) Des Moines, Ia., Feb. 12.—(Special Telegram.)—When Mrs. Ida Kaizer, aged 27 years, colored, of 1411 East Eighteenth street, stepped off a street car at Tenth and Center streets this morning at 8 o'clock she was fired at three times by Holbrook (Hoh) White, also colored, armed with a .32-caliber revolver.

One bullet slightly wounded the woman and she was taken to her home, where she declared the shooting was probably because she had rejected the attentions of White. Mrs. Kaizer is the wife of William Kaizer, an automobile mechanic. White disappeared after the shooting.

WOUND Train Citizen Soldierly.

A democratic citizen army with civil authority superior to the military, is provided for in a resolution which will be introduced in the house of the Iowa legislature by the committee on military affairs. The resolution was presented to the committee by Major S. W. Brockhart of Washington, Ia., who is a member of the Iowa National Guard. It is similar to one which National Guard organizations plan to present to legislatures all over the United States. The resolution declares it is the duty of congress, in conjunction with the several states, to provide a system of military training which will give the United States a democratic army in which the caste system does not enter. It is opposed to the present regular army policy and contemplates the training of all able-bodied men to meet a national crisis such as the present one.

WOUND Sell Lake Bed.

Senator Kimball of Pottawattamie county will introduce a bill in the senate of the Iowa legislature for the sale of the old lake bed of Swan lake in Emmet county, which has been drained. The state has received from the sale of lake beds \$37,055.55. It has issued drainage bonds to drain these amounting to \$28,434. If Swan lake is sold the money will be used to take up the drainage bonds.

Harding Signs Dry Amendment.

Governor W. L. Harding has signed the joint resolution providing for the submission of the prohibitory constitutional amendment to a vote of the people. In the measure no date was fixed for the special election to vote on the proposition, but this is included in another bill, which fixes the date at October 15 of this year.

WOUND Cut Out Druggists' Permits.

Druggists will be prohibited from securing liquor permits under bills introduced in the senate of the Iowa legislature Saturday by Senator Ratcliff of Montgomery county and Senator Wilson of Appanoose county. Both bills provide for the repeal of the druggist permit law and thus cover the same condition. Neither senator knew the other intended to introduce such a bill, Senator Wilson later explained. It is held by those favoring these bills that prohibition times afford opportunity on the part of unprincipled men to abuse the permit privilege and encourages such persons to secure permits in order to sell liquor indiscriminately.

Jewish Citizens Will Do Full Duty to U. S.

New York, Feb. 12.—If war comes the Jews of this country "will sacrifice themselves for America," Henry Moskowitz, chairman of the Municipal Civil Service commission, said today before the National Workmen's committee on Jewish rights, in convention, with delegates from all parts of the United States. "Let us show America," he added, "that the 500,000 Jewish workmen with a history of persecution unequalled in the history of the world will say, if need be, that a country worth living for would be worth dying for. The address of President Wilson before the senate has shown the American people to be the greatest ally of the Jews in their struggle for civil rights."

England Issues Fraudproof One Pound Treasury Note

(Correspondence of The Associated Press.) London, Jan. 20.—The new £1 treasury notes which will be issued shortly are described as fraudproof and have been designed with the assistance of the greatest authority on illicit reproduction. The paper is white and somewhat thicker than the present notes; on the right is the king's head in a curious pale greenish-brown shade, surrounded by an oval bearing the imperial titles and surrounded by the crown. On the left is a design of St. George and the dragon. Green ink is used for the lettering. The reverse of the note bears in faint ink an outline of the houses of Parliament, with a watermark of "one pound" and the royal cipher and crown on either side. New 10 shilling notes will appear later.

German Subseas Sink Only Two Ships Sunday

London, Feb. 12.—The Greek steamer Vasilissa Olga, 1,400 tons, has been sunk. Its crew of twenty men were landed, according to the Central News. The British steamer Salaga, 3,811 tons, has been sunk. Lloyds announces today. It was owned by Elser, Dempster & Co. of Liverpool. It has been in the British government service.

This Record of Sunday's U-boat Toll Modifies the Views of Those Who Thought Germany's New Campaign Might Isolate England.

Cedric Sails With Five Thousand Bags of Mail New York, Feb. 12.—With approximately 18,000 tons of cargo, mostly war supplies, and 5,000 bags of United States mail transferred from the American liner St. Louis—but with no passengers—the British steamship Cedric of the White Star Line left here today for Liverpool. The mail on the Cedric has been held here since February 3, the date on which the St. Louis was to have departed.

RAINEY SAYS CALL MASTER BAKERS

Congressman Suggests Officers of Association Can Explain Rise in Bread Prices.

KEEP LOBBY AT CAPITAL

Washington, Feb. 12.—Charging a concerted effort to put up the price of bread, Representative Rainey of Illinois, in a letter today to the federal trade commission and the Department of Agriculture, which have been directed by President Wilson to investigate the high cost of foods, suggests that certain men be called to testify as to what they know about the matter. The men are:

Paul Schulze, a Chicago baker; F. McDonald of Memphis and J. M. Bell of Chicago, president and secretary, respectively, of the National Master Bakers' association; John Lind of Minneapolis, attorney for the wheat millers, and the editor of "The Modern Miller" of Chicago.

"I suggest calling these men," said Mr. Rainey, "because at the convention of the master bakers in Salt Lake City last August Mr. McDonald announced a nation-wide move would be inaugurated at once, both by advertising and publicity, to educate the public to a 10-cent loaf. Sure enough, the first announcement to that effect was made by the Schulze Baking company of Chicago, a short time after the convention."

Call for Appropriation.

President Wilson will be asked to approve a \$200,000 appropriation for the food price investigation to be conducted by the federal trade commission and the Department of Agriculture at his direction.

That amount, it was said today, will be necessary to carry on an inquiry thorough enough to develop whether anti-trust laws have been violated.

The Agricultural department, through its office of markets, already has collected a mass of material bearing on storage and distribution of foodstuffs that will be turned over to the trade commission for use in determining whether there has been conspiracy or restraint of trade in handling the nation's food supply. Evidence gathered by the Department of Justice in its cost-of-living investigation also will be available.

The trade commission's part in the investigation, it was explained today, will be primarily to determine if there have been trust law violations. The Department of Agriculture's part will be to assemble statistics.

In ordering the investigation President Wilson asked the commission to pay particular attention to manipulations, controls, trusts, combinations, conspiracies or restraints of trade out of harmony with the law or the public interest.

Omaha Suffrs Will Invade Lincoln to Exert "Influence"

Members of the political and social science department of the Omaha Woman's club were urged by the chairman, Mrs. G. W. Hayes, and by members of the acting legislative committee of that department to join the suffragists, who have chartered a special car, to journey to Lincoln Thursday in order to go to the members of the senate committee with the hope of influencing them in regard to bills which they are now considering. Two bills which it was reported by Mrs. D. G. Craighead, Mrs. J. H. Dumont and Mrs. F. J. Birs, who have either made trips to Lincoln or interviewed senators on their weekend visits to Omaha—are considered unfavorable, are those which return the election of school board members to the ward primaries and repeal the law providing for grade school instruction in foreign languages. The delegation will leave Omaha Thursday morning at 9:15, will have luncheon at the Lincoln hotel at 11:30, at 2 o'clock will visit the state house and at 2:30 will be granted an interview with the senate committee. Mrs. Hayes urged the club not to give up its support of the bill for the custodial farm for unfortunate women.

Rumor of Attempt to Blow Up the Catskill Aqueduct

New York, Feb. 12.—An investigation of reports that an attempt was made early yesterday morning to blow up the Catskill aqueduct which supplies this city with drinking water was ordered today by Major General F. O'Ryan, commanding the state National Guard. General O'Ryan said he had been informed that two men carrying a suit case had been ordered by a guard, a member of the First regiment, to halt and that the guard fired one shot. No confirmation had been received, he said, of a report that the two strangers escaped in an automobile.

Several Aliens Appear To Take Out First Papers

Several Omaha aliens who were born in Germany or Austria celebrated Lincoln's birthday by taking out their first citizenship papers. "Naturalization desk" was ready for business as usual, a half dozen Teutons and former subjects of the dual monarchy having taken the first step to become citizens by noon. The fact that the court house was supposed to be "officially" closed kept many aliens away, it is believed.

A DELICIOUS FOOD YOU'RE SURE TO LIKE Grape-Nuts

There's a Reason

SHIP OWNERS ASK NAVY FOR CANNON

Franklin Requests Guns to Defend Big Passenger Ships of the American Line.

MORE SHIPS AT NEW YORK

Washington, Feb. 12.—P. A. S. Franklin, president of the International Mercantile Marine, today made formal application to the Navy department for guns to arm the passenger liners of the American line.

The request states that the company has been unable to find guns elsewhere. It is indicated that the Navy department, while opposed for military reasons to any project of conveying American merchantmen through the prohibited submarine zones, favors furnishing such ships with guns for their own defense.

The Navy department, it was stated officially, has a considerable number of old model three-inch to six-inch rifles available for arming merchant ships, but not enough for the conversion of all ships it would require in time of war and also to furnish defensive armament for all merchantmen.

Question of Crews.

The question of supplying trained gun crews for merchantmen is more difficult from a departmental point of view. There is objection to withdrawing men from the active service of the navy at this time and there is also some question as to what effect such a step would have on the status of a ship. French ship owners furnished guns by their navy were required to make oath that they were to be handled by civilian crews.

The possibility that the navy might supply guns indirectly through loan or sale to ship owners has received some consideration, but a preference for direct action by the department in placing the guns aboard is indicated by the shipowners.

Senator LaFollette today introduced a resolution to make it unlawful for any American merchant ship in time of peace to depart armed from any port of the United States for any port in another country. It was not debated, but put on the table subject to call.

Steamship New York Arrives.

New York, Feb. 12.—The arrival today of the steamship New York brought the number of American trans-Atlantic passenger ships at this port up to four. The New York sailed from Liverpool on February 3.

The American liner Kronland docked here yesterday and the St. Louis and St. Paul, of the same line, are still at their piers, while their owners await news from Washington in regard to the policy recommended for American shipping that would risk the dangers of the German blockade.

The Cunard liner Andania, from Liverpool January 31, and the Italian steamer Giuseppe Verdi, from Mediterranean ports, reached their docks here today.

Cedric Will Take Mail.

The British liner Cedric, which sails today for Liverpool without passengers, will carry 5,000 sacks of mail, which have been delayed here for the last week aboard the St. Louis.

The New York was the first American ship to leave Liverpool after Germany's war zone decree went into effect. It passed through the danger zone without sighting war craft of any kind, its officers said.

Two Million Acres of Land Leased for Oil

San Antonio, Tex., Feb. 12.—Leases on four tracts of Starr county land, totaling 2,000,000 acres, have been obtained by F. B. Ranger of Los Angeles, Cal., according to an announcement made today at Fallsburg, Tex. The leases require the boring of two test wells on each tract yearly.

OMAHA PAYS ITS TRIBUTE TO THE NATION'S HEROES

(Continued From Page One.)

ington and Lincoln, we must remember that it hasn't been for other men and women even the successes of these two great leaders probably would not have been achieved," Mr. Jefferis said. He declared that in his opinion the United States wouldn't have been and we wouldn't be here today if Benedict Arnold's plan to betray Washington and deliver the American army into the hands of the British had succeeded.

"This country," said Mr. Jefferis, "has always followed the advice of Washington, and can never go wrong in standing for what he stood for. The time will never come when this country will ever sign a treaty with a foreign nation which will compel us to fight, dance or jump when any king or emperor says so. The destiny of the nation rests in the minds and hearts of the people. We should never fight until the people at large feel their honor is at stake. Until then let peace abide."

Heard Lincoln Debate.

Captain C. E. Adams, who served four years in the civil war and saw Lincoln the first time when with his father he attended the historic debate at Freeport, Ill., between the future president and Stephen Douglas, at which the issues in the fight for United States senator were fought out in wordy battle, delivered an address on "Lincoln."

"We can fairly say," declared Captain Adams, "that Lincoln's presence is with us today, for he was so typically American." Captain Adams told of how, when Lincoln and Douglas were in a hotel lobby at Freeport prior to the debate, he saw the great man for the first time. The civil war veteran said that he had been shouting for Abraham Lincoln ever since that time.

In the race for president, Captain Adams said, Lincoln was denounced and mud was thrown as it had never been thrown before in a presidential campaign, but, he declared, Honest Abe came out unscathed in character and honor.

"American people can well afford to halt and pause while they raise their eyes reverently to the memory of Lincoln—they can well afford to offer a prayer that Honest Abe was elected president in that time of secession," Captain Adams said.

He told of how the scenes of the civil war had imprinted themselves vividly on his mind and of the impressive sight in Washington when the great army of the north swung down Pennsylvania avenue at the grand review. It was then, according to Captain Adams, when the men, marching past the capitol with bowed heads, realized that Lincoln was gone.

"Any man in that army would have given his life, his record, his all, if the beloved Lincoln could have him brought back to them," said Captain Adams.

"Other ages have produced great men, but Lincoln was the greatest of all. He was, above all, a typical American. He was a leader of men because he met all men alike. Lincoln was pre-eminently the great American."

Captain Adams rapped the pacifists who, he declared, would have us forget those who have answered the calls of their country in times of need. Miss Leta Toney gave a reading. The program closed with the singing of "America" by the entire audience, led by the Grand Army quartet.

Nebraska Pensioners.

Washington Feb. 12.—(Special Telegram.)—Pensioners granted: Nebraska: Annie D. Deaton, \$12; Lovinda Posey, Merrill, \$12; Sarah E. COLD IN NEW YORK AND NEW ENGLAND

Automobiles Are Crossing Hudson River On Ice from Tarrytown to Nyack.

CLEVELAND NEEDS COAL

New York, Feb. 12.—A drop of 3 degrees above zero at 7:30 a. m. today brought to this city the coldest weather of the season. The official forecast was that it would turn warmer.

It was 40 degrees below zero in many places in the vicinity of Saratoga. Rivers and bays about New York are filled with heavy drifting ice fields today, interfering to some extent with navigation.

For the first time in five years the Hudson is solidly frozen over the three-mile stretch between Tarrytown and Nyack. Hundreds of persons have walked from shore to shore and several automobiles have safely negotiated the trip.

Boston, Feb. 12.—The coldest weather of the winter was reported by a number of points in New England today. Minimum temperatures during the night ranged from 24 degrees below zero to 6 above.

Cleveland Short of Coal.

Cleveland, Feb. 12.—The thermometer registered 10 below zero here this morning. It was the coldest day since February 10, 1883, when the temperature dropped to 16 below.

Detroit, Mich., Feb. 12.—The coldest weather in years and the worst shortage in coal of the winter resulted in much suffering in Detroit today. Twelve degrees below zero was recorded in the heart of the city this forenoon.

WITH LEWIS WHEN MODEL WAS SLAIN

Canadian Soldier Admits He Helped Put Pretty Girl to Bed.

IN THE HOSPITAL CORPUS

Philadelphia, Feb. 12.—Captain of Detectives Tate late today said he had received a telegram from the police of Montreal, Canada, saying a man named Frederick J. Farrell, 25 years old, serving in the army medical corps, had surrendered himself in that city, declaring he was wanted in connection with the murder of Maize

Colbert, the advertising art model, slain in her apartments here December 29.

Farrell, according to the telegram, Captain Tate said, declared he was with Bernard W. Lewis of Pittsburgh, Pa., when the girl was killed and assisted Lewis in putting her in bed.

Lewis committed suicide in Atlantic City when about to be arrested in connection with the Colbert case.

Retired Tilden Farmer Drops Dead in Chicago

Chicago, Feb. 12.—(Special Telegram.)—John F. Lange, retired farmer from Tilden, Neb., living here with a brother, fell dead yesterday while attending Center Street German church. His brother and his niece were with him at the time. A doctor who was called found he arrived too late to do anything.
