LARGEST DEALERS in USED AUTOMOBILES WEST of CHICAGO MAKING SURE OF YOUR CAR

The maker's name on a used car is only a part of the story. The biggest part of the story hinges on where you buy the used car. In addition to the maker's name we have our own good name to safeguard and we are selfish enough to guard our name more than his. So you may be very sure of any car you buy from us for we have to be sure of the car before we offer it to you.

Better Values IN Used Cars

When you buy used cars of the Industrial Garage you receive more than a mere transaction of money.

You get satisfaction that comes from years of experience in success in handling used automobiles. Not only do we offer you the best line in the city from which to make your selection, but we make prices that are possible only when this business is conducted on such a large scale as ours.

With the advent of the spring buying season, and the usual big demand for used cars, our stock will soon become depleted and the selections more limited.

Our advice is to buy now. However, if you are not now ready to buy your car come in and look around, find one that strikes your fancy and make a small payment down. We will hold it for you until you want it.
