Senate Finance Committee Approves the Revenue Bill

Washington, Feb. 12.—Final approval of the administration revenue bill, as amended by the democratic caucus, was voted today by the senate finance committee and Chairman Simmons was authorized to report the measure and urge its passage as soon as possible. Many democratic senators oppose it and were not bound by caucus action to support the proposal.

The 8 per cent net profit tax, increased inheritance taxes, munitions excises and proposed \$100,000,000 bond issue of the house bill are retained in the bill as it goes to the senate, the whole calculated to raise approximately \$350,000,000. The net profits tax is limited to run until July 1, 1921, and the munitions tax would expire six months instead of a year after the termination of the European war.

The average expenditure had increased by £1,000,000 daily as compared with the first sixty-three days of the financial year. There also had been an increase in expenditures for the army, but it was proportionate with the increase in the number of troops, the army being fourteen times as large as when the war began. The amounts asked for, Mr. Law said, would enable the government to meet expenses until the end of May. Of the last vote of credit there had been an unexpected balance of £276,000,000. In making advances to its allies, the chancellor continued, Great
