Corn finished \$4 gene to \$c\$ down, cats off \$6 %c to \$6 %c, and provisions varying from 2½c decline to a rise of 15c.

Depression as to prospect of a betterment of railroad traffic conditions was no uffect from the outset in the wheat plant and apparently would have become much worse but for aggressive action taken by board of trade officials looking the act of Clicago, except foodstuffice and apparently would have become much as it was, values the prices assemed to be almost a standard to the fact that despite recent optimistic resports as to the shipping attaction dealers found themselves unable to forward foodstuffs cast, and the congestion had reached a stage where for the first time ever known operations in a practical standard.

Corn like wheat, was bearishly influenced by the railroad congestion. Mild weather that despite relatively steadler in the lateralized feeding demand acted also as a handicap on the bulk. Oats sympathised with the weathers of other cereal. The volume of trade was small. Sharp advances in the hog market carried provisions to may high levels for the neason. Frofit laking on the part \$61 longs, however, wiped out all the gains except on look. Two Plead Guilty After

Taking Up Time of Court The wheels of justice wasted a half day of energy in district court Tuesday afternoon.

John W. Garlin and Ernest Wright, John W. Garlin and Ernest Wright, bound over from police court on charges of larceny from the person, had asked for separate trials. The law accorded them the privilege.

Garlin was put on trial first. The state submitted its evidence Tuesday morning, police testifying that Garlin and Wright were the men who held up Janues Hobey on December 20, 1916, and robbed him of \$20.

Wednesday morning both defendants appeared before Judge Sears and asked to be allowed to plead guilty. They were each sentenced to from one to seven years in the state penitentiary.
