Salient Features

The Okmulgee Producing & Refining Company is the consolidation of seven established dividend-paying companies.

The company forms a complete cycle in the production of Oil, having under one management the PRODUCTION, TRANSPORTATION, RE-FINING and MARKETING of PETROLEUM AND ITS PRODUCTS.

Three of the seven companies now combined each paid dividends of 100 per cent in the year 1916.

The Company is now paying 21/2 per cent dividends every three months, but the earnings are sufficient to pay over 60 per cent annually on all outstanding stock, although only 10 per cent of the Company's holdings have been developed.

The Company owns, free and clear, over 8,960 acres of proven Oil and Gas leases in the choicest oil fields of Oklahoma, on which there are now 53 producing wells and a fully equipped modern Refinery.

Present production, 1,700 bbls. per day. Refinery capacity, 1,000 bbls. per day. Average daily profits,\$3,150, equivalent to \$1,149,750 per

Twelve new wells are being drilled each month, which assures constantly increasing production with consequent increase in earnings. The company recently refused \$700,000 for a Single lease of 200 acres. Application is being made to list the shares of the Company on the New

York Curb and the Kansas City Stock Exchange. HAVING PLACED A LARGE PART OF THIS ISSUE. WE NOW OFFER THE UNSOLD PORTION AT \$6
