Sheep—A rather generous supply of sheep
and lambs was on hand for the start of the
week, midforenous estimates calling for
fifty-eight cars, or 14.006 head, which was
neveral loads mure than were expected
arily. This is a triffe smaller than for
Monday, a week ago, but is over 2,000 larger
than two weeks ago, and a gain of 1,500
head as compared with last year.
Supplies were fairly decent all around
the leap this morning, and early rounds of
the lamb market had a decidedly weakind
tone. Fackers seemed to be more or less
indifferent even fowards the good light
tamies, and did not even make bids on, a
good many of the handy weight and heavy
tambs.

iambs, and did not even make bids on a good many of the handy weight and heavy lambs.

A few of the choice light Mexican lambs sold in fair season at prices that were not over a shade easier, but the bulk of the efferings did not start to move until well along in the morning, when they were finally bought at figures that were fully a dime dower than list week's close and were called even more than that by some traders. Even at the decline heavy lambs were peer performers, aweral loads that were on the weighty order being still unsoid at a rather late hour. Bulk of the good handyweight westerns sold around \$14.15, with a few cars as high as \$14.25. Several bunches of the best Mexicans, some of which were very similar to those that brought \$14.65, and other Mexicans that were extremely light, but nothing extra as to finish, took \$14.60. Aged classes were more active than lambs, bulk of the old sheep selling in good season at about steady prices. As high as \$11.60 was paid for best evens, the price equaling the record, and a good kind was bought at \$11.60 with some plainer ones down to \$10.56.

New York, Feb. 25.—The market for coffee futures showed a stendy tone after the liquidation of last week. There was further decline of 2 to 5 points at the opening, but selling was much less active than recently, although sentiment was still very much unsettled by the fear of a restricted.

European outlet. Evidently the decline of about 12s points from the high level of last month in the case of July contracts, which sold at 7.35c at the start, had left the north at 7.35c at the start, had left the north at 1.35c at the start, had left the north at 1.35c at the start, had left the north at 1.35c at the north at 1.35c at

## CHICAGO GRAIN AND PROVISIONS.

CHICAGO GRAIN AND PROVISIONS.

Fluctuations in Wheat Market at Opening Are Narrow and Indecisive.

Chicago, Feb. 26.—Wheat today suffered moderate declines, chiefly as a result of the sinking of the Laconta. President Wilson's address to congress appeared to have no effect on the market. Closing quotations were unsettled, % led net lower, with May at \$1.77 x £1.77% and July at \$1.51%. Corn lost 1.6 % a net near the president would go before rangeress and request support in employing armed force to protect American marine rights, the wheat trade showed no trace of excitement and, on the contrary, was more steady than usual. Keen interest was manifested in the president action, but as an influence on values his course scened to have been fully anticipated. Only marrow fluctuations took placed until word came that the Laconta had been torpeded without warning and that American mere abourd. Peraitent selling them developed for the pest of the day, the bearing of the market manifestity having the advantage.

A sharp falling off to the United States visible supply total counteracted to some extent the depressing consequences on wheat prices that the loss of the Lacona might inherent have been greated that the supply total counteracted to some extent the depressing consequences on wheat prices that the loss of the Lacona might inherent have been greated as the grain elevators here. Corn and oats had no independence. So the cause were governed by the changes in what fockade at the grain elevators here. Corn and oats had no independence. So the cause were governed by the changes in what fockade at the grain elevators here. Corn and oats had no independence. So the cause here were governed by the changes in what. Trade was light, and for the most part local.

Provisions made new high records for the season because of the strength of the measure of the strength of the most part local.

# HAUNTS RETAILERS

In the matter of ladies' ready-tothey will be compelled to make a ments to be passed by the legislature against the "return-goods" evil,

This follows upon the announcement by the National Cloak, Suit and Skirt Manufacturers' association that they will not accept returned goods except in cases where the goods is shown to be not as represented, or is unsatisfactory for any other reason. Omaha etailers have begun to con-

sider how more strenuously to fight the return-goods evil. The manufac-turer points out that the "return-goods" evil strikes him after it has goods" evil strikes him after it has struck the retailer, and that it really is as great a nuisance to him as to the retailer.

In the circular which the retailers have received from the National Cloak, Suit and Skirt Manufacturers' Cloak, Suit and Skirt Manufacturers' association, this organization winds up the discussion with the following: First—We allow no misrepresentation, implied or expressed, and shall be grateful if you will inform us, should any such occur. Second—We shall be glad to take back for return or exchange any merchandise that is not as represented or is unrealisfactory for any other reason for which we are at fault, if complaint is made immediately upon receipts of the goods. Garments fairly bought and fairly delivered can not be returned.

#### National the Only Club in London That Has Prayers

(Carrespondence of The Associated Press.) London, Feb. 12.—The National, the only club in London which has morning prayers, has just moved to a new club house a long distance from the government building; around Whitehall, whose proximity resulted some time ago in the commandeering for war purposes of their old club house. The National, which numbers

among its members most of the not-able of the Church of England, was the first club to be commandeered.

FOR NEW CITY JAIL

The city commissioners believe that wear apparel the local retailers say among the Omaha charter amendmore strenuous campaign than ever will be one to empower the city counwithout submitting to a vote.

"I have contended for eacht years that a new jail and police station should be built," said Mayor Dalilman.

Lour typist doesn't have to watch the machine. She just keeps on typing.

Instead of a dozen halts per letter, the Self Starting Keys give a dozen flying starts. The time thus saved amounts to from 15% to 25%. It pays for the machine.

To learn more about this time-saving invention write for descriptive folders. Address below, or 'phone
