

# WHY HAVE GRAY HAIR

Sunshine and Air and Q-Ban Will Quickly Restore Its Natural Color.

**DON'T USE DYES**  
You Can Have Soft, Lustrous, Handsome Hair in Abundance Without Sticky or Dangerous Chemicals—"Back to Nature."

Of course, the use of dyes to darken gray hair is unpleasant and not in good taste... Sunshine and air, the good gifts of Nature, combined with the use of Q-Ban Hair Color Restorer, the good gift of science...

**Ironclad Guarantee**  
Q-Ban is all ready to use. It is not a dye. It is guaranteed to be harmless. A large bottle costs only 50c. It is the only guaranteed preparation for the purpose. Your money back if not satisfied.

The secret of Q-Ban's wonderful results is the process of oxidation brought about by the exposure of your hair to the air and sunshine after it has been applied. This very process makes it safe and sane and clean, and is one reason for Q-Ban's tremendous popularity.

Put your trust in guaranteed Q-Ban and sunshine and air to restore gray hair. "Back to Nature." Get Q-Ban at Sherman & McConnell Drug Stores or at any druggist's, or write Hesse-Ellis Drug Co., Memphis, Tenn., giving your druggist's name and address. Try Q-Ban Hair Tonic, Q-Ban Lotion, Shampoo and Q-Ban Toilet Soap. Also Q-Ban Depilatory (odorless) for removing superfluous hair. Interesting illustrated booklet, "Hair Culture," sent free.—Adv.

## DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you. Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure, for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do. The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Adv.

## Home Remedy for All Pain

Are you in pain? This is the question you will hear daily, and to be able to relieve pain, whether it be a slight nervous headache or the most excruciating sufferings of neuritis or rheumatism, brings the bright pleasure to both patient and doctor. Touching this point, Hugo Engle, A.M. M. D., says: "Anti-kamnia tablets have become members of the medical profession; they are very reliable in all kinds of pain, and act at once. To stop pain quickly, the dose is one or two tablets repeated in two to three hours if required. Anti-kamnia tablets relieve all pains due to rheumatism, headache, sciatica, neuralgia, toothache, gout and are especially useful for all conditions known as women's aches and pains. Anti-kamnia tablets have no unpleasant after-effects, and in 99 cases out of 100 cases they stop the pain immediately. Ask for A. K. Tablets. Obtainable at drug stores in any quantity desired."

## TO STOP BAD COUGH

SOUTH DRY, IRRITATED THROAT WITH PARMINIT SYRUP, SAYS THIS OLD FASHIONED COUGH MEDICINE IS THE BEST. We are told that the old time remedies are best and invariably contain less harmful ingredients than those which are in use today. This being so, undoubtedly the following old-fashioned recipe which is quick acting will be welcomed by many as there seems to be a regular epidemic of coughs at the present time. Secure from your druggist 1 ounce Parminit (double strength), take this home and add to it a quarter pint of hot water and 4 ounces of granulated sugar, stir until dissolved. Take a teaspoonful four times a day. No more parking your whole body with a cough. Charged nostrils should open, air passage of your head should clear and your breathing become easy. Parminit syrup is pleasant to take, easy to prepare and costs little. Every person who has a stubborn cough, hard cold or catarrh in any form should have this prescription a trial.—Adv.

Shields, Chicago, auditor of freight accounts, and is attended by L. B. Allen, assistant general manager, Chicago, and local officials. The loss and damage committee of the Burlington has to do with the matter of eliminating the cause for claims for damages to freight shipments and also to determine the most satisfactory methods for the settlement of such claims.

**Fine Fleecing Goods**—Sunderland, N. J., Feb. 12.—A week later it was stated that a full decision on the situation had not been reached and that the campaign would not be launched until after further consultations with Germany's allies and the receipt of certain information from Count Bernstorff and Count Tarnowski von Tarnow, respectively German and Austro-Hungarian ambassadors to the United States, of their concept of armed merchantmen and their liability to attack as warships.

The final decision on an out-and-out submarine campaign of a so-called ruthless type apparently was taken at the grand Austro-German conference at German headquarters on the German emperor's birthday, though the Associated Press heard the statement that submarines departing several days earlier for stations on the submarine hunting grounds were provided with contingent orders for this purpose.

**Divorce Yourself from Pain and Kidney Disorder**  
(By Dr. L. C. Babcock.)  
Simple methods are usually the most effective ones when treating any disorder of the human system. The mere drinking of a cup of hot water each morning, plenty of pure water all day, and a little Anuric (double strength) before every meal has been found the most effective means of overcoming kidney trouble. Death would occur if the kidneys did not work day and night in separating poisons and uric acid from the blood.

The danger signals are backache, depression, aches, pains, heaviness, drowsiness, irritability, headaches, chilliness, rheumatic twinges, swollen joints, gout.

It is such a simple matter to step into your favorite drug store and obtain Anuric, which was first discovered by Dr. Pierce, of the Surgical Institute, Buffalo. Every druggist dispenses it.

All people in America and especially those who are past middle age, are prone to eat too much meat and in consequence deposit uric acid (uratic salts) in their tissues and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air in order to sweat freely and excrete impurities through the skin. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant need of getting out of bed at night, by carrying off the uric acid poison.—Advertisement.

Dangerous bronchial and lung ailments follow neglected colds—take Dr. King's New Discovery. It will keep you well. All druggists.—Advertisement.

## RUPTURE COMES LIKE THUNDERCLAP

Suddenness of Wilson's Breaking Off Relations Causes Dismay in Berlin.

**NO WISH TO TAKE U. S. ON**  
Copenhagen, (Via London), Feb. 12.—Little hope or expectation prevails in Berlin that war with the United States is avoidable or that a modus vivendi reconciling the policies of the two governments can be found.

There now is a cañon in the part of the authorities and a vast bulk of the people to avoid actual hostility in any way consistent with the general lines of the present submarine policy, but only in such a way. Accordingly, instructions were given, so The Associated Press has been reliably informed, to submarine commanders before they started on their February mission, to take the safe side when neutral vessels, particularly American, were in question whenever possible.

**Wouldn't Be Punished.**  
Enemy merchantmen when recognized as such were ordered to be sunk at sight, but neutral merchantmen were to be warned when such action in their judgment was consistent with the object of the campaign and the safety of their ships.

It is realized, however, after the prompt and resolute stand taken by President Wilson that these orders could only be palliative and only defer, not avoid, an ultimate break.

Also that if President Wilson stood by his announcement that the destruction of American lives or ships would be regarded as an act of hostility, a casus belli must come sooner or later—probably sooner on account of the numbers of Americans on enemy ships.

**Sink Foe Ships on Sight.**  
Moreover, there was the discretionary nature of the instructions to submarine commanders who were informed that while the careful course toward neutrals was recommended and desired, they would no longer be subjected to punishment for departing from their former procedure, or warning, if they found this advisable.

It is considered that the only possibility of the avoidance of hostilities would result from a modification of its standpoint by one or the other side and so far as could be judged from the positive declaration of Alfred Zimmermann, the German minister of foreign affairs, and other officials before The Associated Press correspondent's departure from Berlin, there was no probability that Germany would give way this time or abandon the ruthless campaign now started.

**Possible to Tell Story.**  
From a neutral cable office it now is possible to tell the story of the development of the present crisis on which the most rigid censorship has been applied in Germany.

To the observer in Berlin the approach of the crisis had been plainly and definitely evident since the rejection of Germany's peace overtures. Information as to Germany's definite decision to start a sharpened submarine and even the form it would take, namely, a blockade of specified regions (though the idea of a prohibited zone was later substituted for that of a "blockade" at the request of the naval authorities who anticipated possible formal objections under the blockade regulations) was received by The Associated Press almost on the morrow of Ambassador Gerard's speech on German-American relations, delivered at the banquet of the American Association of Commerce and Trade early in January.

**Decision Reached.**  
A week later it was stated that a full decision on the situation had not been reached and that the campaign would not be launched until after further consultations with Germany's allies and the receipt of certain information from Count Bernstorff and Count Tarnowski von Tarnow, respectively German and Austro-Hungarian ambassadors to the United States, of their concept of armed merchantmen and their liability to attack as warships.

The final decision on an out-and-out submarine campaign of a so-called ruthless type apparently was taken at the grand Austro-German conference at German headquarters on the German emperor's birthday, though the Associated Press heard the statement that submarines departing several days earlier for stations on the submarine hunting grounds were provided with contingent orders for this purpose.

eventually. The censorship, however, shut down tightly on any definite statements or predictions on the approaching crisis.

**Break Causes Dismay.**  
Nothing could be done except to report to Washington the developments which appeared in the press of the world before the embassy dispatches had started from Berlin and await the anticipated explosion.

This came in the shape of a rupture of relations earlier than even Americans had expected and certainly with a promptness which astonished and perhaps dismayed the German official world, prepared though it was for energetic American action by reason of the definite warnings in the Sussex correspondence.

Notwithstanding the plain terms of President Wilson's earlier communications, these officials evidently hoped against hope that the inauguration of an unrestricted submarine campaign might perhaps after all not bring about a breach with the United States, for in the days between Von Bethmann-Hollweg's announcement and the news of President Wilson's step in breaking off relations they were awaiting word from America with interest and anxiety which they made no effort to conceal.

**Greece Says It Is Not in Position to Join U. S. in Break**

London, Feb. 12.—The reply of Greece to the invitation of the United States to join in its attitude toward Germany has been handed to the American minister at Athens, the correspondent of the Exchange Telegraph company at the Greek capital telegraphs. The reply he states affirms the sympathy of Greece with every effort to accelerate peace and its approval of every effort to maintain freedom of the seas for the world's shipping, adding that Greece has already drawn Germany's attention to the grave consequences of the proposed submarine blockade.

In view of present conditions, however, the dispatch states, Greece explains that it is not in a position to contemplate concerted action for the protection of the national shipping.

Paris, Feb. 10.—(Saturday, 11 p. m.)—The Swiss federal council, in its reply to the German note on the new submarine campaign enters into an energetic protest against the blockade and reserves all the rights of Switzerland as a neutral, according to the Havas Agency's Bern correspondent. It expresses confidence, however, that the German government will take all measures to assure Swiss interests.

## ZIMMERMANN TELLS OF FALSE REPORTS

Says Just Learned Rumored Acts of United States Not Committed.

**BLAMES BRITISH AGENTS**  
Berlin, Feb. 12.—By Wireless to Sayville.—With reference to the present condition of German-American relations the German foreign secretary, Dr. Alfred Zimmermann, made the following statement today to the Overseas News Agency:

"We now have practically no speedy or reliable information about the United States. The best proof of this is furnished by two wireless messages which were sent February 5 by the correspondent in the United States of the German News Agency and which arrived yesterday. The contents of these two short messages were astounding, even sensational, for they told that the United States government had not confiscated German ships in American ports nor interned Germans residing in the United States.

**Through English Channels.**  
"Until yesterday morning all we knew about these matters had passed through English channels, and the gist of these reports was that the United States government actually had violated the property and liberty of German citizens.

"English agents by thus adulterating the truth did not intend, of course, to slander the United States. Their intention was to create public alarm in Germany and thus cause outbursts of popular indignation and perhaps even prompt the German government to rash actions based on error. All this then would have been reported in exactly the same—that is incorrect—fashion to the United States by the same British agencies. If they had succeeded these British agents would have given Germany the responsibility and fault in the eyes of every candid, but misled observer.

**Suspended Judgment.**
